

## EGIDE signs three Manufacturers' representatives

*Trappes, Bollene & Cambridge, March 20th 2015 - 7:00 am CET - Egide (ISIN : FR0000072373 - Segment C Euronext Paris), confirms its new sales strategy with the deployment of its worldwide sales network and announces the signature with 3 new reps in Italy, Israel and North America.*

Today, the Group is actively deploying its products in Europe via its French site in Bollene and in the United States via its Cambridge site, based on the recognized excellence of its products and the power and reliability of the innovative solutions it offers. Within that context, Egide already uses Manufacturers' representatives in the USA, China and India.

As part of the Egide Group's strategic plan 2018, Egide has added three additional Manufacturers' representatives for key geographical areas:

- Marlin Systems for Israel
- Consystem for Italy
- Robert Duke Inc. for the USA - Alabama, Florida and Georgia

These three partners were selected for the quality of their network and their understanding of the market needs of existing clients as well as other clients in their respective territories.

James F. Collins, Group Chief Executive Officer, commented: *"Today Egide continues to innovate and invest a significant portion of its revenues in R & D to design, manufacture and industrialize innovative hermetic packages for major contractors in France and international sectors of the aerospace industry, defense, transportation and telecommunications. In this context, we are diversifying our sales network and deploying in a gradual but targeted way and by focusing on expanding our areas of expertise in France and abroad".*

He added: *"Through these new trade partnerships, the Egide Group adapts its strategy to the specificities of each country in which it is present or represented, to best meet local needs. We must be able to meet the demands of our existing customers worldwide. The internationalization of our presence is a must."*

### About Egide

*Egide SA is a European group with an international dimension, specialized in the manufacture of hermetic packages for sensitive electronic components. The Group operates in a broad range of high-tech sectors that include the Aerospace, Defense, Security, Aeronautics and Telecommunications segments. Egide is the only pure player in this market niche with manufacturing bases in France and the United States.*
