## A strengthened real estate positioning

Foncière des Régions now holds a portfolio of €16.4 billion (€9.8 billion Group share) focused on the **Office sector**, leased to large companies, including two areas of diversification on strong and buoyant markets, which are **Residential in Germany and Hotels / Service sector**. Foncière des Régions relies on a partnership strategy with a leasing base made up of blue chip companies (Suez Environnement, Thales, Dassault Systèmes, Orange, EDF, IBM, Eiffage, Accor, Telecom Italia, etc.).

Successful strategies of 2014 have strengthened this real estate positioning and confirmed the permanence of the cash-flows:

- ◆ **in the Office sector**, with €351 million, Foncière des Régions has accelerated investments in its pipeline and continued its strategy of selective acquisitions;
- ◆ **in German Residential**, the group has enhanced its exposure with €358 million of acquisitions (€218 million Group share), mainly in prime locations in Berlin;
- ◆ **in Hotel real estate**, the year has been marked by geographic diversification and the set up of new partnerships. In addition, with the creation of FDM Management, Foncière des Régions is now also in possession of a tool to accompany operators in their strategic shift through investments in premises and businesses.

Foncière des Régions has posted a record volume of non-strategic asset disposals, with the sale of €986 million Group share, including €606 million in Logistics. **The portfolio, now comprising 91% in strategic assets**, has sound strong points and posts an occupancy rate of 97.1%, as well as an average firm lease term of 5.8 years.

## Real estate activity in 2014: rents up by 6%

- ◆ Rental income on like-for-like basis: +0.2%
- ◆ Occupancy increase: 97.1% (+1.1 point)
- ◆ Stability of average firm lease term: 5.8 years (stable)
- ◆ Increase of values like-for-like: +2.1%

With the increase in Germany, and despite the impact of sales, rents were at €558.1 million Group share, up by 6% and by 0.2% at constant scope.

## Offices in France: Growth of indicators

(€5.0 billion portfolio at 100%; €4.4 billion Group share)

- ◆ Rise in occupancy rate: 96.8% (+1.0 point)
- ◆ Firm lease maturity: 5.4 years
- ◆ Growth of rents like-for-like: +0.7%
- ◆ Growth of values like-for-like: +3.0%
- ◆ Objective of 50% green portfolio achieved one year early (+9.0 points)
- ◆ Pipeline: €1.4 billion, including €518 million committed

Successful lettings have **increased the occupancy** to a record level of 96.8% (compared with 95.8% at the end of 2013). Over the year, this means more than €50 million Group share of leases (20% of rents) which were signed or renewed for a mean firm term of 6.1 years. In particular, 11,400 m<sup>2</sup> have been let in the Tour CB 21, now 97% leased. With signatures in 2014, the average firm lease term remains high at 5.4 years.

**Foncière des Régions has accelerated its investments borne by the projects pipeline in Offices France, now standing at €1.4 billion.** Almost €518 million of projects are now committed, €309 million of which will be delivered in 2015, for more than €36 million of annual rents (yield on cost above 7%). Committed projects relate mainly to property redevelopments and leasing turnkey projects and enjoy a pre-let rate of almost 2/3.

With the strength of its partnership model, Foncière des Régions, alongside Crédit Agricole Assurances, **has delivered the New Velizy campus in the heart of the Vélizy-Meudon district.** This 46,000 m<sup>2</sup> asset is leased to Thales for a fixed term of 9 years. In addition, Foncière des Régions signed **the 13,100 m<sup>2</sup> extension of the Dassault Systèmes Campus** and the extension of the lease for 12 years firm (total rent more than €24 million and €12 million Group share). Turnkey projects have also been signed with Schlumberger for 3,150 m<sup>2</sup> in Montpellier and with Bose for 5,100 m<sup>2</sup> in Saint-Germain-en-Laye.

As part of its selective acquisitions strategy, the group has entered into a new partnership with **the acquisition from Natixis of the “Liberté et Coupole” property complex**, with an area of 38,000 m<sup>2</sup> at Charenton-le-Pont, on the Liberté metro station. This investment of €162 m, duties included, was made on the basis of a yield of 6.5%. Natixis has signed a new triple net firm lease of 9 years, without incentive.

Foncière des Régions has continued the **qualitative rotation of its portfolio**, through the sale of €137 million of non-core or mature assets, for an average margin of 7% on the last appraisal value. This dynamic rotation of assets has contributed to the improvement of the France Offices portfolio. **Therefore, almost 50% of the current France Offices portfolio has been acquired or developed in the last five years.**

The year was marked by a **rise in values on like-for-like basis of 3.0%**, supported by compression of yield rates in Ile-de-France and in the regional cities of France. Worthy of note is the gain of 8% on projects currently in development.

### Offices Italy: sound foundations

(€4.1 billion portfolio at 100%; €2.0 billion Group share)

- ◆ High occupancy rate: 95.2% (Core portfolio)
- ◆ Average firm lease term: 6.3 years (Core portfolio)
- ◆ Rents like-for-like: - 1.5% (- 0.3% excluding release in Turin)
- ◆ Resistance of values - 0.2% like-for-like (stability across the Core portfolio)

Foncière des Régions operates in Italy through its subsidiary Beni Stabili, 1<sup>st</sup> Italian property development company, having a **high quality portfolio, with 90% located in Northern and Central Italy**, in particular Milan and Rome. This positioning **maintains sound real estate indicators**, with 95.2% occupancy for an average firm lease term of 6.3 years (across the Core portfolio).

**Leasing activity has been highlighted by the success of restructurings and renovations**, marketed at high leasing values. The San Fedele asset in Milan has thus been leased at 100%. The San Nicolao development (Milan, 11,700 m<sup>2</sup>), was let before its delivery to the Luxottica Group for 7 years firm and a rent of €5.4 m. The asset in Via dell'Arte (Rome, 6,400 m<sup>2</sup>), delivered in the 1<sup>st</sup> half, is leased with 93% occupancy. Almost 24,000 m<sup>2</sup> has also been renewed with a rise in rents of 14%.

**Qualitative rotation of the portfolio** has continued with a sale of €81 million worth of assets (€39 million Group share), with a margin of 3.3% on last appraisal value.

Rents have fallen by 1.5% on like-for-like basis due to the vacancy of the Corso Ferrucci asset (Turin, 51,000 m<sup>2</sup>), which was actively marketed. Finally, the positioning of the portfolio covering Core zones has allowed **stability of appraisal values** in 2014 (-0.2% like-for-like).

### Germany Residential: acceleration of investments

(€2.7 billion at 100%; €1.7 billion Group share)

- ◆ Very high occupancy rate: 98.3%
- ◆ Rent growth like-for-like: +1.8%
- ◆ Rise in values like-for-like: +2.9%

With operations in Germany since 2005, Foncière des Régions has **improved its exposure** in the German Residential market during 2013 and now has a direct holding of 60.9% in its Imméo subsidiary. The group enjoys an exposure of 17% of its portfolio in German Residential and a €1.7 billion Group share (compared with €0.8 billion in 2012) through 41,400 residential housing units.

The year has been highlighted by the **acceleration of investments** with €358 million (€218 million Group share) acquired in Berlin, Dresden and Leipzig. The group is concentrating its investments on small size but prime downtown assets, combining reversionary potential (25-30%) and long term sale potential. At the same time, €160 million (€97 million Group share) of assets have been sold or have been the subject of disposal agreements in NRW (with a mean margin of 5.4% on the appraisal at the end of 2013).

These rotations have continued the qualitative recentring on target locations, which accounted for 84% of the portfolio at the start of 2015 (compared with 63% at end 2012).

