Coface to cede French state export guarantees to Bpifrance before end 2016

In line with the protocol agreed with the French state on 29 July 2015, today Coface and Bpifrance announce that they have signed an agreement under which management of public export guarantees will be transferred from Coface to Bpifrance.

The transfer of all employees and IT systems dedicated to this activity will take place before the end of 2016, at a date to be stipulated by decree.

Up until the transfer, Coface will continue to manage public guarantees and to be remunerated for this service by the French state. The reduction in costs linked to managing the public guarantees activity has led to a reduction in remuneration of €2.7 million for fiscal year 2015: this adjustment will be accounted for on 31 March 2016.

As previously announced, the transfer of the public guarantees activity will result mechanically in a reduction of 1.4 points in RoATE (on a full year basis). As agreed with the French state and communicated last July, the amount due to the Group on the activity's transfer is €89.7 million before tax. The exceptional profit, after immediate depreciation charges (estimated at €16.3 million euros before tax as at 31 December 2015) will be recorded when the decree is published.
