GDF SUEZ

6 January 2009

GDF SUEZ guarantees supplies for its customers
despite the drop in Russian natural gas deliveries

Whereas the level of deliveries of Russian natural gas passing through the Ukraine was normal until January 5th, GDF SUEZ has today recorded a very significant drop – by over 70% in France.

All the necessary measures have been taken to guarantee the continuity of natural gas supplies for all GDF SUEZ customers in France and in Europe, thanks to the Group's sourcing portfolio, the most diversified in Europe with nine major sources, as well as its access to short-term markets and storage facilities.

Russian gas deliveries represent around 15% of GDF SUEZ's total portfolio in Europe.

One of the leading energy providers in the world, GDF SUEZ is active across the entire energy value chain, in electricity and natural gas, upstream to downstream. It develops its businesses (energy, energy services and environment) around a responsible-growth model to take up the great challenges: responding to energy needs, ensuring the security of supply, fighting against climate change and maximizing the use of resources. GDF SUEZ relies on diversified supply sources as well as flexible and high-performance power generation in order to provide innovative energy solutions to individuals, cities and businesses. The Group employs 196,500 people worldwide and achieved revenues of €74,3 billion in 2007. GDF SUEZ is listed on the Brussels, Luxembourg and Paris stock exchanges and is represented in the main international indices: CAC 40, BEL 20, DJ Stoxx 50, DJ Euro Stoxx 50, Euronext 100, FTSE Eurotop 100, MSCI Europe and ASPI Eurozone.