**This strategy in Germany is confirmed by the good indicators for the year.** Rents have grown by 1.8% at constant scope, including 4.9% in Berlin and Dresden, and occupancy rate remains very high at 98.3%. Second, the value of the portfolio has grown by 2.9% at constant scope (average yield 6.5%), including 4.9% in Berlin and Dresden.

## Hotels and Service sector: leader in Europe

(€3.0 billion portfolio at 100%; €0.8 billion Group share)

- ◆ Occupancy held at 100%
- ◆ Average firm lease term: 6.8 years
- ◆ Strength of leases like-for-like: - 0.6%
- ◆ Growth of values like-for-like: +2.0%

**Europe's leader in hotel real estate**, Foncière des Régions relies on long term partnerships with major players in the hotel sector (Accor, Louvre Hotels and B&B Hôtels). The year was highlighted by three successes:

- **Partner diversification** with the signature of partnerships with NH Hotels Group, Motel One and Meininger;
- **Geographic diversification** through the acquisition of NH 4\* Amsterdam and new investments in Germany;
- **Diversification of investment tools** with the creation of FDM Management. The group has been given the means to accompany its operator strategy growth, by being able to invest in premises and businesses. FDM Management has already signed the acquisition in 2014 of 9 hotels in Germany, managed by Louvre Hotels Group and the development for Accor of a Pullman hotel at Roissy.

**Rents have held firm on like-for-like basis** (-0.6%) and experienced an improvement over the 2<sup>nd</sup> part of the year. Income from the Accor hotels, variable according to revenues, fell by only 1.1% despite the 3 point rise in VAT.

At the end of 2014, **the value of the portfolio rose by 2.0% at constant scope** (average return 6.1%), sustained by the growth in value of the hotels of 2.8%.

## Growth in the Recurring Net Income and the dividend

.....

### Liabilities secured

During 2014, Foncière des Régions continued to **improve the quality of its liabilities** by refinancing or by issuing debt securities amounting to €3.1 billion (€1.9 billion Group share), of which 32% was raised on the bond market. Beni Stabili, the Italian subsidiary of Foncière des Régions, has in particular successfully refinanced the ImSer debt, related to the portfolio of €1.7 billion in Telecom Italia assets (cost of new loans 2.5%). This refinancing has been accompanied by a capital increase of €150 million, followed by Foncière des Régions, which now holds 48.3% of the capital.

The group has thus improved the diversification of its debt and maintained an average maturity of more than 4 years. Foncière des Régions indebtedness has remained controlled with a stable LTV, at 46.1% (compared with 46.5% at the end of 2013). Satisfactory operational performance and a reduction of the average cost of the debt has improved the ICR to 2.8, compared with 2.5 in 2013.

### EPRA Recurring Net Income: €314.5 million, +6.0%

The EPRA Recurring Net Income was €314.5 million Group share, up by 6.0% over a year. This good performance results fundamentally from the improvement in German Residential and the fall in the cost of the debt (to 3.29% compared with 3.94% at the end of 2013), despite the impact of disposals in 2013 and 2014.

**Per share, the EPRA Recurring Net Income was €5.03/share, slightly up by 1.1%** over a year due to the impact of the share issue in the 2<sup>nd</sup> half of 2013 in connection with the successful exchange offer on FDL.

## **Growth of the dividend, at €4.30 per share**

Given the good performance in 2014 results and the sound outlook, the group will be proposing at the vote of the General Meeting on 17 April next a dividend of €4.30 per share, up by 2.4% compared to last year. This dividend represents a distribution rate of 86% and a yield of 4.6% on the basis of the closing price on 19 February 2015.

## **EPRA NAV/share: €75.5/share**

The EPRA NAV was €4,754 million and €75.5/share, down by 2.8% compared with the end of 2013. The soundness of the Recurring Net Income and the increase in appraisal values have to some extent offset the effect of the distribution, as well as the impacts of the Imser refinancing and restructuring of the hedges, which will have a favorable effect on profile and cost of the debt.

The EPRA triple net NAV was set at €4,145 million and €65.9/share, impacted by the fair valuation of the financial instruments and debts.

## **Major investment in Hotel real estate at the beginning of 2015**

---

**Foncière des Régions to announce the acquisition of a 14.6% stake in Foncière des Murs (FDM)** its subsidiary specialising in Hotel real estate, with a portfolio of €3.2 billion. This acquisition will be closed on 23 February with Generali (10.3%) and ACM (4.3%) which will still have 10.3% and 10.0% of the share capital. The price of €23.0 is equivalent to a 1.3% premium on the Triple Net NAV per share. Foncière des Régions will then hold 43.1% of its share capital which, as a limited partner it already consolidates.

**Foncière des Régions will also launch a takeover bid for the balance of FDM's capital.** The contemplated price is €23 per share (following the delivery of the report of the independent expert that will be appointed by the Supervisory Board of FDM and subject to the decision of conformity of the offer by the AMF). Considering the commitment not to contribute of the main institutional investors, which hold 47.7% of share capital after disposals (Crédit Agricole Assurances, Cardif, Generali and ACM) the stake that can be bought reaches 9.2% of the share capital (€152 million).

Once these transactions have been completed, **Foncière des Régions' portfolio will show an additional €430 million to €700 million GS in the Hotels and Service Sector. This enhancement in the attractive Hotel investment market will create value immediately.** It will enable to increase the portion of strategic assets and improve financial results visibility (longer lease terms, increased occupancy rate and operating margin).

In order to finance those acquisitions in Hotels and, to a greater extent, its investments and growth projects in each of its asset classes (Offices, Residential, Hotels), **Foncière des Régions is contemplating a capital increase of around €250 million<sup>3</sup>** with preferential subscription rights. The majority shareholders, representing close to 50% of the share capital have already expressed their desire to participate in this.

<sup>3</sup> Subject to obtaining the prospectus approved by the AMF

## Outlook for 2015: slight increase in the Recurring Net Income per share

---

**These sound results confirm the permanence of the cash-flows and robust values.** 2014 saw the solidity of the portfolio increase, with focusing on strategic markets, the capacity to capitalise on investment opportunities and improvement of the visibility of the results.

**In 2015, Foncière des Régions intends to capitalise on new growth opportunities in its strategic asset classes:**

- **In Offices**, the group intend to invest €300 million mainly in its pipeline. In 2015, 9 projects will be delivered for a cost of €309 million;
- **In Germany Residential**, which has an organic growth potential, the group aims to invest €500 million in prime acquisitions in strategic locations. Two portfolios have been negotiated already for €221 million;
- **In Hotel real estate**, Foncière des Régions is increasing its exposure (the operation on FDM represents an investment of €430 million to €700 million of assets) and intends to accelerate investments via three tools (sale and leaseback, developments and acquisitions of premises and businesses). The Group set itself an investment target of over €400 million (€200 million GS).

**To date, already €1 billion of investments are committed.** The strategy of portfolio quality enhancement will also continue thanks to the pursue of disposals with a €700 million program.

Backed by its sound outlook, for 2015, **Foncière des Régions targets more than 95% of its portfolio in its strategic markets and is anticipating a slight increase in its EPRA Recurring Net Income per share.**

**Today, there will be a conference call devoted to analysts and investors  
at 2:30 p.m. (Paris time)**

The presentation relating to the conference call will be available

#### Foncière des Régions, co-créateur d'histoires immobilières

A reference player in service sector property, Foncière des Régions has built its development and its portfolio around one key characteristic value, that of partnership. With a total portfolio of €16.4 billion € (€9.8 billion Group share) located on buoyant markets, which are France, Germany and Italy, Foncière des Régions is now an acknowledged partner for businesses and regions, which it accompanies in their real estate strategy with a dual objective: To enhance the existing urban portfolio and design real estate for the future.

