

# **BOLLORÉ GROUP**

April 12, 2016

## **PRESS RELEASE**

Groupe Bolloré firstly indicates that it has not had and does not have any relations with the company PEFACO and its management.

With respect to its port activities, Bolloré Group would like to stress that these are considerable investments, carried out in partnership with other large international groups. They represent commitments extending over many tens of years and for which they are selected, exclusively, according to the amount and technical qualities of the investments.
