## Des fondamentaux de marchés encourageants<sup>1</sup>

### Bureaux : redémarrage de l'activité et polarisation du marché

La reprise amorcée à la fin du premier semestre s'est confirmée au second semestre, avec une hausse sensible de l'activité locative. En Ile-de-France, la demande placée s'établit à 1,9 million de m<sup>2</sup> (+32% vs 2020), dont plus d'un tiers a été conclu au dernier trimestre. A Milan, la demande placée est en hausse de 32% par rapport à 2020, à 390 000 m<sup>2</sup>, supérieure de 11% à sa moyenne décennale. En Allemagne, les six premières villes voient leur demande placée atteindre 3,2 millions de m<sup>2</sup>, en hausse de 27% par rapport à 2020, avec près de 60% des accords locatifs conclus au second semestre.

En parallèle, la demande s'est polarisée vers les localisations centrales (centre-ville, proximité immédiate aux transports) et les actifs prime. Ainsi, Paris intra-muros voit sa demande placée augmenter de +46% par rapport à 2020. A Milan, le QCA et le centre ont connu une hausse de +69% sur un an. Cette dynamique se retrouve dans l'évolution des loyers, avec des croissances concentrées sur les actifs neufs les mieux situés (+3% à Paris, +8% à Berlin et à Milan).

### Résidentiel allemand : des tendances structurelles favorables

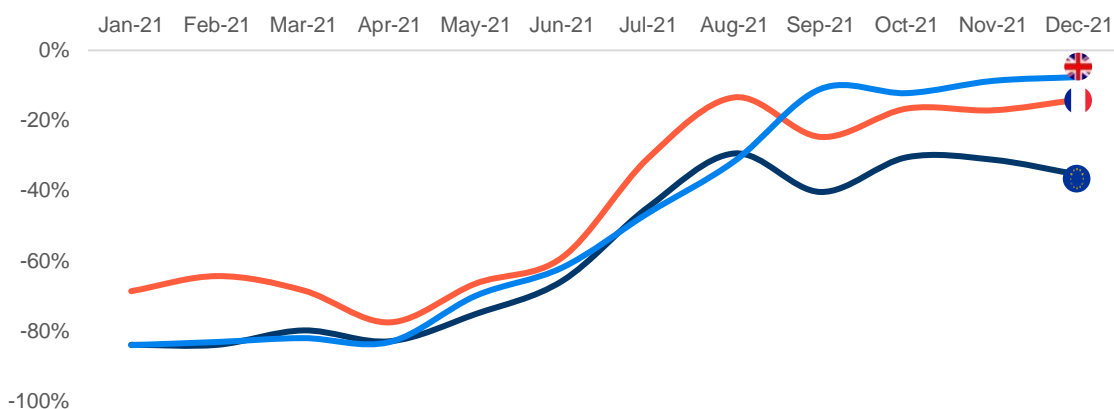

Le déficit structurel de logements en Allemagne s'est encore accru en 2021, pour s'établir à 400 000 logements. Cette sous-offre est le catalyseur des grandes tendances du marché. A Berlin notamment, le taux de vacance atteint des plus bas historiques à 2,2%, et les loyers de marché progressent à nouveau d'environ 13% sur un an (à 19,95 €/m<sup>2</sup>/mois pour le neuf et 12,90 €/m<sup>2</sup>/mois pour l'ancien). La rareté des appartements tire également les prix à la hausse, avec une croissance de l'indice des prix moyen de +11% en 2021 selon Destatis, pour des prix moyens qui s'élèvent à 5 220€ /m<sup>2</sup> à Berlin et 6 250 €/m<sup>2</sup> à Hambourg.

### Hôtels : l'année 2021 confirme la capacité de rebond et amorce la reprise

Après un 1er semestre encore très impacté par la crise sanitaire et les différentes restrictions gouvernementales, le 2ème semestre s'est révélé très dynamique, dépassant parfois les performances de 2019. Au global, en Europe, la performance du marché est bien supérieure à 2020, avec une hausse de RevPAR de +42%, même si elle reste encore en retrait de -54% par rapport à 2019.

Les performances ont confirmé le fort rebond des pays bénéficiant d'une importante clientèle domestique, notamment la France, le Royaume-Uni et l'Allemagne, représentant la majeure partie des revenus hôtels de Covivio, et ont, par ailleurs, témoigné des bons fondamentaux de l'hôtellerie, notamment du segment loisir.

## Covivio : un patrimoine en croissance et en adaptation continue

Avec un patrimoine de 26,7 Md€ (17,7 Md€ PdG) d'actifs en Europe, en croissance de 1 Md€ sur un an, Covivio construit son développement sur la diversification dans des activités où le groupe joue un rôle d'acteur de premier plan :

- **57% du patrimoine est composé de bureaux** en France, Italie et Allemagne, majoritairement dans des localisations centrales à Paris, Milan et dans les principales villes allemandes ;
- **Le résidentiel en Allemagne représente 28% du patrimoine (+3 points vs 2020)**. Il est situé dans les centres-villes de Berlin, Dresde, Leipzig, Hambourg, et les grandes villes de la Rhénanie-du-Nord Westphalie ;
- **Les hôtels (15% du patrimoine)**, situés dans les grandes villes touristiques européennes (Paris, Berlin, Rome, Madrid, Barcelone, Londres, etc.), sont loués ou gérés directement par les opérateurs leaders : Accor, IHG, B&B, NH Hotels, etc.

41% des immeubles en valeur sont situés en Allemagne, contre 38% en France et 16% en Italie.

Ce patrimoine est géré selon **trois piliers stratégiques** :

1. **La localisation au cœur des grandes métropoles européennes**, en particulier Paris, Berlin et Milan. Ainsi, 97% des actifs se situent à moins de 5 minutes à pied d'un transport en commun.
2. **Le développement**, afin d'offrir un immobilier neuf, alliant performance énergétique, bien-être et adaptation à l'évolution des usages. Covivio développe aujourd'hui 1,8 Md€ part du groupe de projets de bureaux et 437 M€ part du groupe de logements en Europe. La majorité de ces développements concernent des actifs existants.
3. **La culture-client**, qui place l'utilisateur au centre de la stratégie. Covivio accompagne dans la durée ses clients dans leurs stratégies immobilières, en co-définissant avec eux leurs projets et en nouant des relations partenariales durables (maturité moyenne ferme des baux de 7 ans). Cela se traduit notamment par une approche conseil forte, une politique servicielle ambitieuse et toujours plus de flexibilité, avec par exemple des offres hybrides alliant bail commercial et contrat flexible.

### Succès du pipeline de développement bureaux

Covivio a livré 112 200 m<sup>2</sup> d'immeubles de bureaux en 2021, à Paris, Milan, Lyon, Montrouge (Grand Paris), et Montpellier, d'ores et déjà loués à 96% en moyenne, à des clients de 1<sup>er</sup> plan comme EDF, Orange, NTT Data ou Expertise France. Au-delà du succès commercial, ces actifs contribuent à l'amélioration continue du patrimoine. Les immeubles Gobelins (Paris 5<sup>e</sup>) et Silex<sup>2</sup> (Lyon) ont notamment été distingués par les directeurs immobiliers des grandes entreprises françaises en recevant les grands prix SIMI 2021. Enfin, s'ajoute une création de valeur totale de près de +40% par rapport aux coûts de revient (485 M€ part du groupe).

En parallèle, Covivio a engagé 9 nouveaux projets de développement en 2021, à 53% pré-loués à des grands comptes (dont L'Oréal et Moncler en Italie), et majoritairement situés dans les centres-villes de Paris, Berlin et Milan. Le coût de revient s'élève à 1,1 Md€ part du groupe, pour un objectif de création de valeur de plus de 30%.

A fin décembre, le groupe affiche ainsi un pipeline de projets de bureaux (ou mixtes) engagés de 1,8 Md€ en part du groupe et 286 000 m<sup>2</sup>, situés à 82% dans les centres-villes de Paris, Berlin et Milan, et pré-loués à près de 50%.

### Montée en puissance des programmes de promotion résidentielle

L'activité de promotion résidentielle s'est également intensifiée avec la montée en puissance de la transformation de bureaux en logements en France. 8 projets sont en cours de construction, représentant 1 472 logements, à Bordeaux et dans le Grand Paris, pour 247 M€ de coût de revient et un objectif de marge sur vente de plus de 10%. En y ajoutant les projets de promotion logements en Allemagne, pour 114 M€, 2 000 logements sont actuellement en construction, dont près de la moitié ont été pré-vendus. L'activité de promotion a généré 15 M€ de marges en 2021.

### Acquisitions sélectives en résidentiel à Berlin

Covivio a continué à renforcer son exposition en résidentiel en Allemagne, avec 208 M€ part du groupe d'acquisitions situées principalement en centre-ville de Berlin. Le rendement de 3,3% bénéficiera du potentiel de réversion de 55% en moyenne par rapport aux loyers réglementés. Enfin, le prix d'achat, de 3 400 €/m<sup>2</sup> en moyenne, est très inférieur (55% en moyenne) à la valeur au détail sur le marché, alors que l'essentiel des logements sont en copropriété.

### 901 M€ de nouveaux engagements de cessions avec une marge de +4% sur les valeurs d'expertise

En 2021, Covivio a poursuivi sa stratégie de rotation de portefeuille, en signant pour 901 M€ part du groupe (1,3 Md€ à 100%) d'engagements de cessions, avec une marge de +3,7% sur les valeurs d'expertise. Près de 80% du volume concerne des actifs de bureaux (713 M€ signés). Depuis début 2020, le groupe a ainsi cédé pour 1,4 Md€ d'actifs de bureaux, avec une marge moyenne de 4,4% sur les valeurs d'expertise. En décembre 2021, Covivio a notamment signé la vente des immeubles Carré Suffren (25 000 m<sup>2</sup> à Paris 15<sup>e</sup>) et Campus Eiffage (33 000 m<sup>2</sup> à Vélizy-Villacoublay). Ces deux actifs, acquis en 2004 et 2010, illustrent la capacité à créer de la valeur sur la durée grâce à la qualité et la pertinence des politiques de développement et d'asset management.

En résidentiel allemand, Covivio a également cristallisé la réversion sur les valeurs d'expertises, avec 126 M€ de cessions (82 M€ PdG) et +26% de marges sur les dernières valeurs d'expertise, dont +53% sur les ventes au détail (37 M€ PdG). En hôtels, Covivio a vendu pour 134 M€ à 100% et 31 M€ PdG d'actifs sur la base d'un taux de rendement moyen de 4,8% et une marge de +23% sur la valeur d'expertise.

Enfin, Covivio a cédé le solde de son activité de concessions de parkings et le dernier centre commercial en Italie.

