Paris, October 26, 2015 - **Generix Group**, Industrial, Logistical and Retail Ecosystems provider with leading Collaborative Software Solutions, issued today its revenues for the second quarter of its financial year 2015/2016.

With sales of €14 million, during the past quarter the Group recorded growth of 11% driven primarily by SaaS (up 13%). This also drives Consulting and Services activities thanks to the projects that support the newly signed contracts. Corrected for a basic trend caused by significant and non recurring excess consumption levels during the second quarter of the previous fiscal year, the growth in SaaS activity continues along the same trend as seen during previous quarters with recurring business rising by some 20%.

SIGNATURES OF NEW SaaS CONTRACTS DURING THE HALF YEAR PERIOD HAVE MULTIPLIED BY 3.6

	Quarter ended September 30			Var. Q2 2015 vs Q2 2014	6 months ended September 30			Var. 2015 vs 2014
Unaudited (K€)	2015	2014	2013		2015	2014	2013	
New SaaS contract signing	1 916	1 979	1 610	-3%	15 080	4 181	2 995	261%

The first half of fiscal 2015/2016 was marked by newly signed SaaS contracts multiplying by 3.6 over the first quarter of the previous financial year thanks to the signing of two contracts worth an exceptional amount during the first quarter.

These new SaaS contracts signed run for an average commitment of 4.7 years, so the signatures recorded during the first half of fiscal 2015/2016 will, once the various deployments are completed, allow us to generate additional annual sales of close to 3.2 million Euros.

After already growing by more than 50% during fiscal 2014/2015, the SaaS backlog* has more than doubled during the past half year. This growth is the result of the signatures recorded during the past half year and an extension of the commitments made by customers.

PROSPECTS

The SaaS signatures seen since the start of the fiscal year, together with first half profitability that is in line with the Group's forecasts, mean that we can start the second half of fiscal 2015/2016 confidently.

*SaaS backlog: Firm orders received in SaaS spread over several years which are not recognized in revenue yet
