SYNERGIE confirmed an excellent start to the year with first-quarter consolidated turnover up by 18% to €516.1 million (up by 17.8% on a like-for-like basis).

The strong growth momentum continued in France with a 13.8% increase in turnover, once again outpacing the market (+10.5% according to Prism'emploi data at end-February).

This momentum reflects the investments made in 2016 (hiring consultants, rollout of a new offer, intensive training programmes, etc.) and present market trends.

Turnover from international activities, which now account for 50% of Group turnover, grew by 22.7%, with growth of 30.8% in southern Europe, 13% in northern and eastern Europe and 41.8% outside Europe (Canada/Australia).

Thanks to its strong financial structure, the Group is actively pursuing its expansion strategy in France and abroad and, in particular, is currently examining takeover projects.
