

The DLSI Group continues its international development with the acquisition, via its Swiss subsidiary PEMSA SA, of the BOVA SERVICE SA company based in Bienne (canton of Berne).

BOVA SERVICE SA has specialized in construction for over 40 years, offering the Group a great opportunity to diversify its client base and business.

BOVA SERVICE SA is one of the oldest names in the Seeland region. BOVA SERVICE SA has always considered that its human capital is the heart of its work and celebrates its authentic interpersonal relationships. The founders thought it was essential to pass this torch on to a buyer that is just as passionate and able to protect and keep these values.

Bienne, a technologically focused city that is the main bridge between German-speaking Switzerland and French-speaking Switzerland, provides the DLSI Group with the opportunity, via its subsidiary PEMSA SA, to strengthen its commitment to expanding its presence in German-speaking Switzerland.

This third German-speaking agency will be in addition to the Basel and Lucerne agencies. Also under review is a Zurich agency that should be joining this network in 2017, which will allow PEMSA SA to firmly establish its national reach.

The number of players on the Swiss employment market increases each year, leaving small service providers little chance for survival if they haven't established their added value. Looking ahead to 2020, PEMSA SA aims to achieve revenue of over CHF 80 million and looks to join the elite circle of the top 10 largest agencies in Switzerland.

We continue to explore other acquisition opportunities in France, as well as in the rest of Europe.

Next event:

- Publication of the 4<sup>th</sup> quarter revenue, February 28, 2017 (after market closes)

#### About DLSI:

Created in 1992, the DLSI Group represents a network of over 70 agencies located throughout eastern France, from Dunkirk to Lyon, and Paris, the north-west and the Provence-Alpes Côte d'Azur region. The DLSI Group also has locations in Luxembourg, Germany, Switzerland and Poland.

With a foothold in all industries, we offer all employment solutions, from indefinite-term contracts to fixed-term contracts and temporary employment.

Listed on the Alternext market of Euronext Paris since 2006, the Group generated 189.9 million euros in revenue in 2015.
