MANITOU

# Manitou: 2015 Results

- Growth in sales revenues of 3% to €1,287 million
- EBITDA from recurring operations of €91 million, or 7% versus €78 million in 2014
- Current operating profit of €61 million, or 4.7%, versus €48 million, or 3.9% in 2014
- Net income of €32 million versus €30 million in 2014
- Net debt of €66 million, a gearing ratio of 13%
- Dividend to be proposed at the upcoming Shareholders' Meeting of €0,36 per share

March 02, 2016, Ancenis, France - The Manitou BF Board of Directors, which met today, approved the full-year financial statements for 2015. Michel Denis, President & CEO stated: *In 2015, the Manitou Group strengthened its operating and financial performance. The recovery of business activity in continental Europe offset the slowdown in the market for rental companies in the USA. Industrial flexibility was further strengthened to adapt to market fluctuations. In 2015, the group continued the launch of new equipment models, introduced new service offerings and improved its position in its markets.* 

Strengthened by these factors, the group achieved its results ahead of its planned roadmap.

While confirming its sales growth prospects of around 2% in 2016, the group expects an improved recurring operating income of approximately 50 basis points."

#### Business review by division

The Material Handling and Access Division (MHA) realized sales of €827 million in 2015 compared to €800 million in 2014, an increase of +3% (also +3% at constant scope and exchange rates). The year was highlighted by a sharp improvement in profitability based on the management of its operating chain and costs. The division closed the period with recurring operating income of €43.9 million or 5.3% of sales, an increase of 2.7 points compared to 2014.

The Compact Equipment Products division (CEP) reported sales of €240 million, flat as compared to 2014 (a decrease of 14% at constant scope and exchange rates). The division was hit by the sudden discontinuation of business by the US rental companies since last summer and the pressure of the US dollar on exports from the USA. It reported a strong decrease in profitability. Work was performed in 2015 to adjust the division to the business cycle. Recurring operating income of €4.4 million, or 1.8% of sales, was reported, compared to 7% in 2014.

With sales of €221 million, the Services and Solutions Division (S&S) recorded a 7% increase in its business activity (3% at constant scope and exchange rates). The division has strengthened its focus on its historical business and continued the roll-out of new service offerings. The division closed the 2015 period with recurring operating income of €12.0 million (compared to €10.8 million in 2014), or 5.6% of sales.

Manitou confirms its outlook for an increase in sales of approximately 2% and an improved recurring operating income of approximately 50 basis points.

# 5 EXTRACT FROM THE NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT DECEMBER 31, 2015

#### ACCOUNTING CHANGES APPLIED TO THE GROUP FINANCIAL STATEMENTS AS AT DECEMBER 31, 2015

# FIRST-TIME MANDATORY APPLICATION OF INTERPRETATION IFRIC 21 « LEVIES »

The interpretation IFRIC 21 – Levies becomes mandatory for the Manitou Group, with effect from January 1, 2015.

The interpretation clarifies the obligating event to recognize a liability for a levy other than the income tax when the activity that triggers payment occurs, at a specified date or when reaching a minimum threshold. These levies are no more accounted progressively when the sales representing the basis for the tax are made, but are fully recognized at the date of the obligating event. However, the major impact is mostly in a different allocation of the expense in the interim financial statements.

Levies impacting the financial statements of Manitou Group are the "Contribution sociale de solidarité des sociétés" (C3S, tax based on the sales made by the French companies) and the French property tax ("Taxe foncière"). The impact of these restatements on the consolidated net income as at December 31 2015 is not significant.

The 2014 consolidated financial statements have been restated in order to ensure the comparability of the reporting periods. They are presented in the following note "Comparability of reporting periods".

#### **CHANGE IN THE ACCOUNTING PRESENTATION**

The group decided to present foreign exchange gains and losses realized on operating activities, resulting from the difference between the valuation at the rate of the transaction date and the rate at the payment date in the line "Cost of goods and services sold". This change in the presentation allows the group to give a more relevant information on the group's performance. It has no impact on the recurring operating result and the net income of the group.

