Nanterre, August 2, 2017  
(after the closing of the stock exchange)

### Organic growth up 10% in 1st half 2017

(in millions of euros)	H1 2016	H1 2017	growth	of which organic
Revenues	221.5	245	+ 10.6%	+ 10%

#### Achievements

Over the first half of 2017, organic growth remained identical (+10%) to that posted in the first half of 2016.

Such growth is due to a significant difference in the number of business days between the two quarters.

Profit (not audited) at end-June 2017 stood at 8.6% of revenues (after inclusion of 0.3% for the cost of bonus shares), an identical profit to that posted in the first half of 2016.

In comparison with the 2016 reference document available in the Finance section on the NEURONES website ([www.neurones.net](http://www.neurones.net)), the financial situation did not experience any significant changes.

#### Outlook

Given the slight change to the scope set out in the first press release, NEURONES maintains the following forecast for FY 2017:

- revenues of more than €480 million,
- an operating profit of between 9% and 9.5%.
