## 1. REVIEW OF OPERATIONS

Consolidated first-half sales reached €209.3 million, up 29% at current exchange rates and 27.5% at constant exchange rates from the same period in 2016. This excellent performance was driven by organic growth from the established lines plus several initiatives since fall 2016, and notably the launch of the *Coach*, *Mademoiselle Rochas*, *Jimmy Choo L'Eau*, *Jimmy Choo Man Ice* or *Lanvin Modern Princess* lines.

### 1.1. Highlights by brand

€m	H1 2016	H1 2017	2017/2016
Montblanc	55.1	57.1	3.6%
Jimmy Choo	38.9	54.6	40.4%
Lanvin	22.1	30.5	38.0%
Rochas	13.7	18.6	35.8%
Coach	-	15.7	-
Van Cleef & Arpels	9.3	9.5	2.2%
Boucheron	8.3	8.9	7.2%
Other	13.8	13.0	-5.8%
<b>Perfume sales</b>	<b>161.2</b>	<b>207.9</b>	<b>29.0%</b>
Rochas fashion license revenues	1.1	1.4	27.3%
<b>Total revenue</b>	<b>162.3</b>	<b>209.3</b>	<b>29.0%</b>

Montblanc fragrances had €57.1 million in sales, consolidating their positions in line with expectations, after more than 30% growth in the 2016 first half that included the launch of the *Montblanc Legend Spirit* line.

With sales of nearly €54.6 million, up 40% from the 2016 first half, Jimmy Choo fragrances achieved an excellent performance thanks to extensions of the lines *Jimmy Choo L'Eau* and *Jimmy Choo Man Ice* lines but also the solidity of the established women's and men's fragrance lines.

After a period of difficult market conditions in Russia and China in 2016, Lanvin fragrances returned to growth, driven by the international launch of the *Modern Princess* line and the continuing solidity of the *Éclat d'Arpège* line.

Rochas fragrances had €18.6 million in sales based on the strength of the brand's established lines and the *Mademoiselle Rochas* line's launch in around ten markets, the brand's first initiative since acquired in 2015.

Coach fragrances had €15.7 million in sales, highlighting the positive market response to the women's line *Coach* launched in the 2016 second half.

### 1.2. Highlights by region

Growth rates were high in virtually all markets, and in particular North America (+33%) and Asia (+29%). In Western Europe, gains were more moderate, reflecting the high comparison base in the 2016 first half from the *Montblanc Legend Spirit* line's launch.

## 2. CONSOLIDATED FINANCIAL HIGHLIGHTS

€m	H1 2016	H1 2017	2017/2016
Sales	162.3	209.3	29.0%
Gross margin	106.0	136.6	28.9%
% of sales	65.3%	65.3%	
Operating profit	21.6	33.1	53.2%
% of sales	13.3%	15.8%	
Net income	12.9	21.7	68.2%
% of sales	7.9%	10.4%	

With an increase of more than 40% in marketing and advertising expenses in the 2017 first half, the company deployed substantial resources to consolidate and develop its market share and support launches in the period, notably the *Mademoiselle Rochas*, *Jimmy Choo L'Eau* or *Jimmy Choo Man Ice* lines. By applying tight controls over fixed costs, these efforts did not adversely impact operating profit which was up by more than 50% from the 2016 first half. On that basis, the operating margin reached 15.8%.

This trend was amplified at the level of net income that rose 68% and taking into account a provision for tax audit contingencies impacting the income of the last year's first half. The net margin for the first half accordingly reached 10.4%.

€m	12/31/16	06/30/17	2017/2016
Group shareholders' equity	403.6	404.9	0.3%
Cash + other current financial assets	230.6	192.2	-16.7%
Medium-term loans	70.7	60.6	-14.3%

Strong sales growth in the first half and the inventory buildup in preparation for second half launches (including the *Montblanc Legend Night* and *Coach for Men* lines), temporarily impacted working capital in the 2017 first half.

After the €19 million dividend payment for 2016 and the €10 million repayment of the Rochas loan, at June 30, 2017, a significant net cash position remained of more than €131 million.

### 4. RISK FACTORS AND INFORMATION ON RELATED PARTIES

#### 4.1. Risk factors

Information on market risks and their management are presented in note 2.14 of the consolidated interim financial statements included in this report.