Foncière des Régions is committed principally to its Key Accounts (Orange, Suez Environnement, Edf, Dassault Systèmes, Thales, Eiffage, etc.) on the Offices market. The group also focuses its attention, in a pioneering and relevant manner, on two other strategic sectors, which are German Residential and Hotels in Europe.

The Foncière des Régions security is listed in sub-fund A of Euronext Paris (FR0000064578 - FDR), a member of the SRD and features in the composition of the MSCI, SBF120, Euronext IEIF "SIIC France" and CAC Mid100 indices, in the European property benchmark indices "EPRA" and "GPR 250" as well as in the FTSE4 Good, DJSI World and NYSE Euronext Vigeo (World 120, Eurozone 120, Europe 120 and France 20) ethical indices.

Foncière des Régions is rated BBB-/Stable by Standard and Poor's.

The explanation, like for like (+0.2%), for this improvement lies in the very low indexation over the period, the rent renewals signed in 2013, as well as the maintenance of an occupancy rate above 97.1% at the end of December 2014.

As Group share, rental income totalled €558 million, an increase of 6.2% over the period. The increase was mainly due to the consolidation of the Residential business (+€75 million), and:

- ◆ new asset acquisitions and deliveries (+€6.4 million)
- ◆ disposals (-€46.2 million, €21.3 million of which was related to disposals in Logistics)
- ◆ indexation and the mixed effect from departures and re-lettings (-€0.3 million)

Group share rental income fell from €255 million to €238.2 million, a drop of €16.8 million over one year. This change is the combined result of:

- ◆ asset disposals and sharing agreements in 2013 and 2014 (-€18.6 million), due primarily to disposals in the outer suburbs and in the Regions, along with the sharing of the DS Campus (-€2.7 million)
- ◆ asset acquisitions and deliveries (+€5.8 million):
  - acquisitions:
    - ◆ of the Natixis building to Charenton in Q4 2014 (€2.6 million)
    - ◆ of the SICRA headquarters to Chevilly-Larue in March 2013 (€0.4 million)
  - delivery of pre-leased assets, including:
    - ◆ the New Velizy asset, a turnkey property leased to Thales, delivered in October 2014 (€1.1 million Group share)
    - ◆ delivery of the Pégase asset, a turnkey property leased to Eiffage and located in Clichy (92) in April 2013 (+€0.4 million)
    - ◆ a turnkey office building leased to Egis in Montpellier, delivered in July 2014 (+€0.4 million)
- ◆ vacation of properties earmarked for refurbishment or complete redevelopment (-€3.1 million), notably the Silex 1 and 2 buildings in Lyon and the Levallois Anatole France property
- ◆ an increase on a like-for-like basis of +0.7% (€1.5 million) thanks to:
  - the positive effect of indexation (+€1 million)
  - the rental activity (+€0.5 million):
    - ◆ rentals (+€3.3 million)
    - ◆ vacated premises (-€2.1 million)
    - ◆ renewals/re negotiations (-€0.7 million, a drop of 1% in renewed leases)

## 2. Annualised rental income: €263 million

### 2.1 Breakdown by major tenants

Currently, the ten leading tenants represent 71% of annualised rents, a percentage slightly lower than at the end of 2013 (75%).

The 2.3% drop in rental income between 2013 and 2014 is mainly due to the impact of disposals (notably Orange and EDF). This was partially offset by the acquisition of the Natixis Charenton building (€10.5 million of annual rents).

## 2.2 Geographical breakdown: Île-de-France accounts for 76% of rental income

\*including DS Campus in GS 50%

The geographical breakdown of rental income is in line with that of the accounted rental income, confirming the prevalence of the Île-de-France share, with 76% of annualised rental income. The main changes in rental income by geographical area reflect the rental activity since 1 January 2014:

- ◆ Disengagement from the Regions (-18.2%) and from the outer suburbs (-33.1%) by disposing of assets, particularly the EDF rue de Verdun in Nîmes (€0.9 million in annualised rental income) and the Orange asset in Soisy-sous-Montmorency
- ◆ Developments in the inner suburbs (+46% of annualised rental income), notably the acquisition of the Natixis Charenton asset.

## 3. Indexation

The indexation effect is +€1 million over 12 months. 28% of rental income is indexed to the ICC, 69% is indexed to the ILAT, whilst the balance is indexed to the ILC or IRL.

The rents benefiting from an indexation floor (1%) represent 34% of the annualised rents and are indexed on the ILAT.

The impact of a negative indexation of the ILAT and the ICC at -1% on annualised rents is estimated at €1.4 million, a decrease of 0.5%.

## 4. Rental activity

(€ million)	Surface (sq.m)	Annualised rental income	Annualised rental income (€/sq.m)
Vacating	117 593	14,3	121,4
Letting	76 410	18,4*	241,3
Renewal	115 543	28,1	243,0

\*GS rent = 11,9 M€

In 2014, one asset in Levallois-Perret and two assets in Meudon and Vélizy were vacated with a view to redevelopment, but also:

- ◆ 8 properties rented by the Eiffage group (9,249 m<sup>2</sup>; €0.5 million of rent) in January 2014 in accordance with our initial agreements
- ◆ of 16 assets leased to Orange (45,545 m<sup>2</sup>: €6.1 million of rent) located mostly in regions and which are intended to be sold vacant to developers (5 have already been sold in 2014 for 13,194 m<sup>2</sup>/€1.1 million).

These vacancies have been offset by letting existing assets and delivering leased assets, representing €11.9 million in annualised rental income (76,410 m<sup>2</sup>) and the delivery of the New Vélizy assets (46,000 m<sup>2</sup>) in October and the building leased to Egis in Montpellier (6,000 m<sup>2</sup>) in July.

As regards marketing efforts, the significant events for this year were the letting in the CB 21 Tower. Five new leases with Covidien, FHB, Groupon, Wano and Verizon, representing a total of 11,364 m<sup>2</sup> were signed in 2014. The Tower currently has an occupation rate of 97% and one floor remains to be let (1,300 m<sup>2</sup>).

2014 was also underscored by the renewal of 11% of the leases in the portfolio as a result of the continuation of our partnership strategy, which is proving effective in keeping our tenants in our properties.

All the signatures of the year (including the acquisition of the building Natixis at Charenton) represent €50 million for 6.1 year firm lease.

## 5. Lease expirations and occupancy rates

### 5.1. Lease expirations: 6.4 years residual lease term (5.4 years firm)

<b>Total</b>	<b>263,1</b>	<b>100%</b>	<b>263,1</b>	<b>100%</b>

\* including DS Campus in GS 50%

The firm residual term is lower at 5.4 years, vs. 5.7 years at the end of 2013. By lease termination date, the residual term of the leases amounts to 6.4 years (vs. 6.8 in 2013).

The mechanical loss of 12 months of residual term was partially offset by the signature of long leases (Natixis and Thales in New Velizy leases for 9 years firm at the end of 2014), the lease renegotiations, particularly for the Percier assets (Chloé lease + 3 years firm).

## 5.2. Occupancy rate and type: an occupancy rate of 96.8%

(%)	2013	2014
Paris Centre West	100,0%	100,0%
Southern Paris	99,2%	99,2%
North Eastern Paris	96,1%	97,4%
Western Crescent and La Défense	92,5%	97,7%
Inner suburbs	98,5%	99,0%
Outer suburbs	95,4%	94,0%
Total Paris Region	<b>96,3%</b>	<b>97,9%</b>
MRC	95,4%	95,1%
Other French regions	93,8%	89,9%
<b>Total</b>	<b>95,8%</b>	<b>96,8%</b>

The occupancy rate is up in comparison with the end of 2013 (96.8% vs. 95.8%). That is explained by the successful letting of CB 21 Tower. Therefore, the occupancy rate in Île-de-France has risen by 1.6 points over the year.