### Croissance du patrimoine de +4% à périmètre constant

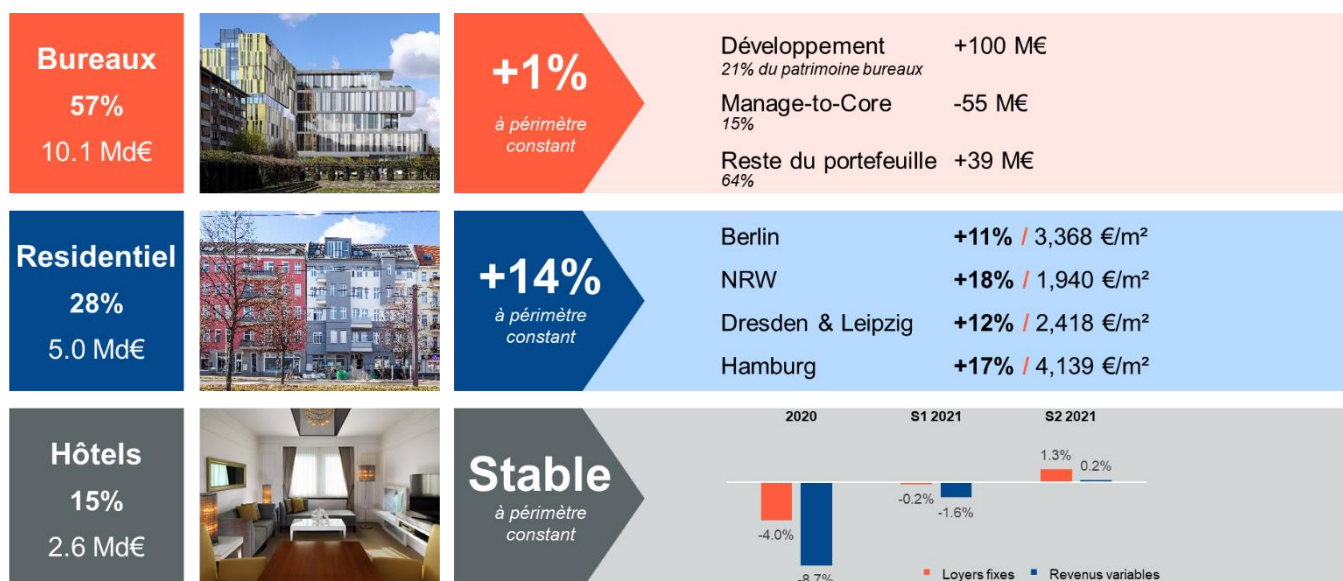

Le patrimoine du groupe progresse de 1 Md€ sur le semestre (+0,6 Md€ PdG), à 26,7 Md€ et 17,7 Md€ part du groupe. A périmètre constant, la valeur des actifs croît de +3,8%.

**En bureaux, les valeurs d'actifs progressent de +0,8% à périmètre constant.** Les baisses de valeurs se concentrent sur quelques actifs faisant face à des enjeux locatifs spécifiques ou situés dans des localisations impactées par la crise (comme La Défense, péri-Défense ou hors Milan en Italie). Elles sont plus que compensées par **la très bonne performance des immeubles livrés ou en cours de développement qui affichent une progression des valeurs de +7% à périmètre constant.**

**En résidentiel allemand, les valeurs d'expertises gagnent +13,7%** et sont bien orientées sur l'ensemble des régions : Rhénanie du Nord-Westphalie (+18,2%), Hambourg (+16,8%), Dresde & Leipzig (+12,4%), et Berlin (+11,3%). Cette performance tient à un manque structurel de logements, un fort attrait des investisseurs, comme l'atteste le volume record d'investissements réalisés en 2021 (51 Md€), et des valeurs détail très supérieures aux valeurs bloc (au-delà de 50%). La valeur moyenne du patrimoine s'établit à 3 370 €/m<sup>2</sup> à Berlin et 1 940 €/m<sup>2</sup> en Rhénanie-du-Nord Westphalie.

**En hôtels, la valeur du patrimoine est stable par rapport à fin 2020 (-0,3% à périmètre constant) :** le rebond des performances du second semestre a permis aux actifs en bail fixe de renouer avec une croissance des valeurs (+1,3% au S2 2021) et aux actifs à revenus variables de se stabiliser (+0,2% au S2 2021).

**COVIVIO**  
**RESULTATS ANNUELS 2021**

**Bureaux : une année record pour les locations**

Covivio a conclu en 2021 un record de commercialisations, avec 180 000 m<sup>2</sup> d'engagements locatifs en bureaux, sur une durée moyenne ferme de 10 ans. Après un premier semestre pénalisé par les restrictions sanitaires (63 200 m<sup>2</sup> commercialisés), l'activité s'est fortement accélérée avec 2/3 des commercialisations de l'année effectuées entre juillet et décembre. 110 000 m<sup>2</sup> concernent des pré-commercialisations sur des actifs en développement. La qualité de ces actifs a permis d'attirer de nombreuses entreprises de renommée internationale, qui ont souhaité y implanter leurs sièges mondiaux ou régionaux. C'est le cas de Moncler (38 000 m<sup>2</sup>), SNAM (19 000 m<sup>2</sup>), L'Oréal (11 600 m<sup>2</sup>) ou LVMH (4 000 m<sup>2</sup>) sur Symbiosis et The Sign à Milan, de Samsung (10 500 m<sup>2</sup>), Roland Berger (3 900 m<sup>2</sup>) ou One Point (9 100 m<sup>2</sup>) à Paris et Bordeaux.

De plus, Covivio a renouvelé près de 104 000 m<sup>2</sup> en 2021, dont 45% en France, 45% en Italie, et 10% en Allemagne, avec une extension de la maturité de 3 ans en moyenne.

A périmètre constant, les loyers sont impactés par les libérations de 2020 et du début d'année 2021 alors que la remontée du taux d'occupation, à 92%, s'est opérée au second semestre.

**Hôtels : reprise de l'activité au second semestre**

Les revenus de l'activité Hôtels en Europe, qui étaient en baisse de -20% au premier semestre 2021 comparé au premier semestre 2020, ont rattrapé leur retard sur la seconde partie de l'année, bénéficiant de la reprise du marché amorcée à partir de mai 2021. Les revenus affichent ainsi une hausse de +27% à périmètre constant sur l'année, tirés par la progression de +146% sur les loyers variables (35% du patrimoine hôtelier principalement loué à AccorInvest) et par le fort rebond de +356% en mur et fonds (20% du patrimoine hôtelier). Enfin, les actifs en bail fixe (45% du patrimoine hôtelier) sont en baisse limitée de -1% à périmètre constant, en raison des franchises accordées en 2020 et 2021 en échange de prolongation des durées d'engagement. Le taux de collecte de loyers atteint 96% (85% y compris paiements différés et franchises accordées).

Début 2022, Covivio et InterContinental Hotels Group ont revu leurs accords sur le portefeuille de 12 hôtels situés dans des localisations prime au cœur des principales métropoles britanniques (Londres, Edimbourg, Glasgow, etc. ; 344 M€ part du groupe et 2% du patrimoine Covivio). Les parties ont signé un accord portant sur la conclusion d'avenants aux baux. Il prévoit notamment un réajustement du loyer minimum garanti et la mise en place d'un loyer variable indexé sur le chiffre d'affaires, ainsi que des tests de performance. Un nouveau bail devrait être signé fin mars. Cet accord permet de cibler un rendement sur ce portefeuille de l'ordre de 6% une fois passée la phase de reprise de l'activité.

### Forte croissance locative en résidentiel Allemagne

Le déficit d'offre de logements persistant en Allemagne (déficit accru de +40 000 logements en 2021), couplé à une stratégie active d'asset management, a tiré les loyers à la hausse en 2021, à +4,5% à périmètre constant. Les loyers ont progressé sur l'ensemble des zones géographiques : Berlin (+5,0%), Rhénanie du Nord Westphalie (+4,7%), Hambourg (+2,9%) et Dresde et Leipzig (+2,3%). La croissance des loyers résulte pour plus d'un tiers du programme de modernisation engagé sur le patrimoine, qui tend à rénover en moyenne 3% du parc chaque année. Un second tiers est tiré par l'indexation, les relocations comptant pour le tiers restant.

## Stratégie ESG : de nouvelles avancées dans tous les domaines

### La nouvelle trajectoire carbone validée par l'initiative SBT

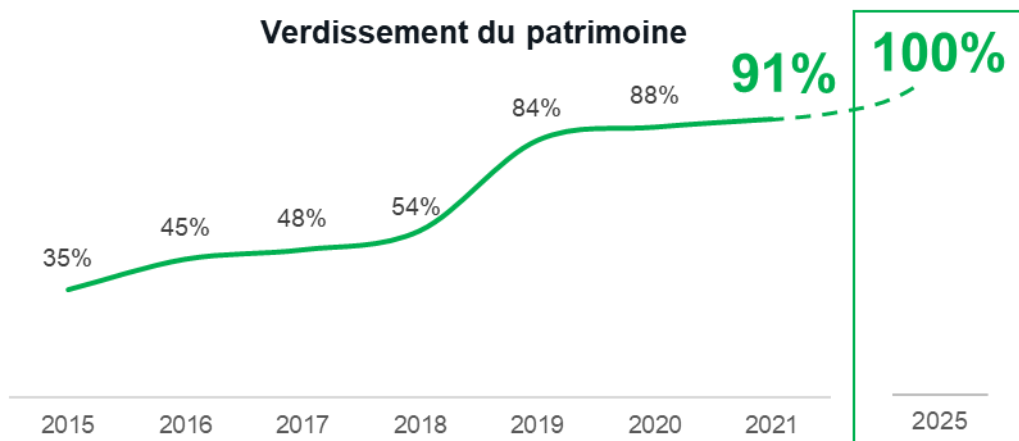

Covivio a annoncé en 2021 une nouvelle trajectoire carbone et a relevé ses ambitions pour atteindre 40% de réduction des émissions de gaz à effet de serre d'ici à 2030 (objectif précédemment fixé à -34%). Cet objectif, qui concerne l'ensemble des scopes 1, 2 et 3, couvre l'intégralité des activités en Europe et la totalité du cycle de vie des actifs : matériaux, construction, restructuration et exploitation. De surcroît, Covivio vise le Net Zero Carbon dès 2030 sur ses scopes 1 et 2.

Ces objectifs de réduction des émissions de gaz à effet de serre viennent d'être approuvés par l'initiative SBT et seront publiés sur leur site internet le 24 février.

Par ailleurs, le taux d'éligibilité moyen des activités de Covivio à la Taxonomie ressort à 94,5%<sup>3</sup> : 89% sur le chiffre d'affaires (l'activité de gestion d'hôtels détenus en murs et fonds n'est à ce jour pas couverte par les règles de la Taxonomie) et 100% sur les capex.