Other Risk factors are of the same nature as those presented in note 3 "Risk factors" of the "Consolidated Management Report" (section 1) included in the 2016 registration document filed on March 31, 2017 with the French financial market authorities (*Autorité des Marchés Financiers* or AMF). There were no material changes in these Risk factors in the 2017 first half.

#### 4.2. Related party transactions

In the 2017 first half, relations between Interparfums and affiliated companies remained comparable with those of fiscal year 2016 presented in note 6.5 "Information on related parties" of the 2016 consolidated financial statements (section 2) included in the registration document filed on March 31, 2017 with the AMF.

This was also the case for relations between members of the Management Committee and the Board of Directors.

## 5. OUTLOOK

With growth in sales of nearly 30% in the 2017 first half, the positive momentum of the last few years has been confirmed. This trend has been reinforced by Coach and Rochas fragrances' recent upturn and significant initiatives for the Montblanc, Jimmy Choo and Lanvin fragrances in particular. In this context, and in light of the launches of the men's lines, Coach and *Montblanc Legend Night* in the fall, the company has raised its guidance for annual growth, that is expected to reach €400 million for the 2017 full year.

The Company devoted significant resources to marketing and advertising in the 2017 first half to consolidate or develop its market shares. By continuing this strategy in the second half, it will be possible to maintain the 2017 operating margin target of between 13% and 13.5% for the full year.

## 1. ACCOUNTING PRINCIPLES

### 1.1. Compliance statement

The interim condensed consolidated financial statements for the six-month period ending June 30, 2017 were adopted by the Board of Directors on September 6, 2017. They have been prepared in compliance with EC regulations 1606/2002 of July 19, 2002 on international accounting standards and notably IAS 34 on interim financial reporting as endorsed by the European Union. These standards have been consistently applied over the periods presented. The interim financial statements were prepared on the basis of these same rules and methods used to produce the annual financial statements.

This interim condensed financial report must be read in conjunction with the consolidated annual financial statements for the fiscal year ended December 31, 2016. In addition, the comparability of interim and annual financial statements may be affected by seasonal trends of Group business and notably the impact of launch phases of new fragrance lines.

Financial information presented herein is based on:

- IFRS standards and interpretations whose application was mandatory starting in 2005;
- options retained and exemptions used by the Group for the preparation of IFRS consolidated financial statements.

### 1.2. Changes in accounting standards

Furthermore no standards, amendments or interpretations currently under review by IASB and IFRIC were applied in advance in the interim financial statements for the period ending June 30, 2017.

The following standards, amendments and interpretations, not yet entered into effect, have been studied in advance to evaluate their impacts on future consolidated financial statements:

– IFRS 9 "financial instruments" – entering into effect in January 2018: to date, the company does not anticipate any material impact in the consolidated financial statements in the future;

– IFRS 15 "Revenue recognition" – entering into effect in January 2018: to date, the company does not anticipate any material impact in the consolidated financial statements in the future;

– IFRS 16 "Leases" – entering into effect in 2019: the company has initiated a study. The impacts on the consolidated financial statements are currently being quantified. At this stage, the company has identified lease agreements to be recognized in the balance sheet under assets, and namely for the premises of the Paris headquarters, the New York and Singapore offices and the Rouen warehousing facility. No other contract has been identified as falling within the scope of this standard.

According to initial calculations based on existing leases and their maturities at the end of the reporting period, a restatement of fixed assets and borrowings for a maximum amount of approximately €20 million may be expected. This first estimate may be subject to revisions according to new information for fiscal 2017 and 2018 unavailable to the company to date, without however calling significantly calling into question the current forecasts.

#### 2.1.2. Acquisition of the Rochas brand

At the end of May 2015, Interparfums acquired the Rochas brand (perfumes and fashion) from Procter & Gamble.

This transaction covered all Rochas brand names and registered trademarks (*Femme, Madame, Eau de Rochas,...*) for France and international markets, mainly for class 3 (fragrances) and class 25 (fashion).

This brand was acquired for a price of US\$108 million, excluding inventory (€101.3 million). The additional costs of €5 million generated by the acquisition were added into the value of the asset.

