Icade posted increased gross rental income, growing by a solid +3% on a like-for-like basis. The teams at Icade remain focused and disciplined with respect to implementing our strategic plan unveiled in 2018. In the current environment, the low borrowing costs arising from our expansion plan are also very attractive."

# 1. Business indicators: a strong H1 2019 for the Property Investment Divisions

## 1.1. Office Property Investment: like-for-like growth in rental income, opportunistic disposal

#### **Robust leasing activity**

- On a like-for-like basis, gross rental income went up by 3.1% buoyed by robust leasing activity over the period in the office and business park segments, which showed increases of 2.9% and 3.9%, respectively;
- On a reported basis, gross rental income declined by -6.7% due to major asset disposals in 2018 (Colombes and Paris Nord business parks).

The margin rate of the Office Property Investment Division stood at 94.9%, a significant increase of 6.4 pps compared to June 30, 2018 as a result of disposals in 2018 and solid leasing activity.

Over the period, net rental income remained stable year-on-year and stood at €177.2 million as of June 30, 2019.

86 leases were signed or renewed for nearly 117,000 sq.m as leasing activity remained strong:

- During the period, **30 leases were renewed**, equivalent to a total area of 67,000 sq.m and €14.5 million in annualised headline rental income and a weighted average unexpired lease term to first break of 7 years.
- The 56 new leases signed in H1 represented an aggregate floor area of close to 50,000 sq.m and €10.6 million in annualised headline rental income:
  - The 6,000-sq.m Castel building in Marseille was completed in Q2 2019 and fully leased in H1 through the signing of a 9-year lease with Deloitte and a 12-year lease with no break clause with Solimut Mutuelle de France.
  - The Factor E building in Bordeaux (nearly 11,000 sq.m, completed in Q2): new lease signed with Regus for close to 6,000 sq.m.

As of June 30, 2019, the **financial occupancy rate** stood at **91.8%**, a -0.5-pp decrease on a like-for-like basis (-1.6 pp on a reported basis) compared to December 31, 2018. This drop is primarily due to the completion of buildings currently being offered for lease.

The weighted average unexpired lease term to first break stood at 5.0 years, an improvement of 0.3 year compared to December 31, 2018, with a more pronounced increase in the business parks, due in particular to significant lease renewals in the Rungis business park during H1.

#### Strong investments in line with the development pipeline and the plan's implementation

Investments carried out by the Office Property Investment Division amounted to €207.4 million in H1 2019, including:

- Off-plan acquisitions for a total of €53.9 million, including €15.8 million and €14.6 million invested in the Spring A (Nanterre) and Gambetta (Paris, 20<sup>th</sup> district) projects, respectively. Both assets were completed in Q1 and have a nearly 100% occupancy rate. Off-plan acquisitions also include the Eko Active project (Marseille) for €9.3 million, scheduled for completion by the end of 2019.
- Developments (new builds, extensions, refurbishments) amounted to €118.2 million, mainly allocated to the Origine project (Nanterre) for €51.2 million and the Fresk project (Issy-les-Moulineaux) for €11.6 million.
- Other investments, encompassing "Other capex" and "Other" for €35.3 million, related to maintenance work and tenant improvements.

H1 2019 was also characterised by ongoing asset rotation achieved mainly through:

The signing of a bilateral sale agreement on June 5, 2019 for the Crystal Park building, a 44,000-sq.m complex located in Neuilly-sur-Seine (Hauts-de-Seine), with a leading South Korean investor, for a total of €691 million excluding duties. The final deed of sale is expected to be signed by the end of July, once customary conditions precedent have been satisfied.

As of June 30, 2019, the Office Property Investment **portfolio was worth** €9.1 billion on a proportionate consolidation basis (€9.3 billion on a full consolidation basis), up +4.5% on a reported basis and +2.4% like-for-like (i.e. +€212.3 million).

- The value of the office portfolio, which represents 76% of the Office Property Investment portfolio as a whole, stood at €7.0 billion, a +5.8% rise on a reported basis (+3.3% on a like-for-like basis). This rise resulted mainly from the increased value of projects under development, especially the Origine, Castel and Gambetta projects, as well as the preliminary agreement signed to sell the Crystal Park building.
- The value of the business park portfolio stood at €1.8 billion, a +1.3% rise on a reported basis (stable on a like-for-like basis).