The increase in the vacancy rate in the Regions is explained by the liberation of the Eiffage and Orange sites which are the subject of an ongoing sales process.

The other vacant office space is mainly found in 3 properties located in Paris (marketing ongoing), Nîmes and in Lille; these latter two are the subject of an ongoing sales process.

New commitments (new disposals and new preliminary disposal agreements) reflecting a desire to improve the quality of the portfolio. These €137 million commitments relate to 34 assets, including 30 in the dynamic compartment and a total of €51 million in other French regions.

Work on disposals in 2014 also included the materialisation of €152 million in preliminary agreements signed in previous years.

Foncière des Régions entered into a new partnership with Natixis by acquiring a 38,000 m<sup>2</sup> asset leased for 9 years firm at the start of October 2014 under a sale and lease back programme, BREEAM In-Use certified.

## 9. Development projects: a pipeline of more than €1.4 billion

The development policy of Foncière des Régions aims mainly at continuing the asset enhancement work undertaken (improvement of asset quality and creation of value), supporting Key Accounts partners over the long term in the deployment of their real estate strategy, and managing new operations in strategic locations.

The strategy is based, in the greater Paris area, on locations which are well served by public transport and/or in established tertiary districts and in the large Regional Cities where the annual take-up is greater than 50,000 m<sup>2</sup> per year, in prime locations.

### 9.1 Delivery of properties

Over the year, the following properties were delivered:

- ◆ in October 2014, the New Velizy asset, a campus of 46,000 m<sup>2</sup> built turnkey for the Thales group and located in Vélizy-Villacoublay, under a 9 year firm lease, HQE and BREEAM "Very Good" certified
- ◆ in July 2014, a new turnkey office building covering 6,000 m<sup>2</sup> leased to Egis and located in the Parc de la Pompignane in Montpellier under a 9 year firm lease.

Several projects were launched and begun during the year:

- ◆ Calypso, an office building of 9,600 m<sup>2</sup> within the Euromed Center project in Marseille
- ◆ Silex 1, a 10,600 m<sup>2</sup> office building in the heart of the Part-Dieu district in Lyon
- ◆ A turnkey for ERDF in Avignon over a floor area of 4,100 m<sup>2</sup>
- ◆ Thaïs, a 5,500 m<sup>2</sup> building at the foot of the Louise Michel metro station in Levallois-Perret.

Leases have also been signed over the year:

- ◆ with Dassault Systèmes for an extension to the existing campus in Vélizy over 13,100 m<sup>2</sup>. The planning application was filed at the end of June and the work is due to start in February 2015. The lease for the campus (with extension) is extended to 10 years from 2016.
- ◆ with Bose on a 5,100 m<sup>2</sup> turnkey property for the future headquarters of the group in Saint-Germain-en-Laye for which work began in July
- ◆ with Schlumberger on a 3,150 m<sup>2</sup> turnkey property in the Parc de la Pompignane, in Montpellier for which work began in November
- ◆ with INICEA on a 12 year firm lease in advance of completion, for the construction of a 120-bed psychiatric clinic in Saint Mandé, as part of the development of the site formerly occupied by EDF.

Finally, regarding the Euromed Center Phase 1 development in Marseille, the 857-space car park and the first office building (Astrolabe), covering 14,000 m<sup>2</sup>, were delivered in January 2015. Work on the hotel (following the signing of a firm 12-year lease with Louvre Hôtels for the Golden Tulip brand) is ongoing, with delivery expected in 2016.

These projects are currently in the pre-marketing phase and are likely to be committed depending on leasing agreements to be completed.

The building permit has been obtained for the extension of the New Velizy campus, of which the first phase of 46,000 m<sup>2</sup> was delivered in October 2014. Discussions with Thales are currently underway regarding a 14,000 m<sup>2</sup> extension.

On the Silex 2 (project to renovate/extend the tower vacated by EDF in the Part-Dieu district of Lyon), Toulouse Marquette (10,900 m<sup>2</sup> building in the centre of Toulouse) and Issy Grenelle (renovation and extension over 10,800 m<sup>2</sup> in Issy-les-Moulineaux) the building permits have been filed.

Further, work is continuing on the Euromed Center assets: Floréal and Hermione.

2014 was marked by a 3% increase in like-for-like assets:

Paris Centre West is the area with the highest growth (8.3%). This is due to the contraction in capitalisation rates on Parisian assets with long leases, reflecting a market trend during the year. Note that in the city area of Paris, the increase is 6% on a like-for-like basis.

In 2014, only the assets in other French regions decreased in value with a drop of 1.4% on a like-for-like basis.

## 11. Strategic asset segmentation

- ◆ "Core" portfolio: the Core portfolio is the strategic asset core, consisting of resilient properties providing long-term income. Mature buildings can be disposed of in timely fashion in managed proportions, freeing up resources that can be reinvested in value-creating operations, either by shoring up our asset base or by new investments.
- ◆ "Secondary" portfolio: the "Secondary" portfolio originates principally from outsourcing operations with our major partners-lessees. This portfolio provides a pocket yielding higher than the offices portfolio average, with an historically high lease renewal rate. The small size of these individual assets and their liquidity on the local markets make them apt candidates for gradual disposal.
- ◆ Portfolio "In the process of valuation": the "in the process of valuation" portfolio includes properties targeted for specific restructuring or rental development actions. These assets are primed to become core assets once the asset management work has been completed.

	<b>Core Portfolio</b>	<b>Value enhancement Portfolio</b>	<b>Secondary asset</b>	<b>Total</b>
Number of assets	70	54	259	<b>383</b>
Value EDGS (€million)	2 844	910	599	<b>4 353</b>

Residual firm duration of leases (years)	6,2	3,2	4,0	<b>5,4</b>
Occupancy rate	99,3%	94,3%	90,5%	<b>96,8%</b>

The core part of the portfolio rose slightly during 2014 (65% of the Office France portfolio, i.e. 2%) while the "Secondary" compartment decreased significantly over the year (from 19% at the end of 2013 to 14% at the end of 2014), thanks to the sale of €203 million in assets in this compartment (thanks to a targeted disposal strategy).

## B. OFFICES ITALY

Listed on the Milan stock exchange since 1999, Beni Stabili is the largest listed Italian property firm. Its assets consist largely of offices located in cities in northern and central Italy, particularly Milan and Rome. The company's assets totalled €4.1 billion at the end of December 2014.

Foncière des Régions holds 48.3% of the capital of Beni Stabili. The figures are disclosed as 100%.

The variation in rental income between 31 December 2013 and 31 December 2014 is €3 million, or -1.3%. This change is due primarily to:

- ◆ the effect of properties being vacated, leased and indexation (mostly the impact of an asset in Turin being vacated for which the annualised rent is €5.4 million): -€3.3 million
- ◆ disposals: -€6.6 million
- ◆ deliveries of assets under development, principally Via dell'Arte in Rome and San Fedele and San Nicolao in Milan: +€5.6 million.

The change on a like-for-like basis was -1.5% over the period.

<b>Total</b>	<b>1 821</b>	<b>251</b>	<b>229,4</b>	<b>218,7</b>	<b>-4,7%</b>	<b>100,0%</b>

## 3. Indexation

The annual indexation in rental income is usually calculated by taking 75% of the increase in the Consumer Price Index (CPI) applied on each anniversary of the signing date of the agreement. The average increase in the IPC index was 0.2% in 2014. All leases are protected against negative indexation.

