**AGENDA**  
FY2009/10 revenues  
28 July 2010

**In the third quarter of fiscal 2009/2010 (January-March 2010) Aedian's revenues came to € 10.65 m, reflecting organic growth of 1.5% compared to the same quarter of the previous year.**

### ◆ Revenues

AEDIAN returned to organic growth in the third quarter of FY2009/2010 in a market environment that has tended to stabilize, with persistent price pressure but improving demand.

On 31 March 2010, the headcount was up compared to 31 March 2009 as we have been steadily increasing the number of recruitments. The inter-contract downtime was flat compared to the same quarter of the previous year.

### ◆ Outlook

The resumption of organic growth seen in Q3 is expected to accelerate in the fourth quarter of FY2009/2010 (April-June 2010). In the second half of the year we will remain focused on gradually enhancing the operating margin.
