Turnover for 1st semester of 2012/2013

Business in the first half of the 2012-2013 fiscal year (ended on 30 September) amounted to 13.2* million Euros, or a drop of 28.6% compared with the first semester of the previous fiscal year when turnover totalled 18.5 million Euros.

In thousand Euros	First Semester (30/09)

This decline is mainly attributable to the slowdown in activities in Brazil, stemming from delayed decisions taken by our customers. It is also affected by an unfavourable basis of comparison over the same period in the previous fiscal year, Siraga recorded an exceptional level of activity in the region.

Outlook

A significant number of potential contracts are under negotiation—in Brazil in particular and in other regions as well—and could have a positive impact on the first months of 2013.

Moreover, with regard to our new products, automatic cylinder vending machines, Siraga's attendance at a professional trade show in Paris last September resulted in numerous serious inquiries from mass retailers that are currently restructuring their petrol stations.
