**Item 2.05 Costs Associated with Exit or Disposal Activities.**

During the three months ended March 31, 2014 the Company began implementation of its previously announced cost reduction plan (“the Plan”), which includes a worldwide workforce reduction that is expected to involve approximately 7,000 employees. The Plan, which, until this time, was under development, is scheduled to be completed by the end of 2014. The Plan will not affect the businesses identified as part of the Company’s non-core business divestiture program and is aimed at rebalancing the Company’s resources to make its cost base more efficient and lighten the Company’s support structure.

The Company currently estimates that it will recognize pre-tax charges of \$125 million to \$150 million associated with the Plan and that, when complete, it will generate annualized savings of in excess of \$500 million. The Plan will include one-time termination (severance) benefits, contract termination costs and other associated costs.

The information in this Item 2.05 consists of forward-looking statements within the meaning of the federal securities laws. These forward-looking statements involve a number of risks, uncertainties and other factors, which may cause the actual results to be materially different from those expressed or implied in the forward-looking statements. Important factors that could cause the statements made in this Item 2.05 to differ include, without limitation, the Company's ability to implement the Plan and possible changes in the expected charges, costs and annualized savings associated with the Plan. Other important factors are included under the caption “Forward-Looking Statements” in the Company's Form 10-K, as amended, Annual Report for the year ended December 31, 2013 and in subsequent filings. The Company does not intend to revise any particular forward-looking statement in light of future events.