<sup>&</sup>lt;sup>3</sup> Property Development ROE = Net profit/(loss) attributable to the Group (rolling 12 months to June 30) / Average allocated capital (on a proportionate consolidation basis and excluding profit/(loss))

The Office Property Investment development pipeline represented nearly 350,000 sq.m and projected investments of close to €2.0 billion<sup>4</sup>. H1 highlights included:

- 5 assets completed according to schedule: Gambetta (Paris), Pulse (Portes de Paris business park), Spring A (Nanterre), Factor E (Bordeaux) and Le Castel (Marseille) totalling potential annualised rental income of €27 million, including €17 million from pre-lets already secured as of June 30, 2019, and total value creation of €134 million;
- Launch of the Fresk project representing 20,500 sq.m and a total investment of €238 million.

The remaining potential for value creation amounts to €0.5 billion, including €0.4 billion to be captured in the NAV.

## 1.2. Healthcare Property Investment: increased rental income and continued diversification in France

Gross rental income from Healthcare Property Investment totalled €129.3 million, a significant increase of 12.3%.

- On a like-for-like basis, income rose by 2.8%,
- On a reported basis, strong income growth is mainly attributable to asset completions in 2018 and 2019 (+€6.5 million) and asset acquisitions carried out in 2018 (+€5.0 million).

The **financial occupancy rate** of the portfolio reached 100%.

The Healthcare Property Investment Division further increased its average remaining lease term to 7.6 years (+0.2 year) as of June 30, 2019 after renewing or extending 8 leases during H1 for a WAULT of 11 years (on average).

As of June 30, 2019, the Healthcare Property Investment Division's investments amounted to €45.5 million, including:

- The acquisition of a new facility (Jesolo) for €12.1 million which will start generating cash flows immediately, in line with the memorandum of understanding signed at the end of 2018 with respect to the development of 7 nursing homes in northern Italy;
- Development projects for €16.8 million, including the Greater Narbonne private hospital (€5.6 million) and the Santé Atlantique health complex in Saint-Herblain (€3.4 million).

Additionally, Icade Santé announced in Q2 the continued diversification of its portfolio of assets located in France into the nursing home sector with the signing of a bilateral sale agreement for the acquisition of 12 medium- and long-term care assets for a total of €191 million from an OPPCI managed by Swiss Life Asset Managers France. This transaction should be completed before the end of the summer.

As of June 30, 2019, the Healthcare Property Investment **portfolio was worth** €2.6 billion on a proportionate consolidation basis (€4.5 billion on a full consolidation basis), a slight increase of +0.3% on a like-for-like basis.

As of June 30, 2019, the **development pipeline** of the Healthcare Property Investment Division was equivalent to nearly €255 million and €14 million in additional rental income. It is fully pre-let.

## 1.3. Property Development: business and earnings indicators in line with market slowdown, increase in the residential backlog

After reaching a record level in 2018, **economic revenue** stood at €388.5 million in H1 2019, a -25.7% decrease primarily due to a downturn in the Office Property Development segment (-49.8%).

- This drop in Office Property Development revenue is attributable to the numerous completions carried out (9 buildings in 2018).
- Echoing the market slowdown, Residential revenue was down 14.9%, impacted by the upcoming elections and the grant of fewer building permits, among others.

Current economic operating profit stood at €23.8 million as of June 30, 2019, down 28.3%.

Net current cash flow dropped 14.7% to €13.8 million as of June 30, 2019.

As of June 30, 2019, ROE remained strong at 16%.

The total backlog of the Property Development Division as of June 30, 2019 was worth €1.2 billion, a slight increase of +3.8% compared to December 31, 2018. This change resulted from:

- An increase in the Residential Property Development backlog of 9.8% due to new housing orders exceeding the revenue recorded in H1:
- A 21.6% drop in the Office Property Development and Public and Healthcare Amenities Development backlog as a result of the progress of construction on ongoing projects, mainly the office project located in Villejuif and numerous completions carried out at the beginning of 2019 including the Twist office building (10,400 sq.m) located in the Clichy-Batignolles development zone and the EKLA Business building (14,800 sq.m) in Lille.

<sup>&</sup>lt;sup>4</sup> Total investment includes the fair value of land (or building), cost of works, tenant improvements, finance costs and other fees.

Lastly, **potential revenue**<sup>5</sup> **to be generated in the medium term** represented €**6.2** billion on a proportionate consolidation basis for Icade Promotion and excluding taxes, i.e. close to 18,000 units for the residential segment and more than 400,000 sq.m for the office segment.

#### Significant projects won in H1 with a revenue potential of €650 million (including taxes)

#### Inventing Bruneseau – Nouvel R Project

Icade was selected in March 2019 to carry out the "Nouvel R" project covering close to 100,000 sq.m (25,000 sq.m offices, 50,000 sq.m housing and 20,000 sq.m shops and business premises) designed to create a real connection between Paris and Ivry-sur-Seine.

