## Signature of a new international partnership with Algerian group Cevital

The Orchestra-Prémaman group has signed an international partnership agreement with Cevital, Algeria's largest private group and the country's leading food distributor: a franchise and supply of goods contract aimed at developing a chain of multi-format stores throughout Algeria.

The objective is to open an initial store at end-2017 and build up to around 10 stores in 5 years, eventually reaching around 30 through which this new partner can expect potential annual sales of around €80 million.

The deal fits with the group's declared objective of developing primarily through a franchise model.
