
EDF files a complaint against unknown persons following the disappearance of the padlocks closing cabinets for Flamanville EPR I & C system

On 5 May 2018, EDF filed a complaint against unknown persons at the Cherbourg police station. This complaint concerns disappearance of the padlocks closing cabinets housing the computer equipment for Flamanville EPR I & C system*. However, the seals inside the cabinet were intact.

No padlocks were missing from the cabinets housing the computer equipment for the reactor protection I & C system.

All the competent authorities were immediately notified. An enquiry is being conducted to ascertain the circumstances of this event. EDF has also initiated an audit on integrity of the I & C system.

This event did not have any impact on plant safety.

EDF strongly condemns this malicious act.

** The instrumentation and control system is made up of all the systems for operation of a nuclear power plant.*
