I the undersigned, Yannick Bolloré, "Président Directeur Général" of Havas, certify that, to the best of my knowledge, the consolidated financial statements for the half-year ended June 30, 2015 are prepared in accordance with the accounting standards applicable and give a true and fair view of the assets, financial position and results of the company and all the subsidiaries included in the scope of consolidation and that the interim management report gives a true and fair view of the material events that occurred in the first half of the financial year and of their impact on the financial statements, of the main transactions with related parties and a description of the main risks and uncertainties for the remaining six months of the financial year.

Puteaux, August 27, 2015

Président Directeur Général

II. Half-Year Activity Report

Activity report for the first half of 2015

1. Accounting methods and principles

The condensed consolidated financial statements of the Havas Group for the interim period ended June 30, 2015 have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union on this date. These standards are available on the following website of the European Union:

http://ec.europa.eu/internal market/accounting/ias/index en.htm

Comparative first half of 2014 and full year 2014 consolidated financial statements have also been prepared in accordance with the same accounting principles and rules.

IFRIC 21 "Levies" came into force on January 1, 2015. As its application is retrospective, financial statements for the interim period ended June 30, 2014 have been restated accordingly.

In compliance with IAS 34, these financial statements do not include all the notes as required for an annual report, merely selected explanatory notes. These financial statements should be read in conjunction with the Group's financial statements as at December 31, 2014.

2. Activity and highlights of first half 2015

Group revenue was €565 million for Q2 2015, making a total of €1,034 million for H1 2015, an increase of 19.2% on an unadjusted basis.

The Group's organic growth (excluding exchange rate variations and changes in the scope of consolidation) was +5.5% in Q2 2015 and +6.3% for H1 2015.

Exchange rate variations had a positive exchange rate impact of €85.6 million over the first half of the year.

Europe maintained sound growth of +5.1% in Q2 2015, resulting in a highly satisfactory first half driven by strong performances from France, Spain, Germany and Italy in particular. After an outstanding year in 2014, the UK continued to deliver good results.

North America continued its strong growth, driven mainly by healthcare communications and creative agencies.

Asia Pacific felt the effects of the downturn caused by China's economic difficulties. The big-country contributors to H1 growth were Australia, China and India.

Latin America reported satisfactory growth of +3.2% for H1 2015, but the pace of growth is now slackening due to a sharp downturn in the economies of key countries such as Brazil and Mexico.

3. Consolidated income

Income from operations amounted to €137.3 million in the first half of 2015 compared with €112.8 million in the first half of 2014, representing a gain of €24.5 million. Margins on income from operations were 13.3% and 13.0% respectively.

Operating income amounted to €127.5 million in the first half of 2015 compared with €104.2 million in the first half of 2014, an increase of €23.3 million.

Other operating income and expenses amounted to €-9.8 million for the first half of 2015 against €-8.6 million for the first half of 2014.

Ongoing restructuring generated total non-recurring expenses of €-6.9 million in the first half of 2015.

The Other operating expenses and income line items also include goodwill impairment charges, acquisition-related costs and adjustments to earn-out obligations in application of IFRS 3R, and other non-recurring items (litigations, etc.).

Net financial loss amounted to €-8.3 million for the first half of 2015 compared with €-12.4 million for the first half of 2014. The reduction in financial expenses resulted from the repayment of bonds and lower debt refinancing costs due to the decrease in interest rates.

The effective income tax rate was 30.4% for the first half of 2015 compared with 29.0% for the first half of 2014.

The change in effective tax rate resulted from more restrictive tax policies of OECD countries, and a steady use of tax losses.

Consolidated net income, Group share, reached €77.0 million in the first half of 2015 compared with €60.4 million in the first half of 2014.

Diluted earnings per share amounted to €0.18 for the first half of 2015, up sharply by comparison with the first half of 2014.

4. Related party transactions

Media Planning Group and its subsidiaries have entered into transactions with members of the family of Alfonso Rodés Vilà, Deputy Chief Executive Officer of Havas SA and Chief Executive Officer of Havas Media, and with his father Leopoldo Rodés Castañe (died on July 8, 2015), a Director of Havas SA till June 14, 2012 and Chairman of Media Planning Group, or with companies they control. These transactions were mainly in connection with media space buying, advertising and administrative services rendered, and leases of Media Planning Group premises in Barcelona.

On July 28, 2011, Havas Management España entered into an agreement with Mr. Fernando Rodés Vilà that includes services to be rendered successively, a non-compete clause and a notional dividend. A further agreement was signed on June 28, 2012 stipulating the remuneration in respect of the notional dividend of ISP and Gevisa, represented by Mr. Fernando Rodés Vilà and Mr. Leopoldo Rodés Castañe respectively, as Board members.

