

## Impact of « Yellow Vest » protests on 2018 end of year sales

In an unprecedented context of « Yellow Vest » protests, Fnac Darty reports a loss of sales estimated at around 45 million euros, in France and Belgium, related to store closures and lower traffic.

This impact on end of year sales should weigh correlatively on the current operating income growth expected for 2018.

In parallel, Fnac Darty integration is being finalized according to plan, and the Group reaffirms its objective of €130m of synergies deployed at the end of 2018.

The Group also confirms its mid-term objectives of higher growth than its markets, and a current operating margin between 4.5% and 5% of sales.

Fnac Darty will release its sales for the fourth quarter and the full year, as well as the Group's 2018 financial results, on February 20<sup>th</sup>, 2019, after close of business.
