

PRESS RELEASE**CREATION OF NYMPHEA ENVIRONNEMENT****Signing of a contract in Morocco**

Colombes, 30th March 2009: ENTREPOSE Contracting (ISIN FR0010204321), contractor specialised in the design and construction of turnkey projects in the oil, gas and energy sectors in general, today announces the creation of Nymphaea Environnement and the signing of a new contract in Morocco.

Born of the merger of the knowhow of Merclean and Nymphaea Water, a 63% subsidiary of the ENTREPOSE Contracting group through its Geoclean subsidiary, Nymphaea Environnement is recording a very active start to the year.

Indeed, the Company has just won a new contract with the *Agence Nationale des Ports* (ANP) in Morocco. This contract concerns the delivery of 32 antipollution trawls. It also includes the training of the ANP's teams (60 operators and 6 technicians) regarding the use of this equipment and the fight against maritime pollution.

This new contract comes on top of two other projects in the detection of submarine freshwater sources that are currently ongoing:

- in Libya, on behalf of the General Water Authority. This contract concerns the detection of submarine freshwater sources by aerial means, and is due to last 6 months.
- in Qatar, Nymphaea has begun, for the Supreme Council for the Environment & Natural Reserves, the second phase of its search for submarine freshwater sources within the framework of a new contract.

Dominique BOUVIER, CEO of ENTREPOSE Contracting, concludes: *"We are very pleased to announce the creation of Nymphaea Environnement, which demonstrates our conviction in the development of markets associated with the environment. Benefiting from the historical expertise of the ENTREPOSE Contracting Group in specific geographical zones, Nymphaea Environnement completes our substantial range of value-adding services aimed at niche markets."*

About ENTREPOSE Contracting (www.entrepose.fr):

ENTREPOSE Contracting is a group specialised in the design and construction of complex industrial projects in the oil, gas and energy sectors and shallow water operations. From creating transport and storage solutions to delivering turnkey projects, the Group is constantly developing its expertise in conceptual engineering, process design and contracting in sensitive environments. ENTREPOSE Contracting places particular emphasis on standards compliance in terms of Quality, Health & Safety and Environmental Management (QHSE accreditations), and possesses unique know-how enabling it to meet the most stringent requirements in terms of the highest performance levels.
