Item 2.02. Results of Operations and Financial Condition

On July 26, 2011, we issued a news release announcing results for the quarter ended June 30, 2011. A copy of the press release is attached as Exhibit 99.1.

On July 26, 2011, following the news release and the filing of this Current Report on Form 8-K, we will hold a conference call at 8:00 a.m. eastern, 7:00 a.m. central, regarding the quarterly results. This scheduled conference call was previously announced on June 10, 2011 and will be available via real-time webcast.

To access the call please contact the conference call operator at 866-393-8572, or 706-643-6499 for international calls, approximately 10 minutes prior to the scheduled start time, and ask for the Weatherford conference call. The passcode is "Weatherford". A replay will be available until 5:00 p.m. eastern, August 9, 2011. The number for the replay is 800-642-1687, or 706-645-9291 for international calls; passcode 75371977.

An enhanced webcast of the conference call and replay will be provided by Thomson Reuters and will be available through Weatherford's web site at <http://www.weatherford.com>. To access the conference call and replay, click on the Investor Relations link and then click on the Enhanced Audio Webcast link.

Item 7.01. Regulation FD Disclosure

On July 26, 2011, we issued a news release announcing results for the quarter ended June 30, 2011. A copy of the press release is attached as Exhibit 99.1.

Item 9.01. Financial Statements and Exhibits

(d) Exhibits

99.1 Press release dated July 26, 2011, announcing results for the quarter ended June 30, 2011

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

99.1	Press release dated July 26, 2011, announcing earnings for the quarter ended June 30, 2011

News Release

Weatherford Reports Second Quarter Results

International improvements drive earnings of \$0.17 per diluted share, before items

GENEVA, SWITZERLAND, July 26, 2011 - Weatherford International Ltd. (NYSE and SIX: WFT) today reported second quarter 2011 income of \$126 million, or \$0.17 per diluted share, excluding an after-tax loss of \$16 million. On a GAAP basis, our net income for the second quarter of 2011 was \$110 million, or \$0.15 per diluted share. The excluded after-tax loss is comprised of \$13 million in severance and exit charges and \$3 million in government investigation costs.

Second quarter diluted earnings per share reflect an increase of \$0.09 over the second quarter of 2010 diluted earnings per share of \$0.08, before charges. Sequentially, the company's second quarter diluted earnings per share, before charges, were \$0.07 higher than the first quarter of 2011. International markets drove the entire sequential improvement in both revenue and profitability.

Second quarter revenues of \$3,052 million were the highest in the company's history, despite the severe negative impact of Canada's spring break-up. Revenues were 25 percent higher than the same period last year and seven percent higher than the prior quarter. International revenues were up 14 percent sequentially and up 12 percent versus the year ago quarter. North America revenue was down one percent sequentially and up 46 percent versus the second quarter of 2010. The sequential decline in North America was due to the severe impact of the Canadian break-up.

The Canadian results overshadowed a very strong performance in the U.S., where sequential revenue growth outpaced rig count by more than two-to-one and operating margins expanded.

Segment operating income of \$421 million improved 36 percent year-over-year and 19 percent sequentially. The company's international operations provided all of the sequential growth compared to the first quarter of 2011 and delivered 51 percent incremental margins. International operating income was down three percent compared to the year ago quarter.

The company expects earnings per share before excluded items of approximately \$0.24 to \$0.26 in the third quarter of 2011, supported by a seasonal recovery in Canada and steady improvement in the U.S. and international markets. For full-year 2011, the company anticipates that revenue growth will be approximately 25 percent, which is higher than the 20 percent growth rate estimated last quarter. In addition, the company expects international margins in the fourth quarter of 2011 to be meaningfully higher than full-year 2010 margins of 11 percent.

North America

Revenues for the quarter were \$1,344 million, which is a 46 percent increase over the same quarter in the prior year and down one percent sequentially. The Stimulation and Chemicals, Artificial Lift and Well Construction product lines contributed strong results for the quarter.

The current quarter's operating income was \$244 million, up \$117 million from the second quarter of 2010 and was down \$40 million, or 14 percent, compared to the prior quarter. On a sequential basis, strong growth and steadily expanding margins in the U.S. were offset by the impact of the Canadian break-up.

Middle East/North Africa/Asia

Second quarter revenues of \$617 million were two percent higher than the second quarter of 2010 and seven percent higher than the prior quarter. Weather improvements in China and Australia and a stronger Iraq helped offset the impact of a full quarter of reduced activity due to political unrest in the Middle East and North Africa. Libya operating expenses cost almost \$0.01 per share. The Well Construction, Integrated Drilling and Artificial Lift product lines posted strong sequential performances.

The current quarter's operating income of \$34 million decreased 54 percent as compared to the same quarter in the prior year and increased \$23 million compared to the first quarter of 2011.

