MEETIC BECOMES ELIGIBLE TO THE SRD DEFERRED SETTLEMENT SERVICE, “LONG-ONLY”

MEETIC (ISIN: FR0004063097), the European leader in online dating, today announces that its shares are eligible to the SRD deferred settlement service of the NYSE Euronext Paris from today, on the “long-only” segment.

The SRD should contribute to further increasing trading volumes and the liquidity of Meetic shares, and thus the Company’s visibility within the financial community, both in France and abroad.

With an average of 21,688 shares changing hands each day over the last 12 months, Meetic is already one of the most liquid shares chosen by NYSE Euronext to extend the current list of 140 shares that can be traded via this service.

Contrary to standard SRD, shares listed on the “long-only” segment can only be bought and sold, and are not tradable on the centralised borrowing and lending market.

About Meetic, European online dating leader (www.meetic-corp.com):

Meetic manages two services in Europe: online dating and matchmaking, mainly under the meetic and Meetic Affinity brands, and markets two highly complementary economic models on the dating market, one based on internet use, the other on mobile phones. By acquiring the European activities of world leader Match.com in June 2009, Meetic has strengthened its first place on the continent. The group is currently established in 16 European countries, as well as in Latin America, and is available in 13 languages.

From inception, the group has pursued a clear leadership strategy focusing on quality, innovative marketing and perfect technological expertise. Meetic works hard to optimize service quality and to satisfy every possible expectation of its European subscribers. In 2009, Meetic posted sales of €157.9 million and an EBITDA margin of 23.7%.

Listed on **Euronext Paris - Compartment B** of the NYSE Euronext - ISIN: FR0004063097
