

Outremer Telecom chooses StreamWIDE to provide its subscribers with innovative value-added services

Paris, 17th February 2009: Groupe Outremer Telecom (FR0010425587 - OMT), the leading alternative telecom operator in the French Overseas Regions (FOR), announces the signing of a trade agreement with StreamWIDE, a specialist in next generation value-added telephony solutions for telecom operators.

This agreement, for €500K of StreamWIDE licences, concerns the supplying by StreamWIDE of its voice messaging solutions, charging solutions (prepaid mobile services and prepaid cards) and interactive voice services for Outremer Telecom's telephony services

"We are very pleased about the signing of this agreement, which will enable us to rapidly and efficiently deploy our 3G services. The cutting-edge technology developed by StreamWIDE brings high-quality services and an innovative approach together around a transparent business model that clearly distinguishes between Equipment, Software and Integration", says Jean-Michel Hégésippe, CEO of Outremer Telecom.

An integrated operator present in all of the French overseas regions - Founded in 1986, Groupe Outremer Telecom has established itself in the French overseas regions (Martinique, Guadeloupe, French Guiana, Reunion and Mayotte) as the leading alternative telecom operator able to offer a full range of fixed line, mobile and Internet access services for both residential and business customers.

The keys to its success: a self-owned network and single well-known brand, Only - Groupe Outremer Telecom has developed its own telecom networks, enabling it to adopt an aggressive and innovative position as a challenger on a strong growth market. The company also has a single brand, Only, which has an excellent reputation in all of the overseas regions and conveys an image of quality, leading-edge technology and local presence.

Strategy focusing on further growth in a solid market - Groupe Outremer Telecom intends to consolidate its position as the leading alternative operator in the French overseas regions and achieve further strong growth in its Internet and mobile subscriber base. Thanks to considerable market potential and capitalising on the success of its activities in French Guiana and the French West Indies, the company extended its Mayotte Mobile activities in December 2006, then its Fixed line and Internet activities there in February 2007, followed by its Mobile offer in Reunion in April 2007. The group also intends to develop the convergence of its different services, expand its business customer base and offer innovative services thanks to the evolving nature of its network.

About StreamWIDE

Headquartered in Paris (France), with subsidiaries in USA, China, Romania, StreamWIDE is fully dedicated to developing Value-Added Services for Mobile and Fixed-line Telecommunication operators: Unified and Convergent Messaging, Online Charging Services, IVVR Service Creation Environment, Ring Back Tones and Proxy Solutions.