The purchase price allocation to the Rochas Fragrances brand and the Rochas Fashion brand were measured by an outside appraiser and analyzed as follows:

€ thousands	Perfumes	Fashion	Total

(1) Including a gross amount of €617,000 for vehicles held under finance leases and depreciation expenses of €344,000.

## 2.3. Other non-current financial assets

The signature of the Karl Lagerfeld license agreement resulted in an advance on royalty payments to be charged against future royalties of €9,589,000. This advance was discounted over the license agreement term and reduced accordingly to €4,616,000 at June 30, 2017.

The corresponding offset was recognized by increasing the amortization of upfront license fees.

<b>Current financial assets, cash and cash equivalents</b>	<b>230,605</b>	<b>192,153</b>

The decrease in cash in the period reflects primarily the increase in inventory linked to sales growth and 2017 second-half launches, payment of a €10 million installment on the Rochas loan and a €19 million dividend payment to shareholders for fiscal 2016.

The breakdown between current financial assets and cash and cash equivalents has been shifted in favor of longer-term investments providing higher return. These investments however remain highly liquid.

For the period under review, capital increases result from the bonus share issue of June 13, 2017 for 3,550,878 shares on the basis of one new share for every ten shares held.

#### 2.8.2.

##### Stock option plans

No stock option plan was in effect at June 30, 2017.

#### 2.8.3.

##### Performance share awards

Interparfums<sup>SA</sup> awarded performance shares to all employees and managers with at least six months of seniority as of the date of the plan. The maximum number of shares to be awarded, adjusted for the bonus share issue of June 13, 2017 of one new share for every 10 shares held is 146,300 shares for senior executives and managers and 16,610 shares for all other employees.

Effective delivery of the securities is contingent on the following terms and conditions:

Beneficiaries	Vesting conditions
Senior executives and managers	<ul style="list-style-type: none"> <li>- Condition of presence on September 6, 2019; and</li> <li>- Conditions of performance based on: <ul style="list-style-type: none"> <li>- consolidated revenue for fiscal 2018 for 50% of the restricted stock units awarded,</li> <li>- consolidated operating profit for 50% of the restricted stock units awarded.</li> </ul> </li> </ul>
Other beneficiaries	- Condition of presence on September 6, 2019.

In accordance with IFRS 2, the Interparfums<sup>SA</sup> share price used to estimate the value in the consolidated financial statements is the average price for the last three trading sessions preceding the implementation of the plan or €23.98. The fair value applied on the award date is €22.46 after taking into account future dividends.

An employee turnover rate and a rate of probability for achieving the performance criteria were also used for the calculation, bringing the total expense to be spread over the life of the plan (three years) to €3 million or €511,000 for the 2017 first half. At June 30, 2017, the cumulative expense since the beginning of the plan was €835,000.

To ensure the availability of shares for remittance to employees on maturity, the company purchased an initial tranche of 119,200 shares on the market on June 30, 2017 (after taking into account the bonus share issue of June 2017) for a total amount of €2.7 million. These shares are presented as a deduction from shareholders' equity.

At June 30, 2017, the estimated number of shares to be remitted was 150,190.

#### 2.8.4. Treasury shares

Within the framework of the share repurchase program authorized by the General Meeting of April 28, 2017, 66,674 Interparfums shares were held by the company as of June 30, 2017 or 0.17% of the share capital.

Changes in the period break down as follows:

€ thousands	Average price	Number of shares	Book Value
<b>At December 31, 2016</b>	-	<b>52,434</b>	<b>1,274</b>

<b>At June 30, 2017</b>	-	<b>66,674</b>	<b>2,069</b>

Management of the share buyback program is assured by an investment services provider within the framework of a liquidity agreement in compliance with the conduct of business rules of the French association of financial market professionals (AMAFI).

- the maximum purchase price is €40 per share, excluding execution costs;
- the total number of shares acquired may not exceed 5% of the capital stock outstanding.

#### 2.8.5. Non-controlling interests

Non-controlling interests concern percentages not held in the European subsidiaries (Interparfums Deutschland GmbH: 49%; Parfums Rochas Spain S.L: 49%) at June 30, 2017 that break down as follows:

Non-controlling shareholders have an irrevocable obligation and the ability to offset losses by an additional investment.

