

Euler Hermes undertakes to repurchase 4.9% of its own shares under the share placement announced by Allianz Vie of its 8.6% stake in Euler Hermes

PARIS – 18 MAY 2016

- Allianz Vie has launched today a share placement of its entire stake in Euler Hermes representing 8.6% of the share capital of the company
- Euler Hermes has placed an irreducible order representing 4.9% of its own shares
- The repurchase price will be equal to the price of the share placement
- The repurchase will enable Euler Hermes to efficiently use its excess capital through an accretive transaction benefiting all shareholders
- Proposed dividend for 2015 increased by 6.3% to EUR 4.68 per share

Allianz Vie today announced that it has initiated the sale of 3,879,818 shares of Euler Hermes Group ("Euler Hermes" or the "Company") representing its entire stake, i.e., 8.56%, of the share capital of the Company, through a private placement to institutional investors via an accelerated bookbuilt offer (the "Share Placement").

Euler Hermes hereby announces that it has undertaken to participate to the Share Placement by placing an irreducible order, at the price of the Share Placement, on 2,200,000 of its own shares representing approximately 4.9% of the share capital of the Company, subject to completion of the Share Placement (the "Repurchase").

The Repurchase shall be completed pursuant to the share buyback program approved by the shareholders' meeting of 27 May 2015. Following completion of the Share Placement and the Repurchase, the Company intends to cancel the 2,200,000 shares so repurchased, together with 500,542 treasury shares it already holds, i.e., 2,700,542 shares in aggregate, representing 6.33% of the share capital of the Company. Further to the disposal of Allianz Vie's shares and cancellation by the Company of its own shares, the Allianz group's aggregate shareholding would be reduced from 67.80% to 63.00% of the share capital and theoretical voting rights of the Company.

This transaction would enable Euler Hermes to efficiently use its excess capital¹ through an accretive transaction benefiting all shareholders. To finance the Repurchase, the Company would use its available cash, enabling it to eliminate a substantial portion of the amount of such excess capital. Once completed, the Repurchase and the subsequent cancellation of shares would improve the return on equity while being accretive on the earnings per share and on the dividend per share (about 6.3%), as the proposed dividend would be increased to EUR 4.68 per share, subject to the vote of shareholders at the annual general meeting to take place on 25 May 2016, since the number of shares composing the share capital of the Company will be reduced to 42,641,635.

An amendment would be submitted to the shareholders during the annual general meeting to be held on 25 May 2016 to reflect the modification of the dividend per share.

BNP Paribas acts as financial advisor to Euler Hermes in connection with this transaction.
