

HIPAY GROUP GUIDES AUCHAN AND OCLIO IN THE DEVELOPMENT OF THEIR MARKETPLACES

Paris, September 8th 2015, 5.45 pm: HiPay Group, leader on the online payment market, announces today the beginning of two new collaborations, confirming once again the company's expertise in **processing and securing payments on Auchan's and Oclio's marketplaces**.

Purchases and sales on marketplaces have been booming for a few years. Almost 70% of Internet users are thus likely to have already bought via a marketplace*. **Auchan and Oclio (Du Pareil Au Même Group)** are opening up to affiliated sellers too. To comply with legislation on payment services and secure transactions on their platform, both companies have decided to rely on HiPay for its expertise and customer care. With over 12 million transactions processed every month and two licenses (e-money issuer and payment institution), the company is a key player in online payments.

Brigitte Azoulay, Financial Audit Director at Auchan, explains: "Implementing the solution of HiPay Group has allowed us to optimize our time-to-market in order to offer our buyers and sellers a 100% regulation-compliant environment".

Beyond ensuring regulation compliance, HiPay Group offers high value-added services to increase the profitability of marketplaces by reducing fraud and time spent on transaction management, optimizing conversion rate or fostering international expansion...

"At HiPay, simplifying transaction management for all e-merchants is in our DNA. As a trusted partner certified by supervisory authorities, we guide marketplaces with a solution adapted to their ecosystem. We manage the entire payment chain in order to let them focus on their business development", concludes **Bruno Gloaguen, COO, HiPay Group.**
