GENFIT HONORED AT THE 'INVESTOR AWARDS 2014' ORGANIZED BY BOURSORAMA AND MORNINGSTAR

Lille (France), Boston (Massachusetts, United States), November 28, 2014 – GENFIT (Euronext: GNFT; ISIN: FR0004163111), a biopharmaceutical company at the forefront of developing therapeutic and diagnostic solutions in metabolic and inflammatory diseases, that notably affect the liver or the gastrointestinal system, today announces that it has been honored at the INVESTOR AWARDS 2014 in the “Young Talent” category.

GENFIT was considered the overall favorite company listed on the stock exchange for less than 10 years, outside of the CAC 40. This prize results from a vote that took place between August 28th and November 2nd, 2014, amongst members of the Boursorama and Morningstar web-sites, both professionals and individuals, as well as all French accredited asset management companies.

Jean-François Mouney, Chairman and Chief Executive Officer of GENFIT, declared: "This distinction rewards our efforts in terms of communication of information with all our shareholders. Whether they are individual shareholders or representatives of the most prestigious financial institutions, we are committed to keeping them informed. This communication policy is our way of sharing with them our enthusiasm in the discovery and development of innovative medicines for insufficiently met medical needs."

About GENFIT:

GENFIT is a biopharmaceutical company focused on the Discovery and Development of drug candidates in fields of high medical need due to a lack of suitable treatment and an increasing number of patients worldwide. GENFIT's R&D efforts are focused on contributing to bringing new medicines to market for patients with metabolic, inflammatory, autoimmune and fibrotic diseases, that affect the liver (such as NASH - Nonalcoholic steatohepatitis) or the bowel (such as the inflammatory bowel disease). GENFIT implements mutually beneficial approaches that combine novel treatments and biomarkers; its research programs have resulted in the creation of a rich and diversified pipeline of drug candidates, including GENFIT's lead proprietary compound, GFT505, that is completing a Phase 2b study in NASH.

With facilities in Lille, France, and Boston, MA (USA), the Company has approximately 80 employees. GENFIT is a public company listed in compartment B of Euronext's regulated market in Paris (Euronext: GNFT; ISIN: FR0004163111). www.genfit.com