### 91% de patrimoine vert

Covivio a poursuivi sa dynamique en matière de verdissement : la part de patrimoine bénéficiant d'une certification HQE, BREAM, LEED ou équivalent, en opération et/ou en construction, atteint 91% (+3 points).

Cette stratégie de verdissement du patrimoine contribue activement à l'atteinte de la nouvelle trajectoire Carbone. Elle s'accompagne d'un engagement pour la construction bas-carbone à l'échelle européenne. Par exemple, à Lyon avec le projet Silex<sup>2</sup> livré mi-2021 et le choix d'une opération de redéveloppement, Covivio a pu économiser 17 500 tCO<sub>2</sub>e par rapport à une démolition/reconstruction. Le bâtiment émettra jusqu'à 30 tCO<sub>2</sub>e/an en moins au cours de sa phase d'exploitation, par rapport à un immeuble de bureaux rénové au niveau énergétique RT 2012. Autre exemple à Milan avec l'immeuble The Sign A, qui a obtenu la plus haute certification LEED délivrée en Europe en 2021 (LEED Platinum, 90/100) et devient le premier immeuble en Italie labélisé BiodiverCity.

<sup>3</sup> Chiffres part du Groupe. Taux d'éligibilité sur les données IFRS à 100% de 86% en chiffre d'affaires et 100% en capex

### L'utilisateur au centre de notre stratégie

Toujours plus proche de ses clients, Covivio mène régulièrement des enquêtes de satisfaction. Les résultats d'une étude réalisée par OpinionWay en France sur l'activité Bureaux font ressortir un taux de satisfaction de 86%<sup>4</sup> parmi les nouveaux clients et de 89% pour les locataires existants. Quant à l'activité Wellio, elle est plébiscitée par 96% des occupants qui se déclarent satisfaits ou très satisfaits, tant par la qualité de l'accompagnement des équipes de Covivio, que la qualité des espaces ou des services proposés. En parallèle, sur son activité résidentielle, Covivio a de nouveau reçu en 2021 le label de « Fairest landlord » en Allemagne par la revue Focus Money. Enfin, les hôtels du patrimoine bénéficient d'une très bonne appréciation sur Booking.com avec une note de 8,8/10 pour la localisation.

### Lancement de la Fondation Covivio

Suite à l'expression de sa Raison d'être « Construire du bien-être et des liens durables », Covivio a mis en place sa fondation d'entreprise en 2020 et choisi de concentrer ses actions sur deux piliers : la promotion de l'égalité des chances et la préservation de l'environnement. Pour sa première année de fonctionnement, la fondation a priorisé les associations et projets venant en aide aux populations les plus fragilisées par les effets de la crise sanitaire. Grâce au sourcing réalisé par les équipes Covivio en Europe et suite à la publication d'un appel à manifestation d'intérêt (AMI) en France, 12 projets ont pu bénéficier d'un soutien de la fondation, qui dispose d'un budget de 1,7 M€ sur 5 ans. En 2022, Covivio prévoit de lancer deux AMI en Allemagne et en Italie pour intensifier sa démarche et démultiplier ses actions.

### Renforcement de l'expertise du Conseil d'Administration

Le Conseil d'Administration proposera à l'Assemblée Générale du 21 avril 2022 la nomination de Daniela Schwarzer au poste d'administratrice indépendante.

Mme Schwarzer est la directrice générale des Fondations Open Society en Europe et en Asie, le plus grand donateur privé au monde pour les ONG et associations, œuvrant pour la défense des droits de l'homme, de la justice et de la démocratie. De 2016 à 2021, elle a dirigé le Conseil allemand des relations étrangères, dont elle est désormais membre non exécutif du conseil d'administration. Elle est également membre non exécutif du Conseil d'Administration de BNP Paribas. Elle est professeure honoraire de la Freie Universität Berlin, où elle enseigne l'intégration européenne et les affaires internationales.

En apportant son expérience et notamment sa connaissance fine de l'environnement économique et social allemand, elle participera à maintenir les meilleurs standards d'engagement, d'indépendance et de compétence du Conseil d'Administration.

### Nouvelle amélioration des notations ESG

Les performances et la pertinence de la politique RSE de Covivio ont une nouvelle fois été récompensées par les agences de notation. Le groupe a ainsi vu progresser ses notations auprès du GRESB (90/100), Sustainalytics (8,3) ou MSCI (AAA), faisant de Covivio l'un des leaders sur son secteur.

## Des résultats 2021 supérieurs aux objectifs

### Réduction de la LTV, à 39%

Le rythme élevé de cessions et la bonne performance des valeurs d'expertise ont permis de réduire de 2 points le ratio de LTV, à 39% à fin 2021. Le taux moyen de la dette diminue également, à 1,2% vs 1,3% fin 2020, et l'ICR s'améliore à 6,7x vs 6.1x à fin 2020.

Notée BBB+, perspective stable par S&P, Covivio affiche un bilan solide, avec une dette diversifiée et longue (5,4 ans de maturité). Le taux de couverture atteint 84% pour une maturité moyenne des instruments de couverture de 6,8 ans.

<sup>4</sup> Moyenne des notes « satisfait » ou « très satisfait » attribuées sur les thèmes « Qualité de l'accompagnement par Covivio », « Vie dans l'immeuble » et « Réponses apportées »

### Progression des ANR de +6 à +10% sur un an

La progression des valeurs d'actifs, portée par le développement bureaux et le résidentiel en Allemagne, est à l'origine de la croissance de +7% de l'ANR EPRA NTA par action, à 106,4€ et 10,1 Md€. L'ANR de liquidation (EPRA NDV) s'élève à 9,3 Md€ et 97,8€ (+10%) et l'ANR de reconstitution (EPRA NRV) à 11,1 Md€ et 116,9€ par action (+6%).

### EPRA Earnings ajusté en croissance de +6,6%

L'EPRA Earnings ajusté s'élève à 410 M€, en croissance de +6,6% sur un an (4,35€ par action et +3,3% suite au paiement du dividende 2020 en actions). La baisse des revenus locatifs bureaux, liée à la rotation du patrimoine, a été plus que compensée par la croissance sur les hôtels et la performance en résidentiel allemand. Le résultat a également bénéficié de la bonne tenue des coûts de fonctionnement et la réduction du coût de l'endettement financier. En 2021, le résultat net de Covivio a atteint son plus haut niveau, à 924 M€.

### Proposition d'un dividende en numéraire de 3,75€ par action, en hausse de +4.2%

Covivio proposera au vote de l'Assemblée Générale du 21 avril prochain le paiement en numéraire d'un dividende de 3,75€ par action, en hausse de +4,2% par rapport à 2020, soit un taux de distribution de 86%. Le détachement du coupon aura lieu le 25 avril 2022 et le paiement le 27 avril 2022.

## Perspectives

Au cours de l'année 2022, Covivio entend poursuivre sa dynamique de croissance en s'appuyant sur trois axes principaux :

- **La poursuite du pipeline de développement**, qui porte principalement sur le redéveloppement d'actifs existants à Paris, Berlin et Milan. Situés dans des zones *prime* recherchées par les utilisateurs, ces immeubles recèlent également d'importants potentiels de réversion locative. Covivio vient d'ailleurs de pré-louer l'intégralité du projet Anjou, immeuble de 9 300 m<sup>2</sup> situé dans le QCA parisien, à un grand groupe de luxe français, 3 ans avant la livraison. Un accord préliminaire a également été signé pour 9 000 m<sup>2</sup> sur Stream Building, à Paris 17<sup>e</sup>, permettant au projet d'afficher un taux de pré-commercialisation de 100%.
- **Le travail d'asset management pour extraire les réserves de croissance locative** via la réversion locative en résidentiel allemand, la réduction de la vacance sur les actifs *manage to core* (16% du patrimoine bureaux) et l'intensification de l'offre de services en bureaux. A ce titre, de nouveaux accords locatifs ont été signés ces dernières semaines sur le prochain site Wellio à Milan QCA, amenant son taux de pré-commercialisation à 90% trois mois avant la livraison.
- **La reprise en hôtels**. Les perspectives de STR, MKG ou Tourism economics prévoient un retour des nuitées au niveau de 2019 d'ici à 2023-2024. Par rapport aux revenus de 2019, le potentiel de croissance pour le groupe s'élève à +54 M€.

Dans ce contexte, et en particulier l'hypothèse d'une reprise continue en hôtels, Covivio se donne pour objectif un Epra Earnings ajusté 2022 de l'ordre de 4,5€ par action.

## 5. Managed Pipeline

### Offices to be committed in 2022:

- ▶ Covivio will launch 3 projects with an estimated total cost including land at €330 million, of which €150 million of remaining CAPEX to spend. Two of those projects are located in European CBDs (Paris & Berlin), and the other is a dedicated development for a Covivio's historical tenant.
- ▶ In 2023-2024, Covivio plans to launch additional projects for an estimated total cost of ~€740 million.

### Landbanks:

In the long-term, Covivio also owns more than 350,000 m<sup>2</sup> of landbanks that could welcome new development projects:

- in Greater Paris (70,000 m<sup>2</sup>) and Major French Cities (110,000 m<sup>2</sup>) mainly for turnkey developments;
- in Milan with Symbiosis (20,000 m<sup>2</sup>) and Porta Romana (70,000 m<sup>2</sup>);
- in Germany with the potential for a second tower of 70,000 m<sup>2</sup> in Alexanderplatz in Berlin;
- And more than 50,000 m<sup>2</sup> in Berlin, Leipzig and Dresden.

**French residential managed projects:**

- ▶ Since 2017 Covivio has been constantly looking for opportunities to transform its secondary location offices into residential. To date 71,000 m², corresponding to 1,040 flats, are to be committed as from 2022.
- ▶ In addition, approximately 200,000 m² are under study with the will to progressively be launched after 2022. This pipeline amounts to 2,800 flats, 80% of which being in Greater Paris while the remainder is located in major regional cities.

**€247m / 100,000 m² pipeline in France at end 2021**

**Total of 5,000 units to be developed over the next ~7 years  
Ramp-up of development margin to reach ~€10-15M per year from 2022 until ~2028**

\* Including 1,200 units from mixed-use projects

## Germany residential managed projects:

Covivio continues to strengthen its medium-term pipeline thanks to existing landbanks and acquisition of new lands:

- ▶ ~130,000 m<sup>2</sup> of residential area with a letting strategy, in order to generate high reversion and increase values. It will be gradually launch from 2022 represent a total cost of ~€520 million (€340 million Group share);
- ▶ ~40,000 m<sup>2</sup> of residential area with a sales strategy, in order to generate more promotion margins. It represents a total cost of ~€170 million (€111 million Group share).

