## Order of a production MBE system in Europe

**Bezons, Mars 7th 2017 – 8:00 am – RIBER, a leading equipment manufacturer for the semiconductors industry, is announcing the order of a production MBE system.**

A new customer of the company has ordered a production MBE system, model MBE49, to manufacture epiwafers for optoelectronic components.

The MBE49 system has first-rate performances as well as an attractive cost of ownership making it the tool of choice for optoelectronic applications.

### **ABOUT RIBER:**

Riber designs and produces molecular beam epitaxy (MBE) systems as well as evaporation sources and cells for the semiconductor industry. This high-tech equipment is essential for the manufacturing of compound semiconductor materials and new materials that are used in numerous consumer applications, from new information technologies to OLED flat screens and next-generation solar cells.

Riber recorded €16.5 million in revenues for 2016, with 89 employees at the end of 2016. The company is ISO9001 certified. Riber is listed on Euronext Paris (Compartment "C") and is part of the CAC Small, CAC Technology and CAC T. HARD. & EQ indices. Riber is eligible for SME share-based savings schemes.
