

Exclusive negotiations for the acquisition of all his shares in company DOMAC

Thermador Groupe has entered into exclusive negotiations with Mr Le Ponner for the acquisition of all his shares in company Domac located in Vierzon.

Company DOMAC sells generators, air compressors and welding units to French DIY outlets and hypermarkets. Apart extending our referencing into this wider customer base, this acquisition will allow us to broaden and change the product range, brands and services, and also meet customers' expectations who today prefer to work with long-term, well-organised suppliers.

Domac reported turnover close to €7m in 2015.
