

Caterpillar Inc. Announces 17 Percent Increase in Dividend Rate

PEORIA, Ill., June 11, 2014 -- The Board of Directors of Caterpillar Inc. (NYSE: CAT) voted today to increase the quarterly cash dividend by 17 percent to seventy cents (\$0.70) per share of common stock, payable August 20, 2014, to stockholders of record at the close of business on July 21, 2014.

"This dividend increase demonstrates our financial strength and confidence in long-term prospects for the company. Despite business and economic uncertainties around the world, our balance sheet has remained strong – the strongest it's been in more than two decades – positioning us to perform through the cycles. In addition, our global team has delivered solid operational and financial performance, enabling Caterpillar to return over \$5.0 billion of capital to stockholders through stock buybacks and dividends since the beginning of 2013," said Caterpillar Chairman and CEO Doug Oberhelman.

"We are proud of our long dividend history, in which Caterpillar has paid a cash dividend to our stockholders every year since the company was formed in 1925. We are equally proud that during this period, our equipment and services have helped build, grow and power the world," Oberhelman added.

Caterpillar has paid higher dividends to its stockholders for 20 consecutive years, and since 1998, the company's cash dividend has more than tripled.
