## Paper

In 2015, European consumption of uncoated printing and writing papers appears to have picked up slightly, while efforts to streamline production units continued. Demand was therefore relatively strong throughout the year.

At our four factories, sales increased in printing, filing and fine arts papers. Reeled paper production by our five machines increased by $3.3 \%$ to 228,000 tonnes.

Regarding paper made from new fibres, the sharp increase in pulp prices due to the fall in the euro against the dollar was only marginally passed on to consumers.

## Processing

The French stationery and office supplies market more or less levelled out after the downward trend seen in recent years (source: I+C). However, sales to general customers once again appear more buoyant than office supplies.

As the market reorganises, the Group is in the process of joining the leaders in the filing segment whilst maintaining its dominant position in school supplies, luxury correspondence articles, diaries and calendars. Furthermore, new markets in games and creative arts, and more recently in photo development, have given our business an additional boost.

## $\stackrel{\text { }}{\wedge}$ Group financial results

In order to provide for its growth, the Group has negotiated several lines of credit with its banks. At the balance sheet date, commercial paper issued by the Group amounted to $€ 10$ million out of a global programme of $€ 125$ million.
Group cash and cash equivalents amounted to $€ 98,490,000$ and the Group was able to fund capital expenditure from cash flow. Group net borrowings stood at $€ 2,832,000$ at 31 December 2015.

The 2015 financial statements have been audited and the certification reports are currently being prepared.

$>$ The Board is calling an Ordinary General Meeting to be held on 25 May 2016, at which it will recommend a dividend of $€ 2$ per share. It is also convening an Extraordinary General Meeting in order to decide on a capital increase reserved for members of a company savings plan.
$>\quad$ The next release will be made after the Board meeting called to approve the first half 2016 financial statements, scheduled for 8 September 2016.

Business has been bolstered by the fall in raw material and energy prices as well as by the Group's professional restructuring programme. Two acquisitions were recently completed in the online photo development and filing sectors.