Europe/West Africa/FSU

Second quarter revenues of \$592 million were 17 percent higher than the second quarter of 2010 and 16 percent higher than the prior quarter. The region had strong performances in the North Sea, Russia and Caspian as the winter seasonality abated. The Completion, Stimulation and Chemicals, Drilling Services and Integrated Drilling product lines had the strongest sequential growth.

The current quarter's operating income of \$93 million was up 37 percent compared to the same quarter in the prior year and up \$55 million compared to the prior quarter.

Latin America

Second quarter revenues of \$498 million were 21 percent higher than both the second quarter of 2010 and the first quarter of 2011. Argentina, Colombia and Venezuela posted strong sequential performances. The Drilling Services, Stimulation and Chemicals and Artificial Lift product lines benefited from improved demand.

The current quarter's operating income of \$51 million increased 22 percent as compared to the same quarter in the prior year and increased \$30 million compared to the prior quarter.

Liquidity and Net Debt

Net debt for the quarter increased \$144 million, with working capital increasing \$193 million during the quarter. Recently, the company successfully renegotiated its unsecured revolving credit facility to increase the size of the facility from \$1.75 billion to \$2.25 billion and extend the scheduled maturity to July 16, 2016.

Reclassifications and Non-GAAP

Non-GAAP performance measures and corresponding reconciliations to GAAP financial measures have been provided for meaningful comparisons between current results and results in prior operating periods.

Conference Call

The company will host a conference call with financial analysts to discuss the 2011 second quarter results on July 26, 2011 at 7:00 a.m. (CDT). The company invites investors to listen to a

play back of the conference call and to access the call transcript at the company's website, <http://www.weatherford.com> in the "investor relations" section.

Weatherford is a Swiss-based, multi-national oilfield service company. It is one of the largest global providers of innovative mechanical solutions, technology and services for the drilling and production sectors of the oil and gas industry. Weatherford operates in over 100 countries and employs over 58,000 people worldwide.

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 concerning, among other things, Weatherford's prospects for its operations which are subject to certain risks, uncertainties and assumptions. These risks and uncertainties, which are more fully described in Weatherford International Ltd.'s reports and registration statements filed with the SEC, include the impact of oil and natural gas prices and worldwide economic conditions on drilling activity, the outcome of pending government investigations, the demand for and pricing of Weatherford's products and services, domestic and international economic and regulatory conditions and changes in tax and other laws affecting our business. Should one or more of these risks or uncertainties materialize, or should the assumptions prove incorrect, actual results may vary materially from those currently anticipated.

We report our financial results in accordance with generally accepted accounting principles (GAAP). However, Weatherford's management believes that certain non-GAAP performance measures and ratios may provide users of this financial information additional meaningful comparisons between current results and results in prior operating periods. One such non-GAAP financial measure we may present from time to time is operating income or income from continuing operations excluding certain charges or amounts. This adjusted income amount is not a measure of financial performance under GAAP. Accordingly, it should not be considered as a substitute for operating income, net income or other income data prepared in accordance with GAAP. See the table below for supplemental financial data and corresponding reconciliations to GAAP financial measures for the three months ended June 30, 2011, March 31, 2011, and June 30, 2010 and for the six months ended June 30, 2011 and June 30, 2010. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the Company's reported results prepared in accordance with GAAP.

Note (a): This amount is comprised of severance charges of \$12 million, net of tax, and costs incurred in connection with on-going investigations by the U.S. government of \$3 million. We also incurred charges totaling \$1 million, net of tax, for facility closure costs and termination fees.

Note (b): This amount is comprised of a \$9 million charge associated with terminating a corporate consulting contract and \$8 million for severance costs. We also incurred investigation costs in connection with on-going investigations by the U.S. government.

Note (c): This amount is comprised of an \$82 million charge for the revaluation of contingent consideration included as part of our acquisition of the Oilfield Services Division ("OFS") of TNK-BP. We also incurred investigation costs in connection with on-going investigations by the U.S. government and severance charges.

Note (d): This amount is primarily comprised of a \$38 million charge, net of tax, related to our supplemental executive retirement plan that was frozen on March 31, 2010 and a \$40 million charge, net of tax, related to the devaluation of the Venezuelan Bolivar. In addition, we incurred a charge of \$93 million for the revaluation of contingent consideration included as part of our OFS acquisition. We also incurred investigation costs in connection with on-going investigations by the U.S. government and severance charges and facility closure costs.

"Net Debt" is debt less cash. Management believes that Net Debt provides useful information regarding the level of Weatherford indebtedness by reflecting cash that could be used to repay debt.

Working capital is defined as accounts receivable plus inventory less accounts payable.