## 4. Rental activity

During 2014, rental activity can be summarised as follows:

(€million)	Surface (sq.m)	Annualised rental income	Annualised rental income (€/sq.m)
Vacating	69 666	10,4	149
Letting	25 384	11,4	451
Renewal	23 800	4,2	175

The new leases mainly concern the San Nicolao property (€5.4 million in rent) let under the terms of a 13-year lease, seven of which are firm, to Luxottica. The other leases concern the Piazza San Fedele (€2.1 million) and Via Dante (€1.2 million) assets in Milan, and the Via dell'Arte asset in Rome (€0.7 million).

Renewals was renegotiated resulted in increased rental income of 14%, mostly from the Via Dell' Union asset in Milan and the Via Darsena asset in Ferrara, with a surface area of almost 12,455 m<sup>2</sup>.

The Corso Ferrucci property (Turin, 51,383 m<sup>2</sup>) was vacated in June 2014 and is being actively marketed.

## 5. Lease expirations and occupancy rates

### 5.1. Lease expirations: 12.1 years residual lease term (6.3 years firm)

## C. HOTELS & SERVICE SECTOR

Foncière des Murs (FDM), which is 28.5% owned by Foncière des Régions, is a listed property investment company (SIIC) specialising in the service sector, especially in hotels, healthcare, and retail. The Company's investment policy favours partnerships with the leading operators in their business sector, in order to offer secure returns to its shareholders. The figures are quoted at 100% and FDM share of affiliates.

### 1. Accounted rental income: -0.6% like-for-like

Recognised rental income is presented at 100% and in Foncière des Murs share. 164 assets held partially correspond to acquisitions in 2012 (50.2% owned) and H1 2013 and 2014.

Consolidated rental income stood at €196 million at 100% at the end of 2014, down 3.9% compared with 2013. This was due mainly to:

- ◆ the impact of disposals in 2013 and 2014 (-€10.4 million)
- ◆ the impact of 2014 acquisitions/deliveries amounting to €3.6 million.
- ◆ the decrease in rental income on a like-for-like basis: 0.6% (-€1.1 million), due to the drop in Accor revenues (-0.8% over the year) and decreases in rental incomes from Jardiland assets compared with an extension of leases following the lease renegotiations at the end of 2013.

The increase in international rental income is linked to the investment program implemented in 2014, and in particular with the acquisition of the NH hotel in Amsterdam.

## 3. Indexation

54% of the rental income is indexed to benchmark indices. All of the portfolios generating fixed rental income were indexed:

- ◆ the Korian portfolio was indexed in January 2014 based on the Q4 2013 Rental Reference Index (IRL), which had a positive impact of €0.2 million;
- ◆ the indexation of Jardiland, based on the ILC construction cost index for one third of the portfolio and the IRL Rental Reference Index for the other two-thirds of the portfolio, took place in July 2014; the negative impact of €1.5 million is due to the decreased rents granted following the lease renegotiations in 2014;
- ◆ the indexation of the Quick and Courtepaille portfolios, which was based on the construction cost index (ILC), took place in October 2014, generating a total impact of +€0.4 million.

46% of rental income was indexed on Accor revenue, which fell 0.8% over the year.

In the hotel sector, a like-for-like advance of 2.0% is noted, compared to the end of 2013, mainly due to the compression of capitalisation rates on the Paris assets.

The healthcare sector fell by 2.7%, due to impairment on two specific assets. Restated for these two assets, the change on a like-for-like basis on healthcare is +0.6%.

On retail premises (+0.3%), the fall in capitalisation rates offset the rise in transfer duties, 0.7% out of Paris.

## D. GERMAN RESIDENTIAL

Foncière des Régions is involved in the Residential sector in Germany via its subsidiary, Immeo, of which it owns 60.9%. The company is responsible for over 41,000 units, located mostly in North Rhine-Westphalia and Berlin.

The strategy used by Foncière des Régions for this business is to continue the geographical diversification of its presence by strengthening its presence in Berlin and in other dynamic and attractive cities such as Dresden and Leipzig.

From an operational point of view, 2014 saw an accelerated rotation of the portfolio which played a major role in the improved results of the company.

The figures are presented at GS Immeo.

### 1. Accounted rental income: +1.8% like-for-like

#### 1.1. Geographic breakdown

(€million)	Surface (sq.m)	Number of units	Rental income 2013	Rental income 2014	Change (%)	Change (%) LFL	% of rental income
Berlin*	792 544	11 848	18,3	<b>46,0</b>	151,2%	4,9%	27%

\*Including Dresde and Leipzig

Rental income stood at €169.7 million in 2014, compared with €152.5 million in 2013. This change was due mainly to:

- ◆ the impact of disposals (-€12.4 million)
- ◆ the impact of acquisitions (+€26.7 million)
- ◆ the change in rental income on a like-for-like basis (+€2.3 million).

The 1.8% rise in rental income on a like-for-like basis over a year was essentially driven by the growth of the portfolios located in Berlin, Dresden and Leipzig, which saw average growth of 4.9%, proving the relevance of the geographical diversification policy.

Regulated rents accounted for 10% of the North Rhine-Westphalia portfolio (or 7% of the total portfolio) and had an average reversion of +14%.

Berlin accounts for 11% of 2014 rental income on a like-for-like basis (included Dresde and Leipzig)

### 2. Annualised rental income: €177 million

#### 2.1. Geographic breakdown

### 3. Indexation

The rental income from residential premises in Germany changes according to three mechanisms:

- re-letting: the option to increase the rent freely without being excessive in urban areas
- for current leases: by implementing a three-year maturity, option to increase the rent by 15% to 20% depending on the region without being able to exceed a market average (Mietspiegel)
- for current leases: option to increase the rent when work is done. The increase is then limited to 11% of the work which contributed to the valuation of the building and the rent cannot exceed the Mietspiegel.

### 4. Occupancy rate

Berlin*	99,0%	98,3%
NRW	98,7%	98,3%
<b>Total</b>	<b>98,7%</b>	<b>98,3%</b>

\*Including Dresden and Leipzig

The occupancy rate for assets in operation stood at 98.3% at 31 December 2014 compared to 98.7% at 31 December 2013. The occupancy rate is down slightly due to the result of resuming the management of the portfolios acquired in the second half of the year.

The increase in unpaid rent in Germany in 2014 was mainly the result of taking over the management of the portfolios acquired during the course of the year.

### 6. Disposals and disposal agreements: €160 million

2014 was particularly active, with €159.9 million in new commitments concluded at an average rate of over 5.4% to the appraisal value. 32% of these transactions were in Duisburg.

### 7. Acquisitions: €358 million mainly in Berlin and Dresden

€357.8 million in acquisitions were made during 2014, mostly in Berlin and Dresden. These investments have a

yield of 6.0%. Thanks to their technical features and their excellent locations within their respective markets, the average expected rent reversion by the company on these new assets will done between +25% and +30%.

## 8. Asset values

At the end of 2014, the portfolio was valued at €2,718.8 million compared with €2,434.7 million at the end of 2013. This change was due to the following:

- ◆ the impact of disposals (-€147 million)
- ◆ the impact of acquisitions (+€358 million)
- ◆ the change in values on a like-for-like basis (+€73 million).

The following contribute to maintaining portfolio quality and its increased value: €13.8 million in OPEX work (i.e. €5.1/m<sup>2</sup>) and €44.3 million in CAPEX work (i.e. €16.5/m<sup>2</sup>) which was done in 2014.