Furthermore, certain subsidiaries of the Group have rendered services in connection with advertising to Bolloré Group subsidiaries. Transactions were carried out at market value.

Certain subsidiaries of the Group have also performed operating transactions at market value for Vivendi and its subsidiaries. In the case of Canal+ Group:

- Havas Group clients have bought media space, via media agencies for the purposes of their advertising campaigns, from the Canal+ Group totaling €54 million in the first half of 2015 (€45 million in the first half of 2014):
- As part of its campaigns to promote its brands Canal+, Canalsat, Canalplay, the Canal+ Group has purchased space in the principal media through the Havas Group and its agencies totaling €41 million in the first half of 2015 (€32 million in the first half of 2014);
- The Havas Group and its subsidiaries realized €3 million on non-media and production services, broadcasting rights and fees in the first half of 2015 (€4 million in the first half of 2014);
- The Havas Group and its subsidiaries devised and produced campaigns for Canal+ totaling €5 million in the first half of 2015 (€7 million in the first half of 2014).

All of these transactions were fully described in the 2014 annual report.

The Havas Group did not enter into any new material transactions with related parties in the first half of 2015.

5. First half 2015 balance sheet and statement of cash flows

Group share in equity amounted to €1,531.8 million as at June 30, 2015 compared with €1,446.6 million as at December 31, 2014. Group equity increased by €85.2, mainly resulting from the exercise of *BSAARs* for a total amount of €10.2 million, net income for the current period of €77.0 million, currency translation adjustments of €59.0 million, and dividend payments to Havas shareholders of €-54.3 million.

Net debt as at June 30, 2015 amounted to €139.0 million against €-42.6 million as at December 31, 2014. The increase in indebtedness mainly resulted from the following:

- change in working capital requirement which is traditionally negative in the first half of the year, amounting to €216.6 million for the period, partly offset by positive operating cash flows for the period, resulting in net operating cash used in operating activities of €-114.2 million compared with €-81,0 million for the first half 2014;
- capital expenditure of €27.5 million, net of proceeds from disposals;
- net financial investments of €5.4 million including in particular earn-out and buy-out payments. loans and deposits;
- total dividend payment of €59.3 million of which €54.3 million to Havas SA shareholders;
- proceeds from issuance of stock for €10.2 million relating to the exercise of stock options and BSAARs.

6. Risks and uncertainties

All economic zones reported strong business performances of activities in the first half of 2015. North America, Europe and the United Kingdom posted organic growth in excess of 5%. Other regions (France, Latin America ...) grew less strongly, however.

In this context, Havas remains vigilant in tracking current international economic trends, and confident in its ability to react.

5. Notes to the consolidated financial statements

5.1. Accounting principles

5.1.1. Information related to Havas Group

Havas SA is a public limited company, registered in France, and listed on Euronext. The functional currency of Havas SA is the euro. The Havas Group's (the "Group" or "Havas") consolidated financial statements are presented in millions of euro (€M), unless otherwise indicated.

5.1.2. Approval of the consolidated financial statements by the Board of Directors

The preparation of Havas' condensed consolidated financial statements for the interim period ended June 30, 2015 under IFRS is the responsibility of the Board of Directors. These statements were approved by the Board at its meeting on August 27, 2015.

5.1.3. Statement of compliance, accounting principles and methods

Pursuant to European Regulation 1606/2002 of July 19, 2002 on international accounting standards, the condensed consolidated financial statements of the Havas Group for the interim period ended June 30, 2015 have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union on this date. These standards are available on the following website of the European Union:

http://ec.europa.eu/internal market/accounting/ias/index en.htm

Comparative first half of 2014 and full year 2014 consolidated financial statements have also been prepared in accordance with the same accounting principles and rules.

In compliance with IAS 34, these financial statements do not include all the notes as required for an annual report, merely selected explanatory notes. These financial statements should be read in connection with the Group's financial statements as at December 31, 2014.

5.1.4. New standard applicable in 2015

The following interpretation came into force on January 1, 2015:

IFRIC 21 "Levies".

IFRIC 21 prescribes the recognition of levies other than corporate tax at the date when they are due. When the event of a levy is subject to several conditions, all of them should be met to account for the levy.

As its application is retrospective, financial statements for the interim period ended June 30, 2014 have been restated accordingly.

5.1.5. Estimates

The preparation of the financial statements requires management to make estimates and formulate judgments that affect the amounts of certain assets, liabilities, income and expenses as well as certain disclosures reported in the consolidated financial statements. The actual data may differ slightly from these estimates, depending on changes in assumptions and situations.

