Sales (€ millions)	2015	2014	Change Actual	Change Like-for-like
First quarter	247.1	235.3	+5.0%	+0.8%

/ SALES

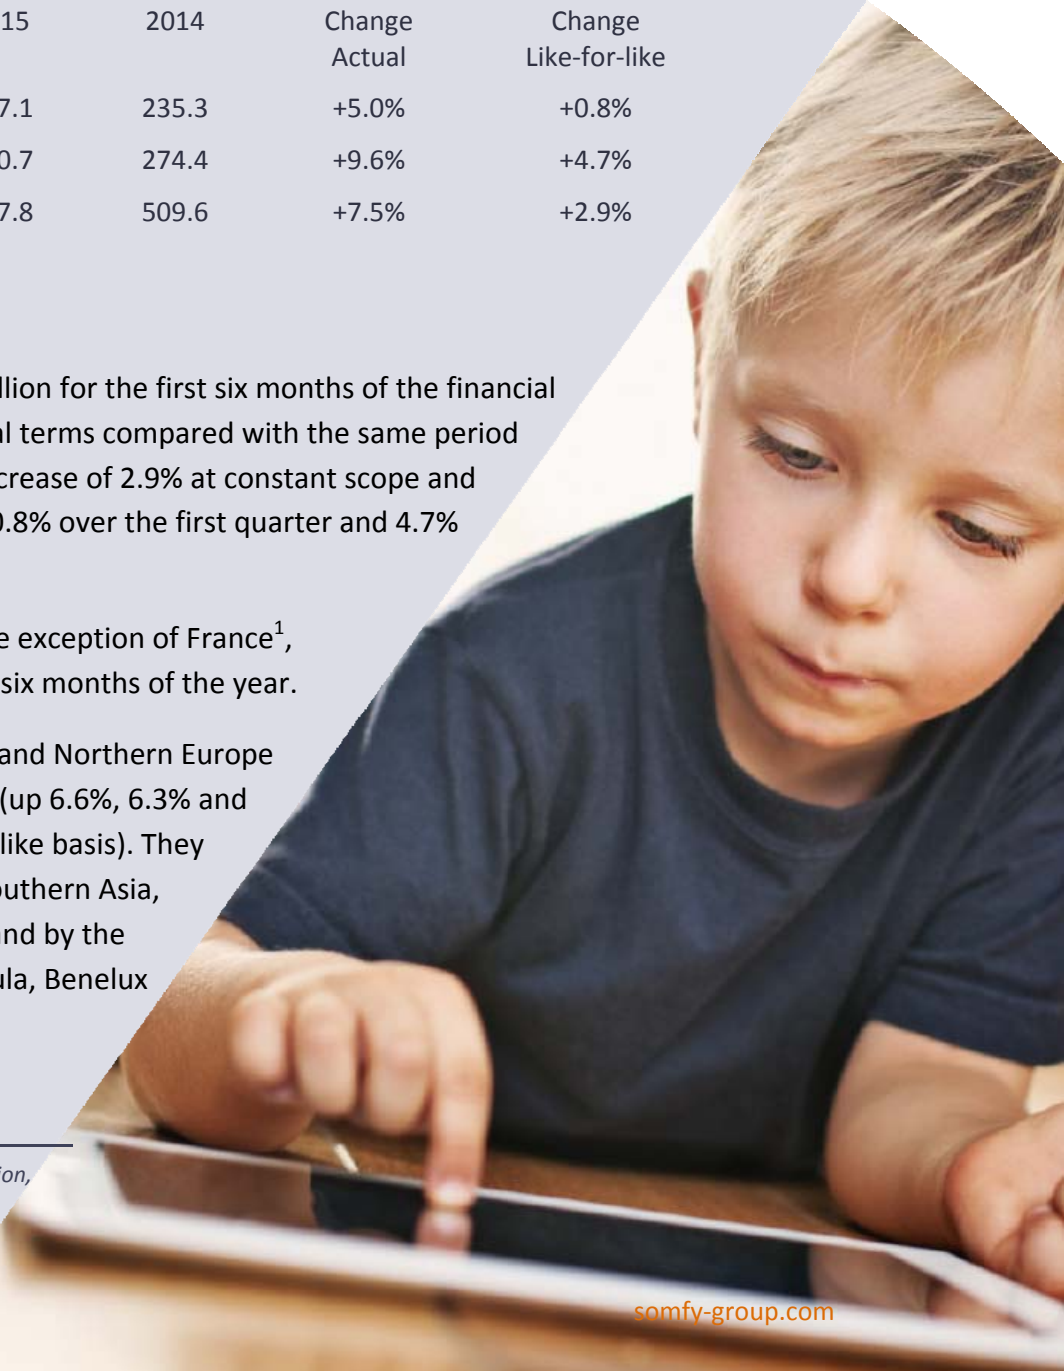

Group sales totalled €547.8 million for the first six months of the financial year, an increase of 7.5% in real terms compared with the same period last year. This represents an increase of 2.9% at constant scope and exchange rates, comprised of 0.8% over the first quarter and 4.7% over the second.

All geographic regions, with the exception of France¹, recorded growth over the first six months of the year.

Asia Pacific, Southern Europe² and Northern Europe posted the best performances (up 6.6%, 6.3% and 5.3% respectively on a like-for-like basis). They were driven by expansion in Southern Asia, Oceania and the Middle East, and by the recovery of the Iberian Peninsula, Benelux countries and Scandinavia.

¹ France is a standalone geographic region, as is Germany.

² Africa and the Middle East are included in Southern Europe.

Central and Eastern Europe, America and Germany also performed well (up 3.5%, 3.2% and 2.3% respectively on a like-for-like basis). The first region capitalised on the momentum of Poland and the Czech Republic, whilst the second benefited from the good performance of the US and growth in Canada and Mexico.

France recovered towards the end of the period, but closed the half-year in relatively slight decline (down 1.6% on a like-for-like basis), as a result of slow sales at the start of the year notably caused by the sluggish environment.

/ OTHER INFORMATION

The Group recently returned the usufruct of the share capital of Garen Automação, without consideration, and has therefore reverted to its original position of bondholder.

The decision can be explained by the deterioration of the economic situation in Brazil and by the current difficulties faced by Garen Automação's owners. It will result in the company exiting the Group's consolidation scope as of the third quarter and will consequently have an impact on second half-year sales and results.