Rental income stood at €28.8 million in 2014, compared with €32.5 million in 2013. This change was due mainly to:

- ◆ the impact of disposals (- €2.1 million);
- ◆ the impact of vacant properties (- €2.4 million);
- ◆ the impact of acquisitions (+ €0.2 million);
- ◆ the impact of indexation (+ €0.6 million).

Of all new commitments (€120 million), 60% were made in Paris and Neuilly-sur-Seine. The value of new commitments has increased by around 50% compared with the previous year.

## 5. Asset valuation

At the end of 2014, the Foncière Développement Logements (France and Luxembourg) portfolio was valued at €800 million with a like-for-like basis increase of 3.0% over the year.

This increase is mainly due to some major assets in Paris being transferred from a block value to an occupied retail value following a disposal commitment obtained on these assets, and to the compression of the capitalisation rates used by experts on some assets.

## II. Logistics

### 1. Accounted rental income: 0.8% like-for-like

(M€)	Surface (sq.m)	Rental income 2013	Rental income 2014	Change (%)	Change (%) LFL	% of total
<b>Total</b>	<b>531 457</b>	<b>54,3</b>	<b>33,1</b>	<b>-39,1%</b>	<b>0,8%</b>	<b>100%</b>

Rental income in 2014 amounted to €33.1 million, i.e. a decrease of 39.1% compared to the end of 2013. This change was due to:

- ◆ disposals made in 2013 and 2014 (-€21.3 million);
- ◆ indexation and staged rents (+€0.1 million);
- ◆ incoming and outgoing tenants (+€0.1 million);
- ◆ renewals (-€0.1 million).

Like-for-like, rental income increased by 0.8% (all of the Chalon site has now been leased).

### 2. Annualised rental income: €19.7 million

(€million)	Surface (sq.m)	Number of assets	Annualised rental income 2013	Annualised rental income 2014	Change (%)	% of rental income
<b>Total</b>	<b>531 457</b>	<b>9</b>	<b>56,2</b>	<b>19,7</b>	<b>-64,9%</b>	<b>100%</b>

Following disposals made in 2014, the annualised rents fell by 64.9%.

### 3. Indexation

In France, the indices used to calculate the indexation are those of the ICC and the ILAT. Collar rents account for 20% of annualised rental income.

### 4. Occupancy rate: 80,2%

The occupancy rate at 31 December 2014 was 80.2%, compared with 85.5% at 31 December 2013. This decrease is due to the change in scope of Logistics (major disposal in 2014). On the residual perimeter, the occupancy rate has increased, thanks to the marketing efforts of Pantin and Chalon.

Occupancy rate (%)	2013	2014
<b>Total</b>	<b>85,5%</b>	<b>80,2%</b>

## 5. Unpaid Rent

The impact of unpaid rent on the company's 2014 accounts was positive by €0.1 million, down by €1.8 million compared with the end of 2013 (the 2013 accounts were impacted by the forced liquidation of Telemarket).

## 6. Disposals and disposal agreements: €606 million

(€million)	Disposals (agreements as of end of 2013 closed) 1	Agreements as of end of 2013 to close 2	New disposals 2014 2	New agreements 2014	Total 2014	Margin vs 2013 value	Yield	Total Disposals = 1 + 2

In 2014, Foncière des Régions continued its portfolio rotation policy:

- ◆ completion of several sales with a total value of €498 million (including the 17 logistics platforms sold to property funds managed by Blackstone);
- ◆ signature of a preliminary sale agreement in the second half of 2014 for a disposal planned for the first half of 2015.

### ◆ Rental income

Rental Income (before reclassification of Logistics as Discontinued Operations) rose by 6.2% to €558.1 million, Group share (vs €525.7 million). This increase can be explained primarily through the consolidation on a full-year basis of the residential business, adding €75 million, as well as the following:

- asset acquisitions and deliveries (+ €6,4 million);
- disposals (- €46.2 million, of which - €21.3 million related to disposals in Logistics);
- indexation and the mixed effect from departures and re-lettings (- €0.3 million).

In consolidated data, rental income increased by 9.2% (+ €76 million):

- Germany Residential: + €107.3 million
- France Residential : + €15.8 million
- Offices France: - €14.5 million (-5.5%)
- Offices Italy: - €3.0 million (-1.3%)
- Hotels and Service Sector: - €7.9 million (-3.9%)
- Logistics: - €21.2 million (-39.1%)

#### ◆ Net operating costs

Net operating costs amounted to €55.2 million, Group share, at 31 December 2014 (€86.3 million on a consolidated basis) compared to €44.4 million at 31 December 2013 (€65.9 million on a consolidated basis), for an increase of 24.3%. This increase is related primarily to the integration of Residential activity on a full-year basis. Stripping out the impact of Residential, net operating costs fell during 2014. These overhead expenses mainly consist of payroll, attorneys' fees, auditors' fees, and office, communications and IT costs.

#### ◆ Other business income

Other business income mainly concerned the "Car Parks" activity (€7.6 million), i.e. car parks owned or under concession, as well as real estate development activities. Net income from these activities rose during 2014 due mainly to real estate development activity (€5.5 million). Other business income stood at €21.5 million at 31 December 2014 (Group share), compared to €13.8 million at 31 December 2013.

#### ◆ Depreciation and provisions

Allowances for depreciation and provisions during the period consisted largely of depreciation on operating properties and car parks.

#### ◆ Change in the fair value of assets

The income statement recognises changes in the fair value of assets based on appraisals conducted on the portfolio. During 2014, the change in the fair value of investment assets was positive by €102.0 million for the Group share and €158.7 million on a consolidated basis, versus - €40.2 million (Group share) at 31 December 2013 (- €37.7 million at 100%).

Operating income, Group share, thus amounted to €578.9 million at 31 December 2014 compared to €452.1 million at 31 December 2013.

#### ◆ Financial aggregates

Financial expenses stood at €175 million in Group share (compared to €191.4 million at 31 December 2013) and at €289.1 million on a consolidated basis (vs €307.4 million at 31 December 2013). The amount of interest capitalised on assets under development amounted to €15 million (Group share) for 2014.

In addition, financial instruments both assets and liabilities (before reclassification of Discontinued Operations) represented a net balance sheet amount of €580.3 million (€384.4 million for the Group share) and deferred tax liabilities from non-SIIC foreign companies accounted for €244.6 million (€127.4 million Group share).

The change in the fair value of financial instruments was negative €190.9 million in Group share at 31 December 2014. (-€311.4 million on a consolidated basis), compared to positive €71.7 million in Group share (+€110 million on a consolidated basis) at 31 December 2013. This was after a drop in long-term rates and a change in the fair value of the ORNANE between 2013 and 2014 (-€52.7 million, Group share and €69.2 million at 100%).

#### ◆ Income (loss) from changes in consolidation scope

The income from changes in consolidation scope corresponded mainly to the impact to net profit from the disposal of the Logistics companies for €30.5 million (Garonor France III in particular).

#### ◆ Income from non consolidated companies

Income from non-consolidated companies corresponds to OPCI Technical Fund dividends for €0.9 million.

#### ◆ Taxes

Taxes determined are for:

- foreign companies not covered or only partially covered by a specific scheme for real estate businesses;
- French subsidiaries not having opted for the SIIC regime;
- French SIIC or Italian subsidiaries with taxable activity.

Note that the change in the Italian SIIC tax regime resulted in the cancellation of €30 million (Group share) in net deferred tax assets.