Any events occurring in the first half of the current year and requiring revisions to be made to estimates or assumptions used for the preceding closing are mentioned in the following notes.

5.2. Notes to the consolidated balance sheet and income statement

5.2.1. Scope of consolidation

The total number of consolidated companies was 431 at June 30, 2015 compared with 418 at December 31, 2014.

5.2.2. Goodwill

The carrying value of goodwill and trademarks is subject to an impairment test carried out at least once per annum and whenever events or circumstances indicate that they may be impaired. Such events or circumstances are tied to significant unfavorable changes on a long-term basis that affect either the economic environment or assumptions and objectives previously used. An impairment charge is required when the recoverable value of tested assets is persistently lower than their carrying value.

The Group has therefore carried out goodwill impairment tests on its cash generating units (CGUs) or groups of CGUs at risk of impairment over the first half of 2015. The tests identified no goodwill impairment as at June 30, 2015.

Changes in goodwill net value in the first half of 2015 and full year 2014 are the following:

	1st Half	Full year
(in euro million)	2015	2014
Value at beginning of period	1 686	1 593
Acquisitions of companies (1)	44	35
Buy-out adjustments (2)		(3)

Reclassifications (3)		(16)
Changes in consolidation scope (5)		(5)
Currency translation adjustments (4)	70	81

- (1) Havas acquired a 60% stake in Havas Formula PR in December 2014, and consolidated it for the first time in the first half of 2015. Havas Formula PR is an integrated communications and experiential marketing agency. In addition, Havas took over Plastic Mobile, a Canadian company that builds applications and other strategic solutions for m-commerce, and also Bird and Schulte, two German award-winning agencies which offer a full spectrum of services for Rx and OTC. Finally, Havas acquired EGC & Associés, a French agency specializing in general-interest events.
- (2) Commitments undertaken prior to January 1, 2010.
- (3) Goodwill of €16.1 million was reclassified to "Other intangible assets" in 2014.
- (4) In the first half of 2015, the euro weakened, particularly against the British pound, the US dollar and the Hong Kong dollar. Currency translation adjustments were, respectively, €20.1 million, €42.9 million and €3.2 million.
- (5) Havas sold a business in the United States in 2014.

5.2.3. Net cash and cash equivalents

The net cash and cash equivalents position is the following:

(in euro million)	06.30.2015	12.31.2014
Cash	178	515
Short-term financial investments	2	7
Cash and cash equivalents	180	522

Net cash and cash equivalents	131	508

Cash mainly includes sight deposits and term deposits at leading banks.

As at June 30, 2015, short-term financial investments consisted of investments in money market funds of €1.9 million compared with €7.7 million as at December 31, 2014. They are subject to Level 2 valuation and can be converted into cash at any time without risk of capital loss or penalty.

The reduction in net cash at June 30, 2015 as compared to December 31, 2014 resulted in particularly from repayment of borrowings for a total amount of €215 million.

Net cash shown on the consolidated statement of cash flows includes cash and cash equivalents net of bank overdrafts, which form an integral part of cash management.

5.2.4. Financial debt

5.2.4.1. Net debt summary

5.2.4.2. Bonds

On July 11, 2013, Havas SA issued bonds for a total amount of €100.0 million in the form of a Euro Private Placement (EURO PP) at a price of 99.663%. The bonds carry a coupon rate of 3.125% per annum, payable annually in arrears on July 11 of each year. They will be redeemed at par on July 11, 2018.

The amortized cost of this debt on the balance sheet represented €99.5 million as at June 30, 2015 compared with €99.4 million as at December 31, 2014.

5.2.4.3. OBSAAR

On February 8, 2008, Havas SA entered into a borrowing arrangement for €100.0 million represented by 10,000 bonds with associated callable subscription and/or acquisition warrants (*OBSAAR*) to be amortized by equal or approximately equal tranches on February 8, 2013, 2014 and 2015. Each bond included 1,500 *BSAARs* immediately detachable.

Net proceeds from the issuance of bonds amounted to €98.5 million.

The last tranche of this borrowing was redeemed on February 9, 2015 for €33.3 million.

The 2008 OBSAARs were subject to financial covenants to be met at each year-end closing. These covenants are also applicable to confirmed credit lines contracted by Havas SA, and are as follows:

Financial covenants	
Adjusted EBITDA/Net interest expense	>3.5 : 1
Adjusted net debt/Adjusted EBITDA	<3.0 : 1

These financial covenants were met as at December 31, 2014.

