James (Jim) F. Collins, CEO, comments: « We are anticipating growth during the second half of this year compared to the previous one, in line with our objective to achieve in 2015, the same level of sales as last year. As we have a positive book to bill ratio in 2015, and we are deploying our previously announced new commercial strategy and organization, we expect double-digit growth in 2016. ».

NEW WEBSITE: www.egide-group.com

Egide has launched its new website that has been completely revamped to reflect its new commercial strategy and to support its growing presence within international markets. It has been designed with a “responsive design” and especially developed for smartphones and tablet use: all of its pages can be accessed with equal ease regardless of the terminal used (PCs, smartphones, tablets, TV, etc.). This new site brings many new features, market, technologies and products specificities, a section dedicated to investors with major market and financial information, the group’s news and events, as well as information related to corporate governance

ABOUT EGIDE

Egide is a group with an international dimension, specialized in the manufacture of hermetic packages for sensitive electronic components. It operates in cutting edge markets with strong technology barriers to entry in all critical industry segments (Space, Defense, Security, Aeronautics, Telecommunications, Energy,...). Egide is the only pure player in this market niche with manufacturing bases in France and the United States.