Consolidated shareholders' equity, Group share, fell from €4,290 million at the end of 2013 to €4,158 million at 31 December 2014, i.e. a decrease of €132.1 million due mainly to:

- income for the period: + €118.5 million;

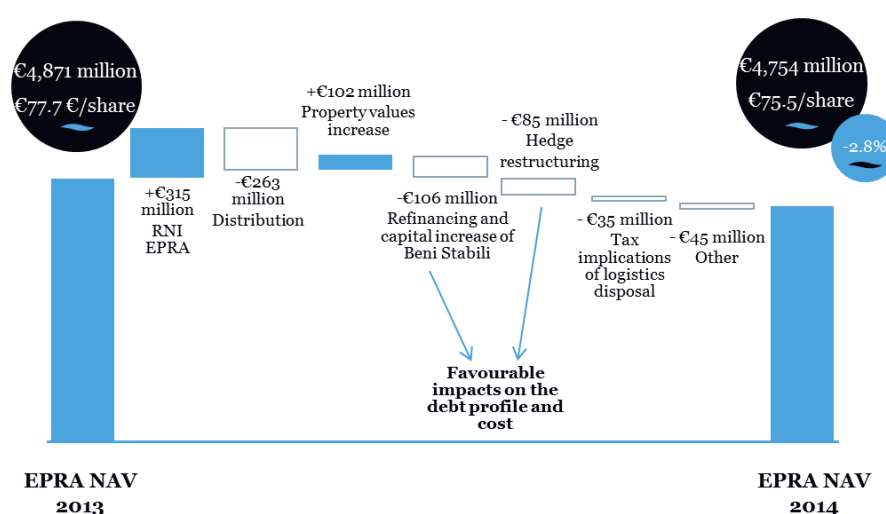

- financial instruments included in shareholders' equity: + €42.5 million;
- impact of the cash dividend distribution: - €262.7 million;
- change percentage of Beni Stabili held: - €30.2 million;
- structuring of residential sector: - €2.8 million.

◆ **Net debt**

Foncière des Régions' bank loans amounted to €5,727 million in Group share, and €8,893 million on a consolidated basis. Net debt at 31 December 2014 was €4,962 million (Group share) and €7,884 million (on a consolidated basis), compared to €5,098 million (Group share) and €8,117 (consolidated) at the end of 2013. The net debt decreased by €136 million (Group share) and €233 million on a consolidated basis.

Valuation work is carried out in accordance with the code of conduct applicable to SIIcs, and in accordance with the Charter of property valuation expertise, the recommendations of the COB/CNCC working group chaired by Mr Barthès de Ruyther and the international plan in accordance with European TEGoVA standards and those of the Red Book of the Royal Institution of Chartered Surveyors (RICS).

The property portfolio directly held by the Group underwent a complete valuation on 31 December 2014 by independent property experts such as REAG, DTZ Eurexi, CBRE, JLL, BNP Paribas Real Estate, Cushman and Yard Valtech.

Assets were estimated at values excluding and/or including duties, and rents at market value. Estimates were made using the comparative method, the rent capitalisation method and the discounted future cash flows method.

Car parks were valued by capitalising the gross operating surplus generated by the business.

Other assets and liabilities were valued using the principles of the IFRS standards on consolidated accounts. The application of the fair value essentially concerns the valuation of the debt coverages and the ORNANES. The level of exit tax is known and included in the financial statements for all of the companies that have opted for the fiscal transparency system.

For companies shared with other investors, only the Group share was taken into account.

#### ◆ Fair value adjustment for the buildings and business goodwill

In accordance with IFRS standards, properties in operation and in inventory are valued at historical cost. A value adjustment, in order to take into account the appraisal values, is recognised in the NAV for a total amount of €27.1 million.

Since goodwill is not valued in the consolidated accounts, a restatement to recognise its fair value (as calculated by the appraisers) was made in the NAV in the amount of €2.0 million at 31 December 2014.

#### ◆ Fair value adjustment for the car parks

Car parks are valued at historical cost in the consolidated financial statements. A restatement is made in the NAV to take into account the appraisal value of these assets, as well as the effect of the farm-outs and subsidies received in advance. The impact on the RNA was €34.0 million at 31 December 2014.

#### ◆ Recalculation of the base cost excluding duties of certain assets

When a company, rather than the asset that it holds, can be sold off, transfer duties are recalculated based on the company's net asset value. The difference between these recalculated duties and the transfer duties already deducted from the value of the assets generates a restatement of €17.5 million at 31 December 2014.

#### ◆ Fair value adjustment for fixed-rate debts

The group has taken out fixed-rate loans. In accordance with EPRA principles, triple net NAV is adjusted by the fair value of fixed-rate debts, with an impact of - €93.4 million at 31 December 2014.

In addition, at the end of 2014, the cash and cash equivalents of Foncière des Régions totalled nearly €1.9 billion, Group share (€2.5 billion on a consolidated basis). These amounts do not include the unused portion of loans

allocated to development projects under way.

## 6.2. Debt maturities

The average maturity of Foncière des Régions debt was 4.1 years at the end of 2014.

The 2015 and 2016 maturities are covered entirely by existing cash. Maturities for 2015 mainly affect Beni Stabili (€222 million Group share and €459 million on a consolidated basis) and Foncière des Régions (€80 million):

## 6.3. Main changes during the period

### ◆ New debt issues: €3,125 million at 100% (€1,908 million, Group Share)

- Foncière des Régions: €799 million (€799 million, Group share):
  - During the second half of 2014, Foncière des Régions continued the process it began in 2013 of renegotiating its corporate credit facilities to optimise their financial conditions and extend their maturity. As a result, €260 million in corporate credit facilities were renegotiated or refinanced. In addition, €39 million in new corporate debts were taken out;
  - In September 2014, Foncière des Régions issued a bond of €500 million with a maturity of September 2021 and a fixed coupon of 1.75%, for a spread of 105 bps. This strategy enabled the extensive diversification of financing sources, reduction in cost of debt and extension of its maturity to continue.
- Beni Stabili: €1,276 million raised in 2014 (€636 million Group share):
  - Beni Stabili placed a €350 million, unsecured inaugural bond issue in January 2014 with an annual coupon of 4.125% and maturing in four years, i.e. in January 2018;

- In March 2014, Beni Stabili successfully completed a private placement with institutional investors for a total of €250 million with a 3.50% coupon. The bond matures in April 2019;
  - In September 2014, Beni Stabili refinanced the IMSER securitisation collateralised by the €1.7 billion Telecom Italia real property portfolio via the creation of €300 million of mortgage financing and €200 million in corporate financing. This refinancing significantly reduced Beni Stabili's average cost of debt while increasing its financial flexibility;
  - Finally, during the year, Beni Stabili renegotiated three existing funding sources totalling €116 million and took out €60 million in new bank loans.
- Hotels and Service sector: €487 million raised in 2014 (€137 million in Group share):
    - In May 2014, Foncière des Murs took out €209 million in loans backed by a diversified asset portfolio mainly comprised of hotel assets, to:
      - refinance the balance of mortgage loans set up in 2007;
      - refinance the €60 million mortgage loan taken out in 2013 to optimise the financial conditions of the facility;
    - In December 2014, Foncière des Murs extended its covered bond by two years using €242 million in hotel assets for a coupon reduced to 2.75% starting on 16 February 2015;
    - Foncière des Murs also raised €35 million in new mortgage financing as part of its acquisitions.
  - Residential France: €350 million raised in 2014 (€209 million in Group share):
    - Foncière Développement Logements refinanced the Stockholm 1 and 2 loans in January 2014 with new debt for a nominal amount of €350 million.
  - Residential Germany: €213 million raised in 2014 (€127 million in Group share):
    - In Germany, Immeo raised €68 million in new financing for four- and five-year maturities, which are to be used to finance the acquisition of housing portfolios in Berlin, Dresden and Leipzig;
    - In October 2014, Immeo also took out mortgage acquisition loans totalling €145 million with a ten-year maturity, backed by an asset portfolio consisting of 3,500 residential units in Berlin and Dresden.

