

Foncière Europe Logistique to house Amazon at Chalon-sur-Saône

Foncière Europe Logistique, a subsidiary of Foncière des Régions, will house the third French platform of e-commerce leader Amazon at its Severezy logistics base, near Chalon-sur-Saône.

Amazon opted for an existing, independent platform of 40,000 sq. m for its operations. Ease of access and the availability of transport services, as well as a large local labour pool, were also important factors in this decision.

Amazon will take possession of the premises between August and October 2012.