## 2. BUSINESS ANALYSIS BY SEGMENT

### A. OFFICES: 57% OF COVIVIO'S PORTFOLIO

The offices' market is recovering after 2 years of crisis, marked by strong transformation and structural changes. To adapt to the market trends, Covivio is continuing improving its portfolio quality, focusing on attractive locations (city-centers and well-connected business districts) and develops high-quality assets offering a full range of services that ensure optimal well-being for its tenants.

Covivio owns offices in France (33% of Covivio's portfolio), Italy (15%), and Germany (9%) with a portfolio of €12.3 billion (€10.0 billion Group share) at end-2021. For several years now, the Group has implemented an active asset rotation with selective acquisitions and development policy, reinforcing its footprint on strategic locations.

Thus, Covivio's portfolio has been strategically splitted as follows:

- ▶ **Core assets (52%** of Covivio's office portfolio): including assets with strong value resiliency and liquidity, in good locations (60% in city-centers and 40% in well-connected top-business districts), with high occupancy (96%) and long WALB (6.7 years). They benefit from a strong asset management work to catch their reversionary potential before strategically disposing to finance new acquisitions and development capex.
- ▶ **Manage-to-Core assets (16%)**: including assets with good fundamentals but high vacancy (28%) or short-term lease expiries. They are mostly in established areas (84% in major Business Districts) with attractive locations (83% <5 min to public transports). These assets can provide significant upside potential, that is why they benefit from strong asset management initiatives to turn them into 'Core' assets.
- ▶ **Development Pipeline (21%)**: this bucket includes current and future office developments with high value creation potential (>30% value creation).
- ▶ **Transformation into residential (4%)**: gathers obsolete office assets in France with opportunities to be converted into residential on a build to sell strategy.
- ▶ **Telecom Italia portfolio (6%)**: includes Italian assets, fully let to Telecom Italia on a long-term basis (10-year WALB).

## B. FRANCE OFFICES: 33% OF COVIVIO'S PORTFOLIO

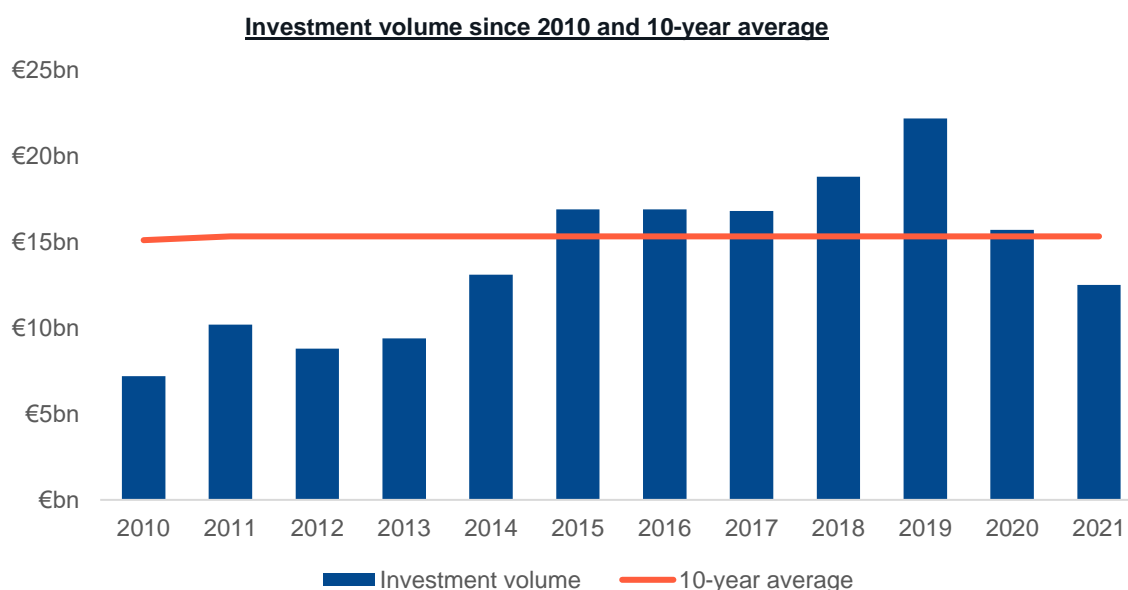

Covivio owns an office portfolio in France of €7.2 billion (€5.9 billion Group share) located:

- 51% in Paris & Neuilly / Levallois;
- 36% in top business districts of Greater Paris;
- 12% in the centre of major regional cities.

### 1. Rebound in letting activity with investment traction restored

2021 was marked by the pandemic and its two lockdowns in the first half and a notable rebound of rental activity in the second half of the year. Overall, the investment activity remained dynamic through the year:

- ▶ **Take-up** in Paris region reached 1.9 million m<sup>2</sup> (+32% YoY), thanks to an acceleration of recovery in the fourth quarter that amounts to 631,000 m<sup>2</sup> (+29% YoY):
  - **In Paris**, take-up increased by 49% to 791,700 m<sup>2</sup>;
  - **In Greater Paris** (excl. 2<sup>nd</sup> ring), the take-up (860,200 m<sup>2</sup>) increased by 26% excluding the Total transaction in La Défense which has driven take-up in this area last year (126,000 m<sup>2</sup>);
  - The number of transactions for surfaces over 5,000 m<sup>2</sup> has doubled up to 56 (vs 20 in 2020).
  - Good performance of major regional cities, where the Take-up increased by 34% in Lyon and remained stable in Bordeaux compared to 2020.
- ▶ **Vacancy rate** increased to 7.4% from 6.8% end-2020, still close to the 10-year vacancy rate at 6.7%. The immediate supply is now up to 4 million m<sup>2</sup>. The new spaces represent 34% of this vacancy:
  - In **Paris**, the vacancy remained stable at 3.27% (vs 3.21% in 2020) of which 3.1% in Paris CBD
  - In **La Défense**, the vacancy rate stood at 12.86%.
  - In **major regional cities**, where the vacancy rates stood at: 4.92% in Lyon and 4.83% in Bordeaux.
- ▶ **Future available supply** at end-2021 decrease from 2.4 million m<sup>2</sup> stock under construction in 2020 to 1.7 million m<sup>2</sup> in 2021, with 31% pre-let.
- ▶ Average **headline rents for new or restructured space** rose by 1.5% year-on-year to €414/m<sup>2</sup> and for second-hand space by 3.0% to €415/m<sup>2</sup>:
  - Prime rents in Paris remains at its all-time high of €930 m<sup>2</sup>/year (record reached by Covivio in one of its flagship development projects in Paris CBD);
  - Incentives in the Paris region increased by 20.8% over the year to 24.4%, above the 5-year average of 21%.
- ▶ **Office investments** in Greater Paris totalled €12.5 billion in 2021, down 20% YoY and still below the last 10-years average (€15.1 billion). However, this asset class largely remains the most popular among investors, accounting for 85% of total investments in Greater Paris. Prime yields remain stable YoY at 2.5% in Paris CBD.

At end December 2021, the France Offices activity was marked by:

- ▶ **+1.6% like-for-like value growth** over one year, thanks mainly to value creation on our development projects offsetting decreases on temporary challenging assets.
- ▶ Deliveries of 5 assets in Paris, Montrouge, Lyon and Montpellier (2 buildings including a Service building), with average occupancy of 96%.

Overall, rental income evolution, mainly as a result of:

- ▶ **disposals** (-€16.7 million), in 2020 and 2021 of mature assets in Western Crescent and French regions;
- ▶ **decrease of rental performance** (-€5.1 million) with -2.8% on a like-for-like basis mostly driven by releases of 2020 in Paris South (Carré Suffren) and La Défense partially re-let since then;
- ▶ **deliveries** (+€14.7 million) in 2020 and 2021 in major regional cities and in the 1<sup>st</sup> ring;
- ▶ **releases of assets, essentially for redevelopment** (-€10.7 million), half from last year releases and half from releases of 2021 (5,1 M€) especially in Paris Centre West.

Thanks to the restructuring of the asset portfolio in the past years, the portfolio is now focused on:

- ▶ 26 assets in Paris, new or with high potential for redevelopment (46% of portfolio value);
- ▶ 62 assets of high quality in Greater Paris and centre of major regional cities (52% of portfolio value);
- ▶ 27 non-core assets, of which 7 are under disposal agreements (1%);
- ▶ 20 assets under study for residential development (1%).

The 7% decrease is mainly explained by the following variations:

- ▶ In the Western Crescent including La Défense (-14%). This decrease is explained by the disposal of EDO;
- ▶ The decrease in Paris Center West (-38%) is mainly due to release for restructuring of 3 main Parisian assets (Paris Madrid St Lazare, Paris Monceau and Paris Anjou) in last quarter of 2021;
- ▶ Partially offset by deliveries in the First Ring (+26%) and in Paris South (+16%).

### 4. Indexation

The indexation effect is +€0.6 million (Group share). For current leases:

- ▶ 88% of rental income is indexed to the ILAT (Service Sector rental index);
- ▶ 11% to the ICC (French construction cost index);
- ▶ The balance is indexed to the ILC or the IRL (rental reference index).

## 5. Rental activity: 116,000m<sup>2</sup> renewed or let during 2021

	Surface (m <sup>2</sup> )	Annualized Top up rents 2021 (€m, GS)	Annualized rents 2021 (€/m <sup>2</sup> , 100%)
Vacating	93,427	24.7	274
Letting	38,230	8.2	253
Pre-letting	32,621	10.1	407
Renewals	45,185	9.6	343

Covivio proved its ability to sign contracts in a challenging environment, and benefitted from the market acceleration in H2:

- ▶ **More than 45,000 m<sup>2</sup> were renegotiated or renewed** in 2021 with a +3-year lease extension on average. Covivio has notably renegotiated more than 33,000 m<sup>2</sup> in Velizy with Eiffage at the same level of rent with a 10-year lease.
- ▶ **70,900 m<sup>2</sup> have been let or pre-let** in 2021, including 32,600 m<sup>2</sup> on development projects, with:
  - **10,500 m<sup>2</sup> on So Pop**, to be delivered in 2022 and 33% pre-let with a 9-year lease to Samsung;
  - **9,100 m<sup>2</sup> on Jardin de l’Ars in Bordeaux**, to be delivered in 2024 and 50% pre-let with a 12-year lease to Onepoint;
  - **5,500 m<sup>2</sup> on Stream Building**, to be delivered in 2022 and 26% pre-let with a 12-year lease to Zoku through a management contract;
  - **5,100 m<sup>2</sup> on Jean Goujon in Paris CBD**, to be delivered in 2022 and now 58% pre-let with a 9-year lease to Roland Berger and a 6-year lease to an executive search firm;
  - **10,400 m<sup>2</sup> in Silex 2 in Lyon**, to Axa, Archimed and Accenture, in a building in the heart of the Part-Dieu district, now 92% let;
  - **3,400 m<sup>2</sup> in La Défense-CB21** with 5 new tenants.
- ▶ **93,400 m<sup>2</sup> were vacated**, mostly in major regional cities (40,000 m<sup>2</sup>), Paris Centre West (23,600 m<sup>2</sup>), and Western Crescent & La Défense (11,300 m<sup>2</sup>) including:
  - 64,000 m<sup>2</sup> for redevelopment (47,625 m<sup>2</sup> and € 15 million of top up GS) or residential (13,324 m<sup>2</sup> & €1.4 million of Top up GS)) and mixed (2,624 m<sup>2</sup> and € 0.2 million of Top up GS) redevelopment, mostly in Paris Centre West and major regional cities (Montpellier, Nice);
  - 21,000 m<sup>2</sup> on well positioned assets in central locations mainly in Paris, La Défense and Levallois, and well connected to public transports (in front of metro stations);
  - 9,000 m<sup>2</sup> to be sold in regional cities (Creil, Le mans).