## 6.4. Hedging profile

During the 2014 financial year, the hedge management policy remained unchanged, with debt hedged at 90% to 100%, at least 75% of which had short-term hedges and all of which have maturities exceeding debt maturity.

Based on net debt at the end of December 2014, Foncière des Régions is covered (in Group Share) up to 87% in short term hedges, compared to 94% at the end of 2013. The average hedge duration is 5.1 years in Group share.

## 6.5. Average interest rate on the debt and sensitivity

The average rate on the debt of Foncière des Régions stood at 3.3% in Group share, compared to 3.9% in 2013. This decrease occurred mainly due to the refinancing of Beni Stabili's securitised debt in September, a new 7-year, 1.75% bond issue in September on Foncière des Régions for €500 million and the full-year impact of the 2013 renegotiations and hedge restructuring.

For information purposes, a 50 bps drop in the 3-month Euribor rate would have a positive impact of €0.5 million on net recurring income for 2015. The impact would be negative by €3.6 million in the event of a 50 bps hike.

### ◆ FINANCIAL STRUCTURE

Excluding debts raised without recourse to the group's property companies, the debts of Foncière des Régions and its subsidiaries generally include bank covenants (ICR and LTV) applying to the borrower's consolidated financial statements. If these covenants are breached, early debt repayment may be required. These covenants are established in Group share for Foncière des Régions and for Foncière des Murs and on a consolidated basis for the subsidiaries of Foncière des Régions (if their debts include them).

- The most restrictive consolidated LTV covenants at 31 December 2014 amounted to 60% for Foncière des Régions, Foncière des Murs, Foncière Développement Logements and Beni Stabili.
- The threshold for consolidated ICR covenants differs from one REIT to another, depending on the type of assets, and may be different from one debt to another even for the same REIT, depending on debt seniority.

The most restrictive ICR consolidated covenant applicable to the property investment companies are the following:

- for Foncière des Régions: 200%;
- for Foncière des Murs: 200%;
- for Foncière Développement Logements: 150%;
- for Beni Stabili: 140%;
- Furthermore, in some scopes financed using dedicated debt, there are specific covenants which may be added to or replace the consolidated covenants.

With respect to Immeo, for which the debt raised is "non-recourse" debt, there are no consolidated covenants associated with portfolio financing.

Lastly, concerning Foncière des Régions, corporate credits have been amended following 2013 renegotiations. In particular, for some they include the following ratios:

Ratio	Covenant	2014
LTV	60,0%	50,3%
ICR	200,0%	276,0%
Secured debt ratio	22,5%	7,7%

All covenants were fully complied with at the end of 2014. No loan has an accelerated payment clause contingent on a Foncière des Régions rating.

- Average cost:

Financial Cost of Bank Debt for the period

+ Financial Cost of Hedges for the period

---

Average used bank debt outstanding in the year

- Spot rate: Definition equivalent to average interest rate over a period of time restricted to the last day of the period.

- ◆ Definition of the acronyms and abbreviations used:

- MR: Major Regional Cities, i.e. Bordeaux, Grenoble, Lille, Lyon, Metz, Aix-Marseille, Montpellier, Nantes, Nice, Rennes, Strasbourg and Toulouse
- ED: Excluding Duties
- ID: Including Duties
- IDF: Paris region (Île-de-France)
- ILAT: French office rental index
- CCI: Construction Cost Index
- CPI: Consumer Price Index
- RRI: Rental Reference Index
- PACA: Provence-Alpes-Côte-d'Azur
- LFL: Like-for-Like
- GS: Group share
- CBD: Central Business District

- Rtn: Yield
- RNW: North Rhine-Westphalia
- Chg: Change
- MRV: Market Rental Value
  
- ◆ Firm residual term of leases  

Average outstanding period remaining of a lease calculated from the date a tenant first takes up an exit option.
  
- ◆ Green Assets  

Green” buildings, according to IPD, are those where the building and/or its operating status are certified as HQE, BREEAM, LEED, etc. and/or which have a recognised level of energy performance such as the BBC-effinergieR, HPE, THPE or RT Global certifications.
  
- ◆ Like-for-like change in value  

This indicator is used to compare asset values from one financial year to another without accounting for changes in scope, such as acquisitions, disposals, development projects, etc.
  
- ◆ Loan To Value (LTV)  

The LTV calculation is detailed in Part 7 “Financial Resources”.
  
- ◆ Net asset value per share (NAV/share), and Triple Net NAV per share  

NAV per share (Triple Net NAV per share) is calculated pursuant to the EPRA recommendations, based on the shares outstanding as at year-end (excluding treasury shares) and adjusted for the effect of dilution.
  
- ◆ Occupancy rate  

The occupancy rate corresponds to the spot financial occupancy rate at the end of the period and is calculated using the following formula:

$$1 - \frac{\text{Loss of rental income through vacancies (calculated at MRV)}}{\text{rental income of occupied assets} + \text{loss of rental income}}$$

This indicator is calculated solely for properties on which asset management work has been done and therefore does not include assets available under pre-leasing agreements. Occupancy rate are are calculated using annualized data.

◆ Operating assets

Properties leased or available for rent and actively marketed.

◆ Portfolio

The portfolio presented includes investment properties, properties under development, as well as operating properties and properties in inventory for each of the entities, stated at their fair value. For offices in France, the portfolio includes asset valuations of Coeur d'Orly, DS Campus, Euromed and New Velizy, which are consolidated under the equity method.

◆ Projects

- Committed project: these are projects for which promotion or built contracts, work has begun and has not yet been completed at the closing date. They might pertain to VEFA (pre-construction) projects or to the repositioning of existing assets.
- Controlled project: These are projects that might be undertaken. In other words, projects for which the decision to launch operations has not been finalized.

◆ Recurring Net Income EPRA per share (RNI/share)

Recurring Net Income per share is calculated pursuant to the EPRA recommendations, based on the average number of shares outstanding (excluding treasury shares) over the period under consideration and adjusted for the effect of dilution

◆ Rental Income

- Recorded rent corresponds to gross rental income accounted for over the year by taking into account deferment of any relief granted to tenants, in accordance with IFRS standards.
- The like-for-like rental income posted allows comparisons to be made between rental income from one year to the next, before taking changes to the portfolio (e.g. acquisitions, disposals, building works and development deliveries) into account. This indicator is based on assets in operation, i.e. properties leased or available for rent and actively marketed.
- Annualised rental income corresponds to the gross amount of guaranteed rent for the full year based on existing assets at the period end, excluding any relief.

◆ Surface

SHON: Gross surface

SUB: Gross used surface

◆ Unpaid rent (%)

Unpaid rent corresponds to the net difference between charges, reversals and unrecoverable loss of income divided by rent invoiced. These appear directly in the income statement under net cost of unrecoverable income (except in Italy for which not relating to unpaid rents were retired)

◆ Yields/return

- The portfolio returns are calculated according to the following formula:

$$\frac{\text{Gross annualised rent (not corrected for vacancy)}}{\text{Value excl. duties for the relevant scope (operating or development)}}$$

- The returns on asset disposals or acquisitions are calculated according to the following formula:

$$\frac{\text{Gross annualised rent (not corrected for vacancy)}}{\text{Acquisition or disposal value excl. duties}}$$
