

Saft is eligible for the PEA-PME investment product and enters the CAC PME index

Paris, April 8 2014 — Saft Groupe (Euronext Paris: SAFT), the world's leading designer and manufacturer of advanced technology batteries for industry, confirms its eligibility for the PEA-PME on the basis of criteria specified by Decree No. 2014 - 283 of 4 March, 2014.

As a result, Saft shares can be integrated within a PEA-PME account, which as a reminder enjoys the same tax benefits as the traditional savings plan (Plan Epargne Action - PEA). In practice and for French residents, capital gains realized on this account are less taxed, under certain conditions, including a holding period.

Effective April 1, 2014, Saft has joined the Euronext CAC PME index. This index tracks the performance of the PEA-eligible small and medium sized French companies listed on Euronext and Alternext in Paris.

About Saft

Saft (Euronext: Saft) is a world leading designer and manufacturer of advanced technology batteries for industry. The Group is the world's leading manufacturer of nickel batteries and primary lithium batteries for the industrial infrastructure and processes, transportation, civil and military electronics' markets. Saft is the world leader in space and defence batteries with its Li-ion technologies which are also deployed in the energy storage, transportation and telecommunication network markets.