## 6. Lease expiries and occupancy rate

<b>Total</b>	<b>216.2</b>	<b>100%</b>	<b>216.2</b>	<b>100%</b>

The firm residual duration of leases was stable vs year-end-2020 (4.6 years).

In 2022, the €40 million of lease expiries representing 6% of Covivio annualized revenues are split as follow:

- ▶ 3.7% of Covivio annualized revenues (€26 million) already managed due to assets that will be vacated for redevelopment (€25 million), mostly located in Paris CBD (€15 million);
- ▶ 2.0% of Covivio annualized revenues (€14 million) to be managed:
  - 1.4% relate to Core Assets, well located in Paris CBD and in the first rim, and with good accessibility in public transports;
  - 0.5% relate to Manage-to-core assets, mainly located in Western Crescent and La Défense.

### 6.2. Occupancy rate: **93.2%** at end 2021

Major regional cities	96.8%	96.4%
Other French Regions	84.1%	65.9%
<b>Total</b>	<b>93.1%</b>	<b>93.2%</b>

- ▶ In Paris, the occupancy rate is exceptionally high and close to 100% at end-2021, with no vacancy excepted for few spaces in Cap 18, a tertiary activity area in the North of Paris that aims to be fully redeveloped in the coming years.
- ▶ In the Western Crescent, the vacancy increase is mainly related to the releases happened on CB21 at the beginning of the year: 81% occupancy rate in 2021 vs 89% in 2020.
- ▶ The main variations in the outer Rim and in other French regions compensate each other and represent less of 1% of Covivio annualized rents.

Covivio secured €705 million of disposals (€456 million Group share), enabling it to finance development projects with strong value-creation potential.

- ▶ **4 Core mature assets:** €420 million Group share
  - €327 million in Paris and Vélizy (share deal of respectively 60% on Carré Suffren and 50% on Velizy) on mature assets; and
  - €94 million located in Lyon and Lille on which Covivio extracted the full potential of value creation through the entire real estate cycle: development, full letting at delivery achieving top rent, asset management and disposal.
- ▶ **20 non-core assets** in French regions: €36 million Group share. Now, only 33 non-core assets remain in the portfolio, equivalent to 1% of the France Offices portfolio, with 16 under disposal agreements.

## 8. Portfolio values

### 8.1. Change in portfolio values: -€53 million in Group Share since 2020

The portfolio value decreased by -€53 million since year-end-2020 (-0.9%) mainly driven by:

- ▶ + €93 million from **like-for-like** value growth, mostly resulting from development assets;
- ▶ + €203 million invested in **development projects** and in **upgrading work** on assets in operations;

- ▶ - €357 million from **disposals** that allowed Covivio to crystallize the value from mature assets and to finance investments in the development pipeline.

<sup>1</sup> Lfl: Like-for-Like

<sup>2</sup> Yield excluding assets under development

Covivio's France Office portfolio locations breaks down as follows:

- ▶ 51% in Paris and Neuilly Levallois;
- ▶ 36% in top business districts in Greater Paris;
- ▶ 12% in top locations in major regional cities (Lyon, Marseille, Bordeaux).

The high quality of the portfolio explains the increase in values by 1.6% on a like-for-like basis at end of December 2021 despite the crisis, further illustrating Covivio's secured profile in France Offices made up of:

- ▶ A dynamic **development portfolio** with significant value increase (+7.5%) explained by its strong and attractive locations.
- ▶ Increases on assets delivered in the year 2021 in Paris CBD, Greater Paris, or major regional cities, highlighting Covivio's ability to bear development projects and successfully extracting value creation in every area of France with an average +6.4% LFL:
  - Paris Gobelins, delivered in March already fully occupied by Expertise France through our Wellio brand;
  - Montrouge Flow delivered in March already fully let to a subsidiary of Edvance (EDF Group);
  - Two buildings in Montpellier, one already fully let to Orange and the other one dedicated to services.
  - Silex 2 in Lyon, delivered in July, 91% let mainly to Solvay
- ▶ Decreases on the temporarily **challenged assets** mainly in La Défense/Peri-Defense/Rueil area.

## 9. Assets partially owned

Partially owned assets are the following:

- CB 21 Tower (75% owned) in La Défense.
- Carré Suffren (60% owned) in Paris, under disposal agreement at year end.
- The Silex 1 and 2 assets in Lyon (50.1% owned and fully consolidated).
- So Pop project in Paris 17<sup>th</sup> (50.1% owned and fully consolidated).
- N2 Batignolles project in Paris 17<sup>th</sup> (50% owned and fully consolidated).
- The Eiffage (Under sales agreement) and Dassault campuses in Vélizy (50.1% owned and fully consolidated).
- The New Vélizy campus for Thales (50.1% owned and accounted for under the equity method).
- Euromed Centre in Marseille (50% owned and accounted for under the equity method).
- Bordeaux Armagnac (34.7% owned and accounted for under the equity method - Exchange process with Icade completed in Jan 2022).
- Coeur d'Orly in Greater Paris (50% owned and accounted for under the equity method).

## C. ITALY OFFICES: 15% OF COVIVIO'S PORTFOLIO

Covivio's Italy strategy is focused on Milan, where the Group's acquisitions and developments are concentrated. At end-December 2021, the Group owned offices worth €3.2 billion (€2.7 billion Group share) composed of:

- 77% (€2.0 billion) of offices in Milan, mostly in the CBD and centre of the city;
- 17% (€0.5 billion Group share) Telecom Italia assets, 100% occupied with 9.8 years firm lease;
- 6% (€0.2 billion) non-core assets outside Milan.

### 1. Milan Office market: Strong market fundamentals

- ▶ Milan Office **take-up** stood at 390,000m<sup>2</sup> at end 2021 (+32% vs 2020) 11% above 10-year average, with an increase in the number of transactions from 162 to 267.  
Grade A buildings were the most in demand, representing 73% of the take-up.
- ▶ The **vacancy rate** increased to 11.1% (vs 9.4% at the end-2020), with strong disparity between the center where most of Covivio's portfolio is located (6.1% in the CBD; 5.5% in semi-center) and the periphery (14.3%).
- ▶ **Prime rents** in Milan increased by +8.3% in the CBD at €650/m<sup>2</sup>. This evolution is mainly due to the search for centrality and quality spaces.
- ▶ Total **investment volumes** in Milan reached €1.8 billion, down 30% year-on-year and in line with the 10-year average.
- ▶ Prime yields slightly decreased to 3.0% (vs 3.1% at end-2020) as investors have been focusing on core assets.

**Investment volume since 2010 and prime yield**

Covivio's activities in Italy in 2021 were marked by:

- ▶ A resilient **occupancy rate of 97%**;
- ▶ Acceleration of **non-core disposals**, with €108 million Group share, from Telecom Italia assets and non-core properties outside Milan;
- ▶ Success of the development pipeline (lettings in Symbiosis D, Symbiosis GH, built to sell for SNAM);
- ▶ Stability of values with a +1.1% like-for-like in Milan.

<sup>1</sup> LfL: Like-for-Like

Overall, rental income decreased by €11.3 million compared to 2020 due to:

- ▶ **disposals** of non-core and core-mature assets (-€15.4 million);
- ▶ **Stable like-for-like rents** (-€0.2 million) mainly because of:
  - vacancy on high street retail spaces in Milan Via Dante and Symbiosis AB (-0.9%),
  - partially offset by new leases on Garibaldi Complex (+0.4%) with +41% LFL on IFRS rent vs old rents
  - inflation impact mostly on Telecom Italia portfolio (+0.2%);
- ▶ **deliveries** of The Sign B and The Sign C in Milan (+€5.8 million);
- ▶ **vacating for redevelopment** (-€1.5 million), in Milan CBD.

Annualized rental income increased by 2.4% mainly due to the disposal.

### 4. Indexation

The annual indexation of rental income is usually calculated by applying the increase in the Consumer Price Index (CPI) on each anniversary of the signing of the agreement.

During the 2021, the average monthly change in the CPI was +1.9%.

### 5. Rental activity: 88.500m<sup>2</sup> let or prelet in 2021

In 2021, around **88,500 m<sup>2</sup> of new leases** were signed:

- ▶ 11,800 m<sup>2</sup> on the operating portfolio, of which 2,400 m<sup>2</sup> on the Garibaldi complex with a 41% increase vs old IFRS rent;
- ▶ 57,700 m<sup>2</sup> pre-letting on development portfolio. Of which 4,000 m<sup>2</sup> on Symbiosis D to LVMH Italia, highlighting the recognized quality of Covivio's buildings; 11,600 m<sup>2</sup> on The Sign D to L'Oréal Italia with expected delivery in 2024; 37,600 m<sup>2</sup> on Symbiosis G+H fully let to Moncler showing the great attractiveness of the area around Scalo di Porta Romana that will be redeveloped in the coming years and will host 2026 winter Olympic village;
- ▶ 19,000 m<sup>2</sup> in a sell to end-user deal with SNAM.

Additionally, 31,300 m<sup>2</sup> have been renewed with a duration extension of 2.8 years, mostly on one building in Milan, let to a large Italian group.

**11,900 m<sup>2</sup> were vacated** during 2021 in Milan:

- ▶ 10,300 m<sup>2</sup> have already been re-let or sold;
- ▶ 1,600 m<sup>2</sup> are under negotiation, located in excellent locations.

The weight of Milan Offices now represents 77% of the portfolio (+4.3 pts vs end-2020) and 93% excluding Telecom Italia assets. Milan's exposition is in line with Covivio's strategy to focus on major European cities.

