

CGG Provides its Vessel Utilization for the Fourth Quarter and Year 2013

PARIS, France – January 14, 2014

CGG provides its vessel utilization and fleet allocation updates for the fourth quarter and full year of 2013.

Vessel utilization for the fourth quarter of 2013:

- The **vessel availability rate was 83%**, in line with Company forecasts made during the recent Capital Market Day and following the delay of recently awarded large contracts. This compares to an 89% availability rate in the third quarter of 2013 and a 93% rate in the fourth quarter of 2012.
- The **vessel production rate was 90%**. This compares to a 94% production rate in the third quarter of 2013 and an 89% rate in the fourth quarter of 2012.
- During the fourth quarter of 2013, our 3D vessels were allocated 66% to contract and 34% to multi-client programs.

Vessel utilization and fleet allocation update for the full year 2013:

- The **vessel availability rate for the full year 2013 was 89%**. This compares to a 90% rate for the full year 2012.
- The **vessel production rate was 92% for the full year 2013**. This compares to a 90% rate for the full year 2012.
- During 2013, our 3D vessels were allocated 72% to contract and 28% to multi-client programs.

Backlog as of January 1st 2014

- CGG backlog as of January 1st 2014 stood at \$1,340 million, sequentially stable and up 9% compared to last year.

¹ - The **vessel availability rate**, a metric measuring the structural availability of our vessels to meet demand; this metric is related to the entire fleet, and corresponds to the total vessel time reduced by the sum of the standby time, of the shipyard time and the steaming time (the "available time"), all divided by total vessel time;

² - The **vessel production rate**, a metric measuring the effective utilization of the vessels once available; this metric is related to the entire fleet, and corresponds to the available time reduced by the operational downtime, all then divided by available time.

About CGG

CGG (www.cgg.com) is a fully integrated Geoscience company providing leading geological, geophysical and reservoir capabilities to its broad base of customers primarily from the global oil and gas industry. Through its three complementary business divisions of Equipment, Acquisition and Geology, Geophysics & Reservoir (GGR), CGG brings value across all aspects of natural resource exploration and exploitation.

CGG employs over 9,800 people around the world, all with a Passion for Geoscience and working together to deliver the best solutions to its customers.