5.2.4.4. Bank borrowings and other financial debts

As at June 30, 2015, the Group drew down a total amount of €70.0 million in short-term credit lines granted by banks, of which €60.0 million were located in Asia and Latin America.

These borrowings were not subject to financial covenants since Havas SA has undertaken to cover their repayment.

In addition, Havas SA had confirmed credit lines granted by leading banks for a total amount of €506.0 million of which €176.0 million will be available until September 30, 2016, €150.0 million until the second half of 2018, and €150.0 million, signed in July 2015, until September 30, 2020.

The applicable interest rate is Euribor + spread for all these credit lines.

These credit lines are subject to financial covenants as indicated above.

The "Other financial debts" line item of €92.4 million included commercial paper for €82.0 million issued as part of the issue plan for a maximum total amount of €400.0 million implemented in the first half of 2009, and €5.5 million of accrued interest.

5.2.4.5. Breakdown of long-term borrowings and financial debts as at June 30, 2015

• Performance share plans

The Board of Directors at its meeting on January 29, 2014 decided, to grant a performance share plan to employees and directors of Havas SA and its subsidiaries in France and abroad. The allocation involved 2,465,000 new Havas shares out of an authorization of 2,500,000 shares, through a capital increase. No performance shares were allocated to the Chief Executive Officer of Havas SA.

On January 19, 2015, the Board of Directors granted a second plan involving 2,420,000 new Havas shares, with similar characteristics.

Furthermore, on March 19, 2015, in accordance with the authorization granted by the Shareholders' Meeting of June 5, 2013, the Board of Directors granted 70,000 performance shares to Mr. Yannick Bolloré.

The characteristics of these three plans are the following:

Plans for Havas SA shares

All of the stock options were exercised as at December 31, 2014.

5.2.7. Callable subscription and/or acquisition warrants (BSAARs)

2008 BSAAR

The associated callable subscription and/or acquisition warrants (*BSAAR*) to the bonds (*OBSAAR*) issued in February 2008 were sold to Havas managers and directors for a unit price of €0.34 which was approved by an independent expert. Nevertheless, this value was different from the option value determined according to IFRS 2. The difference between the option value and the *BSAAR* price represented an expense to be allocated as compensation over the vesting period.

The BSAARs were not transferable prior to February 8, 2012, the date of their admission on the Eurolist of Euronext Paris SA stock market.

BSAARs were exercisable at any time from that date until the 7th anniversary of their issuance. Each BSAAR gave the right to subscribe or buy a new or existing Havas SA share for €3.85.

Following the success of the share repurchase tender offer (*OPRA*) launched by Havas SA in May 2012, a 2008 *BSAAR* gave the right to subscribe or buy 1.03 new or existing Havas SA shares.

The table below summarizes all operations relating to BSAARs in the first half of 2015:

5.2.12. Operating segments

All Group businesses present identical characteristics, are complementary and are run according to the same business model. For several years, the operating structure of Havas has increasingly been organized to offer each client a global range of communications services including traditional advertising, media and digital expertise.

As a result, internal reporting is based on an analysis of the various activities by geographical zone, permitting comparability over time. The scope of operations is adjusted to reflect managerial developments and expected synergies. The operating segments remained constant over the two comparative periods.

Statutory Auditors' Review Report on the Halfyearly Financial Information

For the period from January 1 to June 30, 2015

This is a free translation into English of the statutory auditors' review report on the half-yearly financial information issued in French and is provided solely for the convenience of English-speaking users. This report includes information relating to the specific verification of information given in the Group's half-yearly management report. This report should be read in conjunction with, and construed in accordance with, French law and professional standards applicable in France.

To the Shareholders,

In compliance with the assignment entrusted to us by your Annual General Meeting and in accordance with the requirements of article L.451-1-2 III of the Monetary and Financial Code ("Code monétaire et financier"), we hereby report to you on:

- the review of the accompanying (condensed) half-yearly consolidated financial statements of HAVAS, for the period from January 1 to June 30, 2015,
- the verification of the information presented in the half-yearly management report.

These condensed half-yearly consolidated financial statements are the responsibility of the Board of Directors. Our role is to express a conclusion on these financial statements based on our review.

I- Conclusion on the financial statements

We conducted our review in accordance with professional standards applicable in France. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with professional standards applicable in France and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion. Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed half-yearly consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 – standard of the IFRSs as adopted by the European Union applicable to interim financial information.

II- Specific verification

We have also verified the information presented in the half-yearly management report on the condensed half-yearly consolidated financial statements subject to our review. We have no matters to report as to its fair presentation and consistency with the condensed half-yearly consolidated financial statements.