- ▶ Milan portfolio values have grown (+1.1%), sustained by the development portfolio's good performance (+4.1%) despite some value adjustments on high street retail surfaces (-3.1%).
- ▶ Telecom Italia portfolio slightly increased (+0.9%), relying on its strong fundamentals:
  - 100% occupancy;
  - 9.9 years average lease term.
- ▶ Non-core offices (outside Milan) continue to show a decrease (-14.9%) due to the general market situation. Covivio has greatly reduced its exposure in the last few years to these assets, which now represent only 6% of the portfolio.

## D. GERMANY OFFICES: 9% OF COVIVIO'S PORTFOLIO

### 1. Stable letting market, appetite for investments

- ▶ **Take-up** in German's top six markets in 2021 increased by 27% year-on-year to 3.2 million m<sup>2</sup>, with strong disparity between the cities: Cologne (+60%), Hamburg (+43%), Frankfurt (+40%), Berlin (+17%), Munich (+16%) and Düsseldorf (+14%).
- ▶ **Immediate supply** increased by 17% to 4.7 million m<sup>2</sup>. The vacancy rate stood at 4.3% on average (+0.80pts compared to 2020) with strong disparities, Berlin displaying the tightest vacancy level at 2.5%, Munich (4.0%) Frankfurt (7.5%) and Düsseldorf (7.1%).
- ▶ **Future supply** is also limited, with around 3.7 million m<sup>2</sup> under construction of which 1.9 million m<sup>2</sup> will be delivered by the end of 2022 in German top six cities:
  - Little risk of oversupply in short-term: high pre-let ratio of 48 %
  - Future available space until 2022 represents 1.2 year of take-up (2021)
- ▶ **Prime rents** have continued growing at an overall 3.7% rate with +8% in Berlin (€516/m<sup>2</sup>) +9% in Munich (€516/m<sup>2</sup>) and +3% in Hamburg (€396/m<sup>2</sup>).
- ▶ **Investment in German Offices** in 2021 amount to €30.7 billion of which €23.8 billion in the top six cities (+23% compared to 2020), +30% above the 10-year average.
  - Berlin (+22%), Munich (+125%) and Frankfurt (+20%) showed great dynamism being the most attractive cities in Germany.
  - The office prime yield of 2.7% in the top six cities offers is stable year-on-year.

<sup>1</sup> Lfl: Like-for-Like

Rental income amounted to €44.8 million in Group Share, down by €4.5 million compared to 2020 due to:

- ▶ Break-up fee from We Work received in 2020 following the cancellation of their lease agreement on Herzogterrassen in Düsseldorf.
- ▶ Rental income increased by €2.1 million, thanks to the full-year impact of the acquisition of Godewind assets executed in 2020. The rental income deriving from this portfolio was fully consolidated in FY 2021 whilst it amounted to 84% on average in FY 2020.

LFL on rental income excludes Godewind, bought in 2020, and therefore covers a small scope. The +0.6% is mainly linked to relettings on small assets located in Berlin and in Düsseldorf.

The firm residual duration of leases stands at 4.4 years (vs 4.9 years at end-2020).

€8.1 million of expiries are coming in 2022, representing 1.2% of Covivio annualized revenues. They include:

- ▶ 0.6% already managed, including rental agreements on small office spaces, renewed automatically once a year and made with companies in the liberal professions (e.g. Medical doctors' offices).
- ▶ 0.6% to be managed mainly in Frankfurt, Hamburg and Munich, among which 0.4% is expected to be renewed.

## 6.2. Occupancy rate of 78.8%

<b>Total</b>	<b>76.7%</b>	<b>78.8%</b>

The occupancy rate has improved and stands at 78.8% (+2.1 pts compared to year-end 2020) due mainly to lettings in Hamburg and Munich.

73% of the vacancy (15 pts) is focused on Herzogterrassen in the centre of Düsseldorf, Zeughaus in Hamburg and Eight Dornach in Munich. A refurbishment of Herzogterrassen is ongoing in order to reposition the asset as an attractive offer in Düsseldorf city center.

## 7. Disposals: €61.3M Group Share

Covivio sold 45% of its shares in Alexanderplatz development project to Covéa and Generali, a flagship development project in Berlin.

Covivio Germany Office portfolio reaches a critical size with €1.8 billion of assets:

- ▶ The like-for-like change (-1.0%) includes decreases in valuation for assets in Munich and Dusseldorf which are still recovering from last year's tenant departures.
- ▶ In the meantime, assets in Berlin and Hamburg registered +5.5% and +0.8% like-for-like growth respectively.

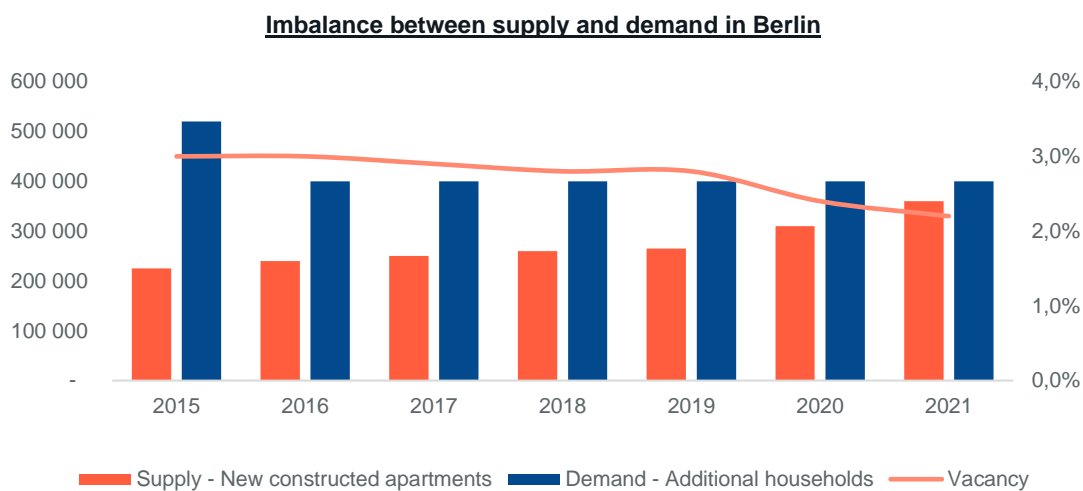

## E. GERMANY RESIDENTIAL: 28% OF COVIVIO PORTFOLIO

Covivio operates in the German Residential segment through its 61.7% held subsidiary Covivio Immobilien. The figures presented are expressed as 100% and as Covivio Group share.

Covivio owns around ~40,800 apartments in Berlin, Hamburg, Dresden, Leipzig and North Rhine-Westphalia, representing €7.7 billion (€5.0 billion Group share) of assets.

### 1. Strong market fundamentals

- ▶ **The housing shortage** widens with a deficit of around 400,000 units in Germany at end-2021
  - **Especially marked in Berlin** with a lack of 229,000 units.

- ▶ This shortage continues to drive an important **increase in rents and values** in Germany. In **Berlin** in 2021:
  - The median **asking rent** on new buildings increased by 12.7% to €19,95/m<sup>2</sup> over a year while asking rent on existing buildings increased by 12.2% to €12,90/m<sup>2</sup>.
  - The median **asking price increased by 3.4%** and now stands at €5,220 /m<sup>2</sup>, well above the current valuation of Covivio's residential portfolio (€3,368/m<sup>2</sup> in Berlin). The square meter price for new buildings also **reached a new high** of €8,390/m<sup>2</sup> (+21.8%).
- ▶ In February 2020, Berlin implemented the Mietendeckel law to freeze housing rent for five years and in November 2020 it set rent caps on residential units. This law was cancelled in April 2021 and a petition has been launched by the citizens to expropriate big corporate landlords by over 3,000 housing units.
- ▶ The German residential market registered its **highest transaction volume** with €51 billion, +160% compared to 2020 (including the €22 billion DW/Vonovia deal and the €5 billion Heimstaden deal), which represents 47% of the German real estate investment with €111 billion in 2021.

Around 62% of the transaction are made in the top six German cities.

In 2021, Covivio's activities were marked by:

- ▶ Continued rental growth: +4.5% on a like-for-life basis, driven by NRW and Berlin where the Mietendeckel has been cancelled in April;
- ▶ Strong value growth: +14% increase on a like-for-like basis;
- ▶ Acquisition of 1,071 units in Berlin for an average of €3,397 /m<sup>2</sup>.

Rental income amounted to €168 million Group share in 2021, up 6.8% (+€10.7 million) due to:

- ▶ In Berlin, the like-for-like rental growth is +5.0% (+€3.5 million) with the cancellation of the Mietendeckel at +2.8 pts and 2.2 pts due to the reletting and the indexation. On the residential side only, the growth is +5.5% (+€3.2 million);
- ▶ Outside Berlin, like-for-like rental growth was strong in all areas (+4.1% on average, +€3.2 million) due to the reletting impact (including modernisation) and the indexation;
- ▶ Acquisitions mainly in Berlin in 2020 and 2021 (+€4.3 million);
- ▶ Disposals (-€3.8 million) mainly involving a portfolio of mature assets in Berlin and Leipzig in 2020 as well as some privatisations with high margins in Berlin;
- ▶ Others (+€3.5 million) which include the increase of Covivio detention.

The portfolio breakdown has been relatively stable for the past few periods, with Berlin generating slightly above 50% of the rental income, through residential units and some commercial units (mainly ground-floor retail).

Rental income per m<sup>2</sup> (€8.0 /m<sup>2</sup>/month on average) offers solid growth potential through reversion in all our markets including, Berlin (20-25%), Hamburg (20-25%), Dresden and Leipzig (10-15%) and in North Rhine-Westphalia (15-20%).

### 4. Indexation

Rental income from residential property in Germany changes depending on multiple mechanisms:

#### Rents for re-leased properties:

In principle, rents may be increased freely, provided the property is not financed through governmental subsidies.

As an exception to the unrestricted rent setting principle, cities like Berlin, Hamburg, Cologne and Düsseldorf have introduced rent caps (*Mietpreisbremse*) for re-leased properties. Discussions are currently ongoing in Dresden and Leipzig to implement such a measure by the summer 2022. In these cities, rents for re-leased properties cannot exceed the public rent reference (*Mietspiegel*) by more than 10%, except in the following conditions:

If the property has been modernised in the past three years, the rent for the re-let property may exceed the +10% limit by a maximum of 8% of the costs to modernise it.

In the event the property is completely modernised (work amounting to more than one-third of new construction costs), the rent may be increased freely.

If the rent received from the previous tenant is higher than the +10% limit, then the previous rent will be the limit in the case of re-letting.

Properties built after 1 October 2014 do not adhere to the rent cap.

### For current leases:

For residential tenants, the rent can generally be adjusted based on the local comparative rent (*Mietspiegel*), which is usually determined based on the rent index. In addition to this adjustment method, an index-linked or graduated rent agreement can also be concluded. A successive combination of adjustment methods can also be contractually agreed (e.g. graduated rent for the first 5 years of the contract, followed by adjustment to the local comparative rent).

