Order for a research MBE system in USA

Bezons, January 18, 2018 – 8:00 am - RIBER, a global market leader for semiconductor industry equipment RIBER, is announcing the order of a research MBE system.

An American company, among the worldwide leaders in instrumentation, has ordered a research system to manufacture infrared imaging sensors for the aerospace industry.

This machine will be delivered in the second half of 2018.

About RIBER:

Riber designs and produces molecular beam epitaxy (MBE) systems as well as evaporation sources and cells for the semiconductor industry. This high-tech equipment is essential for the manufacturing of compound semiconductor materials and new materials that are used in numerous consumer applications, from new information technologies to OLED flat screens and next-generation solar cells.

Riber is listed on Euronext Paris (Compartment "C") and is part of the CAC Small, CAC Technology and CAC T. HARD. & EQ indices. Riber is eligible for SME share-based savings schemes.