#### 2.8.6. Information on equity

In compliance with the provisions of article L.225-123 of the French Commercial Code, the shareholders' Meeting of September 29, 1995 decided to create shares carrying a double voting right. These shares must be fully paid up and recorded in the company's share register in registered form for at least three years.

Since 1998, the company has adopted a policy of distributing dividends that today represents more than 55% of consolidated net income to reward shareholders while at the same time associating them with the Group's expansion. In early May 2017, a dividend of €0.25 per share was paid or a total of €19.4 million.

Given its financial structure, the Group is able to secure financing for important projects from banks in the form of medium-term loans. At the end of May 2015, a 5 year €100 million loan was obtained to finance the acquisition of the Rochas brand.

The level of consolidated shareholders' equity is regularly monitored to ensure the company continues to have sufficient financial flexibility to take advantage of all potential opportunities for external growth.

A loan with was obtained on May 29, 2015 with a face value of €100 million repayable over five years to finance the acquisition of the Rochas brand executed on that same date.

Its repayment is made in quarterly installments of €5 million each for the principal. This loan will be subject to interest equal to the 3-month Euribor plus the applicable margin.

This debt is recognized at fair value to which is allocated the €775,000 in transaction costs directly attributable to the acquisition, in compliance with IAS 39.

At June 30, 2017, €40 million had been reimbursed, with the remaining balance amounting to €60 million.

The line item "Borrowings" also corresponds to debt relating to fixed assets held under finance leases (vehicles).

At June 30, 2017, on the basis of a notional amount of €60 million, a gain of €276,000 in connection with this swap was recognized in the income statement whereby the Group did not apply hedge accounting in accordance with IAS 39. The market value of the swap at June 30, 2017 represented a negative amount for the company of €585,000.

### 2.10.3. Covenants

The Rochas loan obtained by the parent company is subject to the following covenant ratios:

- interest coverage ratio:  
Consolidated EBITDA/consolidated interest expense;
- leverage ratio:  
Consolidated net debt/consolidated EBITDA.

In 2017, all these covenants were met. The current level of these ratios is considerably below the contractual limits. As a result, the Group has considerable financial flexibility in respect to these commitments.

## 2.11. Deferred tax

The income tax rate used to calculate the tax expense is the projected annualized rate at the Group level for all periods presented.

Deferred taxes arise mainly from timing differences between financial accounting and tax accounting. Deferred taxes from consolidation adjustments and loss carryforwards are recovered as follows:

The potential impacts of other risks on the company's financials are not material.

### 2.14.1. Interest rate risks

The Group's policy for reducing its interest rate exposure risk seeks to ensure a stable level of financial expense by making use of all financial instruments such as hedges in the form of fixed rate swaps.

<b>Net position after hedging</b>	<b>16,579</b>	<b>1,818</b>	<b>665</b>

In addition, because a significant portion of Group sales is in foreign currencies, it incurs a risk from exchange rate fluctuations, primarily from the US dollar (44.8% of sales) and to a lesser extent the Pound sterling (4.3% of sales) and the Japanese yen (1.9% of sales).

The Group's exchange-rate risk management policy seeks to cover exposures related to monetary flows resulting from sales in US dollars, pounds sterling and Japanese yens.

## 4. SEGMENT REPORTING

### 4.1. Business line segments

Up until December 31, 2014, the company operated solely in the segment of "Perfumes" where the indicators for financial performances for each brand of this segment were comparable. In consequence, the Group's income statement and balance sheet henceforth reflected the operations of the "Perfumes" activity in its entirety.

Since the acquisition of the Rochas brand on May 29, 2015, the company now operates in two distinct segments: "Perfumes" henceforth including Rochas' fragrance business and "Fashion" corresponding to activity generated by Rochas' fashion business.

However, a separate presentation is not provided for income statement aggregates because the "Fashion" business represents less than 0.7% of Group sales.

Assets and liabilities relating to the Rochas brand at June 30, 2017 were as follows:

<i>€ thousands</i>	<b>Perfumes</b>	<b>Fashion</b>	<b>Total</b>
Intangible assets – Rochas brand	86,739	19,086	105,825
Medium-term loan	49,428	10,876	60,304

The amount of the loan has been allocated by business line in proportion to the breakdown of intangible assets.

Segment assets and liabilities consist of operating assets (liabilities) used primarily in France.