**Adjustment to the local comparative rent:** The current rent can be increased by 15% to 20% within three years, depending on the region, without exceeding the local comparative rent (*Mietspiegel*).

### For current leases with work carried out:

If works have been carried out, rents may be increased by up to 8% of the cost of work, in addition to the possible increase according to the rent index. This increase is subject to three conditions:

- The works aim to save energy, increase the utility value, or improve the living conditions in the long run.
- The tenant must be notified of this rent increase within three months.
- The rent may not be increased by more than €3/m<sup>2</sup> for work to modernise the property within a six-year period (€2/m<sup>2</sup> if the initial rent is below €7/m<sup>2</sup>).

In 2021, Covivio secured €126 million of disposals (€82 million group share), with a balanced split between privatizations and bloc sales:

- ▶ Privatizations (mainly in Berlin): 168 units sold for €57 million (€37 million group share) at 53% margin.
- ▶ Bloc sales (mostly in NRW): disposal of a portfolio in NRW consisting in 472 units sold for €58 million (€38 million group share) with a 5% margin.
- ▶ Other disposals for the remaining part including the sale of empty land plots, single houses disposals and adjustment price for a 2020 operation.

<sup>2</sup> Ground-floor retail, car parks, etc

Covivio's residential portfolio in Germany is valued at €2,756 /m<sup>2</sup> on average, offering a significant growth potential, especially in Berlin where the current valuation of residential units stands at €3,324 /m<sup>2</sup>, significantly below the average asking price of condominiums (€5,220 /m<sup>2</sup> at end 2021).

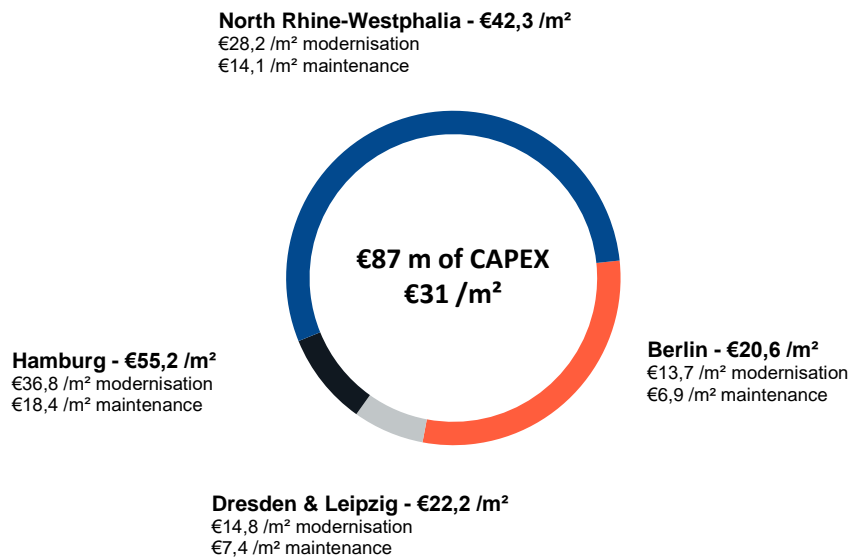

In 2021, values increased by +13.7% on a like-for-like basis since end-2020 which represents yet another very dynamic period of growth:

- ▶ +11.3% in Berlin due to the increase in values in highly sought-after locations;
- ▶ Strong increase in NRW (+18.2%), Hamburg (+16.8%) and Dresden and Leipzig (12.4%) thanks to the continued dynamic of rental growth and the increase in value in large German cities.

## 9. Maintenance and modernisation CAPEX

In 2021, CAPEX totalled €87 million, (€31 /m<sup>2</sup>; €56 million in Group share) and OPEX came to €19 million (€6.7 /m<sup>2</sup> ; €12 million in Group share), 11% below the Capex spent in 2020.

**Modernisation CAPEX**, used to improve asset quality and increase rental income, accounts for 67% of the total (vs 59% in 2020). Due to a restrictive regulation in Berlin most of them were invested in NRW. The quality of the portfolio in NRW enables us to benefit both from rent and value increase in this area.

## F. HOTELS IN EUROPE: 15% OF COVIVIO'S PORTFOLIO

Covivio Hotels, a 43.8%-owned subsidiary of Covivio as of 31 December 2021, is a listed property investment company (SIIC) and leading hotel real-estate player in Europe. It invests both in hotels under lease and hotel operating properties.

The figures presented are expressed at 100% and in Covivio Group share (GS).

Covivio owns a high-quality hotel portfolio worth €6.6 billion (€2.6 billion in Group share), focused on major European cities and let or operated by 16 major hotel operators such as Accor, B&B, IHG, NH Hotels, etc. This portfolio offers geographic and tenant diversification (across 12 European countries) and asset management possibilities via different ownership methods (hotel lease and hotel operating properties).

### 1. Sustained recovery in 2021

Continued lockdowns weighed on hotels performances at the beginning of the year, but the roll-out of the vaccination campaign coupled with the gradual lifting of restrictions and the lower impacts of Covid-19 waves led to accelerate the recovery from second half of the year.

- ▶ In Europe, the **hotel recovery** was sustained in H2, RevPar rebounding from -66% (vs 2019) in June to -36% in December.
- ▶ The summer performance confirmed the **strong rebound** in countries with a large domestic clientele, notably France and Germany, which account for 57% of Hotel's revenues, and testified to the good fundamentals of the hotel industry, particularly the leisure segment.
- ▶ Compared to its European neighbors, **France** and Paris in particular, recorded a strong recovery throughout the second half of the year, with RevPAR up 110% between July and November 2021, demonstrating that, in addition to leisure, business customers have also recovered rapidly.
- ▶ German growth was interrupted in November with the introduction of new restrictions (RevPar down 63% vs. 2019). Still below 2019 levels, some other European countries benefited more from the recovery in H2:

**Rebound in performances (RevPar) in H2 2021 vs. 2019**

- ▶ On the investment side, the volume of transactions recorded in Europe in 2021 amounts to €16 billion, an increase of 59% compared to 2020 (€10 billion investment volume).
- ▶ The UK and Germany represent respectively 30% and 14% of the transactions, with relatively stable average prices per room (from €200,000 to €250,000).
- ▶ Spain accounted for 15% of total transactions (vs. 6% in 2019): the number of assets exchanged appears stable compared to 2019 (c. 50 assets), but prices were much higher (€210,000 per room on average vs. €143,000 in 2019). The second half of the year accounted for 67% of total transaction volume.

Assets not wholly owned by Covivio Hotels include:

- 8 operating properties in Germany (94.9% owned)
- 90 B&B assets in France (50.2%)
- 11 B&B assets in Germany (93.0%)
- 8 B&B assets in Germany, 5 of them 84.6% held and the other 3, 90.0% held
- 2 Motel One assets in Germany (94.0%)
- Club Med Samoëns (50.1%) under disposal agreement
- 32 AccorInvest assets in France (30 assets) and Belgium (2 assets), 31.2% (26 assets) and 33.3% (6 assets) owned respectively

<sup>1</sup> LfL: Like-for-Like

Hotel revenues increased by +40% in 2021 (+€22.8 million Group share) compared to 2020, due to:

▶ **Leased hotels:**

- The **AccorInvest hotel portfolio** (22% of the hotel portfolio), which is indexed on hotel turnover, increased by 69% like-for-like compared to 2020, due to the suspension of restrictions in Europe in the third quarter of 2021. These midscale and economy hotels are located in France and Belgium.
- **Hotels located in the UK** (13% of the hotel portfolio): We note a reversal of booked rents of €12 million (vs 0M 2020) thanks to the re-opening in the summer 2021.
- **Other leases:** increase of €6.8 million Group share mainly due to the integration of an acquisition in September 2020. On a like-for-like basis the -1% performance is explained by free-rent periods granted to sustain our tenants.

- ▶ **Operating hotels:** mainly located in Germany and in the north of France. The increase is due to the less restrictive health measures in the summer of 2021. However, France recorded better performance thanks to its health crisis management (+630% vs 2020) than Germany (+49% vs 2020).

**Collection rate:** 96% for hotels excluding rent free and deferred payment.

### 3. Annualized revenue

At the end of December 2021, Covivio held a unique hotel portfolio of €2.6 billion (€6.6 billion at 100%) in Europe. This strategic portfolio is characterised by:

- **High-quality locations:** average Booking.com location grade of 8.8/10.
- **Diversified portfolio:** in terms of countries (12 countries, none representing more than 33% of the total portfolio), and segment (69% economic/midscale and 31% upscale).
- **Major hotel operators** with long-term leases: 16 hotel operators with an average lease duration of 13.3 years.

The portfolio value decreased by -0.3% Like-for-Like a mix of:

- 1- **Value adjustments on the UK portfolio (13% of hotels):** a -6.5% decrease was accounted during H1 on these 12 assets leased to IHG. Values remained stable during H2 (+0.1%) and take into consideration the new lease agreement found with IHG.
- 2- **Slight increase on other leased assets (+0.9%):** resilience on these assets, in line with the high margin on new disposal agreements and slightly better visibility on Accor variable rent cash-flows (+0.6%).
- 3- **Stable values on operating portfolio (-0.1%):** resilience on these assets, thanks to excellent locations and start of recovery in H2.