The 2014 consolidated financial statements have been restated and the impact is presented in the following note "Comparability of reporting periods »

Foreign

#### **COMPARABILITY OF REPORTING PERIODS**

The impacts of the application of the interpretation IFRIC 21 and of the change in the accounting presentation of foreign exchange gains and losses are as follows:

#### **HIGHLIGHTS**

#### 25,000,000€ NEW BOND ISSUE

In July 2015, the Manitou group announced the execution of a  $\leq$ 25 million new private bond issue. The bonds bears an interest at a 4.0% rate and will be repayable at maturity in July 2022.

This issue allows Manitou to extend its debt maturity and to finalize the execution of its disintermediated financing cycle launched in 2012.

It also allows the €24,7 million repayment by anticipation of a €50 million credit line suscribed initially in 2013, and consequently, did not increase the gross debt of the group.

As at December 31, 2015, the Manitou Group has almost €50 million of disintermediated debt.

#### **LEGAL PROCEEDINGS**

At the beginning of 2016, the Manitou group has been sentenced for trade litigations related to the distribution of products under Manitou brand in the United States. The group disagrees with these decisions and will engage all necessary actions to defend its interests. As at December 31, 2015, the risk has been fully accrued for €3,9 million.

The Manitou group also finalized at the beginning of 2016, a settlement following a litigation on a patent. This transaction generates a gain which amounts to  $\in$ 1,1 million.

These transactions have been recorded in "Other non-recurring gains and losses" regarding their unusual nature.

#### **SCOPE OF CONSOLIDATION**

#### **EVOLUTION OF THE SCOPE OF CONSOLIDATION**

During the 2015 fiscal year, the Manitou Group continued to simplify its structure through the liquidations of Pledgemead and EPL Centro, both dormant companies.

Furthermore, the group created a new subsidiary dedicated to its warehousing business, LMH Solutions. The group also continued its international development with the creation of two distribution subsidiaries in Malaysia and in Chile.

### 6 INFORMATION ON OPERATING SEGMENTS

The Group is organized around three divisions, two product divisions and a service division:

- The MHA Material Handling and Access product division manages the French and Italian production sites manufacturing telehandlers, roughterrain and industrial forklifts, truck-mounted forklifts and aerial working platforms. Its mission is to optimize the development and production of these equipments branded Manitou.
- The CEP Compact Equipment Products division optimizes the development and production of skidsteer loaders, track loaders, articulated loaders and telehandlers branded Gehl and Mustang.
- The S&S Services & Solutions division includes service activities to support sales (financing approaches, warranty

contracts, maintenance contracts, full service, fleet management, etc.), after-sales (parts, technical training, warranty management, fleet management, etc.) and services to end users (geo-location, user training, advice, etc.). The mission of the division is to develop service offers to meet the needs of each of our customers in our value chain and to increase resilient sales revenue for the group.

The three divisions design and assemble products and services which are distributed by the Sales and Marketing organization to dealers and key accounts in 120 countries.

The spare parts and accessories distribution business, which is integrated within the Services & Solutions division , benefits from services provided by the MHA and the CEP divisions (R&D, qualification of parts, qualification of suppliers), the already existing basis of sold units, as well as the brand name recognition built by those divisions.

In order to compensate for all of these benefits, the group's divisional reporting includes fees from the Services & Solutions division to the MHA and CEP divisions. This fee is calculated based on comparable indicators of external independent spare parts distributors for which the median operating income over a five year period amounted to 4.25% and 4.87% in Europe and the US, respectively, the main regions in which the S&S division operates.

That fee is included in the line item «Cost of goods and services sold» of each division, which therefore includes the charges related to goods and services sold plus or minus the interdivision fees.

Assets, cash flows or even liabilities are not allocated to the individual divisions, as the operating segment information used by the group's management does not incorporate those various items.
