

Orlando, Infotel's software solution, adopted by Air Canada

Infotel, (ISIN code: FR0000071797 - memo: INF), a reference partner in the digital transformation of major accounts in Europe, today announced the signing of a contract with Air Canada for the implementation of its Orlando software suite to manage all of its operational documentation for its entire fleet.

Air Canada is one of the top 20 airlines in the world. The company has a mixed medium-haul and long-haul fleet (Airbus, Boeing) of 240 aircraft. The partnership was signed for a period of 5 years. The Orlando software suite will be integrated sequentially until early 2022.

This signing comes at a time when several other companies have recently selected Orlando. Flyadeal, a subsidiary of Saudi Arabian Airlines, also signed an agreement to use the Orlando software suite over a five-year period. Flyadeal aims to reach a fleet of 30 aircraft within a few years. This contract is the first signing with an airline from the Middle East.

Emerald Airlines, an Irish airline, and Spirit Airlines, a U.S. airline, have also incorporated Orlando into their operating software; they represent about 15 ATRs for 2-year regional passenger transport for Emerald Airlines and currently 150 aircraft for Spirit Airlines.

Building on these recent successes, Orlando aims to expand its offering on a larger scale and currently has a very large potential for prospects worldwide.

Upcoming events

General Meeting: 19 May 2021– 2.30 p.m.
Publication of Q1 2021 revenue: 19 May 2021