The carbon footprint of this ambitious project is expected to be 5 times lower than the average in Paris, making Bruneseau France's first low-carbon neighbourhood.

#### Îlot 8.12 in Bordeaux

The project includes a 450-space multi-storey car park (around 10,000 sq.m), 64 residential units (5,000 sq.m) and 350 sq.m of shops. The project's distinctive features include a mainly wood-based structure and a car park that can be partly converted into offices. An application for a building permit will be lodged in the spring with the aim of starting construction work in early 2020.

#### Air France site in Valbonne

Following a competitive process held by Air France, Icade Promotion was chosen in May 2019 to develop a plot of land located in the town of Valbonne, in the heart of the Sophia Antipolis technology park (Alpes-Maritimes). This project covers a total floor area of 14,000 sq.m, including 6,000 sq.m of residential units and 8,000 sq.m of office space (completion scheduled for 2022).

#### Caen University Hospital (CHU) – Les Grands Jardins de Calix

"Les Grands Jardins de Calix" project involves the development of residential and office buildings representing more than 44,000 sq.m (construction scheduled to start by 2020).

#### Nanterre Partagée

As part of its modernisation and refurbishment, the Hospital Accommodation and Care Centre (CASH) of Nanterre will free up over 20,000 sq.m of land which will be reconfigured to open up the hospital to its neighbourhood and provide residents with a new experience.

Around the historical building, which will be preserved and refurbished, this 29,000-sq.m project will consist of housing units, shared housing units, a student residence, a residence for employees on the go, a collaborative café and a Montessori school.

#### Reinventing Paris 2 project – Gobelins train station

On July 11, joint bidders Icade and Segro were chosen for their project on the site of the Gobelins train station following the "Reinventing Paris 2" competition held by SNCF (French national railway company) and the City of Paris. The project entails the construction by 2024 of a complex consisting of a 13,000-sq.m garden, 4,500 sq.m of greenhouses, 4,600 sq.m dedicated to sport, as well as the modernisation of the existing 70,000 sq.m of underground warehouse space.

#### 2. Positive H1 results

**EPRA earnings from Property Investment climbed +5.8%** to €164.9 million, including €105 million for Office Property Investment (+0.2%) and €59.9 million for Healthcare Property Investment (+17.2%).

As of June 30, 2019, the **EPRA ratio cost** (including vacancy costs) stood at **14.6%**, an improvement of **630 bps** primarily due to reduced vacancy rates resulting from disposals carried out in 2018 in the business park segment and disciplined management of operating costs.

Group net current cash flow rose by +4.5% to €174.9 million (€2.36 per share) as of June 30, 2019 vs. €167.4 million as of June 30, 2018 (€2.26 per share).

Excluding the impact of disposals carried out in 2018 by the Office Property Investment Division, the net current cash flow would have gone up by +11%

As of June 30, 2019, the value of the whole property portfolio on a proportionate consolidation basis was €11.7 billion, up +3.7% from the end of 2018 (+2.0% like-for-like).

EPRA **net asset value** came in at €6,825.4 million, i.e. €92.3 per share, **up 2.7%** as the fair value of the Property Investment Divisions assets increased during the half year.

<sup>5</sup> Revenue excluding taxes on a proportionate consolidation basis including backlog, contracts won, stock of units currently for sale and land portfolio

**EPRA triple net asset value** stood at €6,609.4 million, i.e. €89.3 per share, slightly down by -0.5%. This change can be primarily explained by the impact of the change in fair value of derivatives and fixed-rate debt, against a backdrop of significantly lower interest rates and spreads (-€2.9 per share).

Net profit attributable to the Group increased by 73.3% to €47.0 million.

#### Average debt maturity and cost of debt remain healthy

- Average debt maturity remained above 6 years: it stood at 6.3 years as of June 30, 2019 vs. 6.4 years as of December 31, 2018.
- Continued decrease in the average cost of debt to 1.53% (vs. 1.55% as of December 31, 2018)
- Slight increase in the LTV ratio including duties to 38.8% (vs. 37.9% as of December 31, 2018). The LTV ratio excluding duties was 41%. The sale of the Crystal Park building, currently subject to a preliminary agreement, is not included in this ratio as of June 30, 2019.

## 3. 2018 dividend: final dividend paid on July 4

In accordance with the decision made by the Board of Directors on March 13, 2019, the Group paid an interim dividend of €2.30 per share on March 21, 2019 and the remaining balance was paid on July 4, 2019.