**France Offices:** decrease mainly due to the sale of assets.

**Italy Offices:** decrease due to the disposals in secondary locations outside Milan.

**Germany Offices:** -€5.9 million due to the one-off indemnity received from Wework in 2020.

**German Residential:** increase driven by acquisition and continuing rental growth.

**Hotels in Europe:** increase in variable revenues in H2 following the recovery in the activity.

- ▶ **EBITDA from the hotel operating activity and flex-office:** The first 4 months of 2021, the hotel activity remained heavily impacted by the health crisis and various government restrictions. The recovery was sustained in the 2nd half of 2021. The flex-office activity increased slightly thanks to the ramp-up of this activity and the opening of new spaces in Milan.
- ▶ **Income from other activities:** net income from other activities comes from the income generated by the property development activity (€15 million), asset and development fees on partnerships (€22 million) and marginally by car park activity (€5.2 million).
- ▶ **Net operating costs:** -€77.6 million including +€25.1 million in property management fees. Net operating costs decreased by €1.1 million (-21.8%) due to savings on staff costs and travel expenses.
- ▶ **Amortisation of operating assets:**  
Note that this item includes the amortisation linked to the right of use according to IFRS 16. This amortisation of right of use is mainly related to owner-occupied buildings and headquarters. The increase for the year is mainly due to a refurbishment in our own-occupied building (Gobelins operated under our Wellio flexible workspace brand).
- ▶ **Net change in provision and other:**  
Before the application of IFRS 16, ground lease expenses and ground lease recharge were reported within net rental income. Because of the application of IFRS16 “Leases”, there is no longer a ground lease expense (this expense is replaced by an interest charge), therefore the ground lease recharge is reported under “Net change in provision and other” so as to not artificially increase Net rental income. During 2020 there was no ground lease recharge in UK companies whereas the amount is €2.8 million in 2021.
- ▶ **Net income from inventory properties:**  
This item refers to a marginal real estate trading activity, mainly in Italy.
- ▶ **Change in the fair value of assets:**  
The income statement recognises changes in the fair value (+€553.9 million) of assets based on appraisals carried out on the portfolio.  
This line item does not include the change in fair value of assets recognised at amortised cost under IFRS but is taken into account in the EPRA NAV calculation (hotel operating properties, flex-office assets and other own-occupied buildings).  
For more details on changes in the portfolio by activity, see section 1 of this document.
- ▶ **Income from asset disposals & disposal of securities:**  
Income from asset disposals contributed -€2.5 million during the year. This loss is mainly in Italy Office activity with depreciation of receivables relating to disposal (-€5.6 million).
- ▶ **Income from changes in scope and other:**  
This item negatively impacted the income statement by around -€10.6 million. It includes costs linked to the acquisition of a Germany Offices listed company (squeeze-out costs) and goodwill depreciation tied to the hotel operating activity (-€7.8 million).
- ▶ **Cost of net financial debt:**  
The cost of net financial debt decreased thanks to continuous debt restructuring efforts.
- ▶ **Interest charges linked to finance lease liability:**  
The Group rents some land under long term leasehold. According to IFRS 16, such rental costs are stated as interest charges. The interest charges refer to the hotel activity for an amount equal to -€5.5 million.
- ▶ **Value adjustment on derivatives:**  
The fair value of financial instruments (hedging instruments) is positively impacted by an average 50 bps increase in the long term interest rates. For the year, the P&L impact is a revenue of +€86.4 million, while for 2020 it was -€79.5 million.

The equity affiliates include Hotels in Europe and the France Offices sectors:

- ▶ OPCI Covivio Hotels: two hotel portfolios, Campanile (32 hotels) and AccorHotels (39 hotels) 80%-owned by Crédit Agricole Assurances.
- ▶ Lénovilla: the New Vélizy campus (47,000 m<sup>2</sup>), let to Thalès and co-owned with Crédit Agricole Assurances.
- ▶ Euromed in Marseille: one office building (Calypso) and a hotel (Golden Tulip) in partnership with Crédit Agricole Assurances. One office building (Astrolabe) has been sold in the first half of 2021.
- ▶ Cœur d'Orly in Greater Paris: two buildings in the Orly airport business district in partnership with ADP.
- ▶ Bordeaux Armagnac: development project, delivered in 2019 in partnership with Icade, of three buildings near the new high-speed train station. In early 2022, the partnership has been closed by exchanging the respective interests in the assets. Covivio owns since January 2022 100% of one office building.
- ▶ Phoenix hotel portfolio: 32% stake held by Covivio Hotels (43.8% subsidiary of Covivio) in a portfolio of 32 Accor Invest hotels in France & Belgium.

**Taxes**

The corporate income tax corresponds to the tax on:

- ▶ Foreign companies that are not or are only partially subject to a tax transparency regime (Italy, Germany, Belgium, the Netherlands, United Kingdom and Portugal).
- ▶ French subsidiaries with a taxable activity.

The corporate income tax amounted to -€23.5 million, including taxes on sales (-€16 million).

- ▶ The restatement of the amortisation of operating assets (+€29.1 million) offsets the real estate amortisation of the flex-office and hotel operating activities.
- ▶ The restatement of the net change in provisions (-€2.9 million) consists of the ground lease expenses linked to the UK leasehold.
- ▶ There was a €4.3 million impact on the cost of debt due to early debt restructuring costs.
- ▶ Concerning the interest charges linked to finance lease liabilities relating to the UK leasehold, as per IAS 40 §25, €4.2 million was cancelled and replaced by the lease expenses paid (see the amount of -€2.9 million under the line item "Net change in provisions and other").
- ▶ The restatement of the share in earnings of affiliates allows for the EPRA earnings contribution to be displayed.
- ▶ The restatement of the corporate income tax (+€16 million) is linked to the tax on disposals.

<b>Total Fixed Assets</b>	<b>16,737</b>	<b>17,337</b>	<b>600</b>

The decrease in **France Offices** (-€26 million) was mainly due to the disposals (-€314 million) and the depreciation tied to own-occupied buildings (-€11 million), partly offset by +€232.3 million of CAPEX and the change in fair value (+€69 million).

**In Italy Offices**, the change (-€96 million) was mainly due to disposals for the year (-€173 million), the slight decrease in fair value (-€2 million) due to the negative performance on assets outside Milan and non-strategic retail assets, offset by the CAPEX & acquisition of the year (+€86.8 million).

The increase in **German Residential** (+€762 million) was mainly due to the growth in fair value (+€529 million), CAPEX and acquisitions (+€234.6 million), offset by disposals for the year (-€63.6 million) and transfer from inventories (development activity) to investment properties (+€6.9 million).

**German Offices** (-€43 million) was mainly due to the change in fair value (-€28 million).

The decrease in the **Hotels in Europe portfolio** (+€13 million) was mainly driven by the disposals (-€30 million) and the change in fair value (-€14 million), offset by foreign currency exchange gains mainly in the UK portfolio (+€30 million) and the CAPEX (+€33.6 million).

▶ **Assets held for sale (included in the total fixed assets above), €505 million at the end of December 2021**

Assets held for sale consists of assets for which a preliminary sales agreement has been signed. The breakdown by segment is as follow:

- 74.3% of offices in France (mostly Carré Suffren and Eiffage campus).
- 8.7% of offices in Italy.
- 8% of hotels in Europe.
- 6.4% of parking.

▶ **Total Group shareholders' equity**

Shareholders' equity increased from €8,582 million at the end of 2020 to €9,194 million at 31 December 2021, i.e +€612 million, mainly due to:

- Income for the period: +€924 million.
- The dividend distribution: -€339.6 million.
- Change in detention rate: +€23 million.
- Change in Other Comprehensive Income +€0.6 million.

▶ **Deferred tax liabilities**

Net deferred taxes represent €675.8 million in liabilities versus €601.2 million on 31 December 2020. This €74.6 million increase is mainly due to the growth of appraisal values in Germany (+€84 million).

## 4. FINANCIAL RESOURCES

### Summary of the financial activity

Covivio is rated BBB+ with a stable outlook by S&P.

At end- 2021, Covivio's Loan-to-Value (LTV) ratio is down by 2pts vs 2020 at 39% (LTV policy < 40%) thanks to active portfolio rotation and strong value growth in German residential. Average cost of debt continues to decrease, at 1.20%, and maturity of debt is stable at 5.4 years.

The liquidity position is also strong, with €2.1 billion available at end-December 2021 on Covivio SA, including €1.3 billion of undrawn credit lines and €0.8 billion of cash.

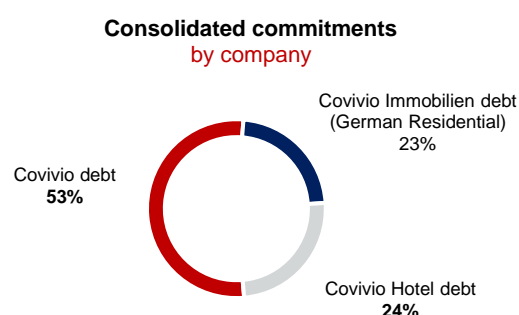

### 4.1. Main debt characteristics

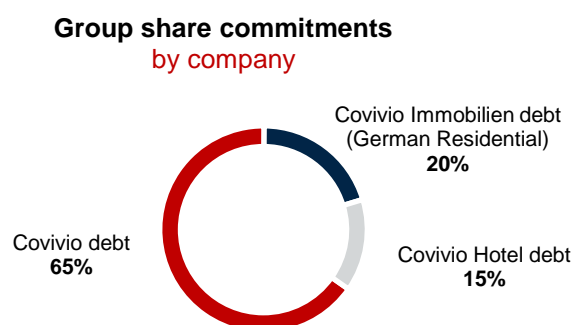

Group share	31 Dec. 2020	31 Dec. 2021
Net debt, Group share (€ million)	7,861	7,799
Average annual rate of debt	1.29%	1.20%
Average maturity of debt (in years)	5.7	5.4
Debt active hedging average rate	81%	78%
Average maturity of hedging	6.5	6.8
LTV including duties	40.9%	39.1%
ICR	6.1	6.7

### 4.2. Debt by type

Covivio's net debt stands at €7.8 billion in Group share at end-2021 (€10.8 billion on a consolidated basis), €0.1 billion lower compared to end-2020.

As regards the commitments attributable to the Group, the share of corporate debts (bonds and loans) grows up to 55% at end-December 2021. Additionally, Covivio had €1.5 billion in commercial paper outstanding at 31 December 2021.

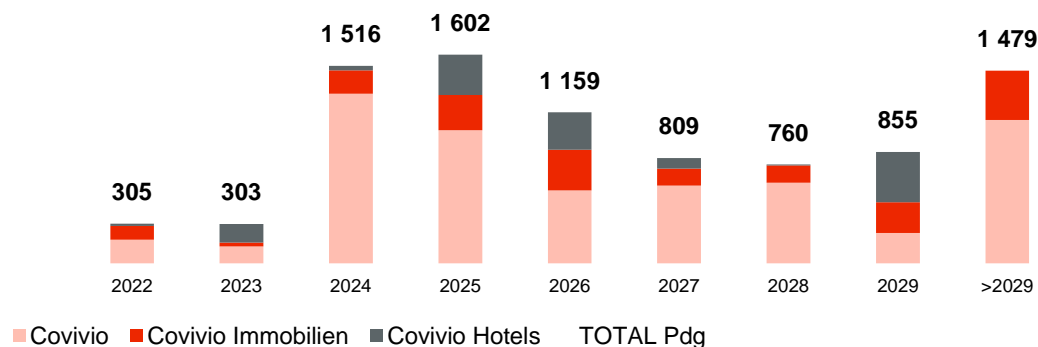

### 4.3. Debt maturity

The average maturity of Covivio's debt stands at 5.4 years at end-December 2021 (excluding commercial paper). Until 2024, there is no major maturity that has not already been covered or is already under renegotiation.

The next large maturities occur in 2024 and are mainly composed of a bond of €300 million and a mortgage debt of €285 million Group share linked to the Telecom Italia portfolio.

**Debt amortization schedule by company**  
€ million (Group share)

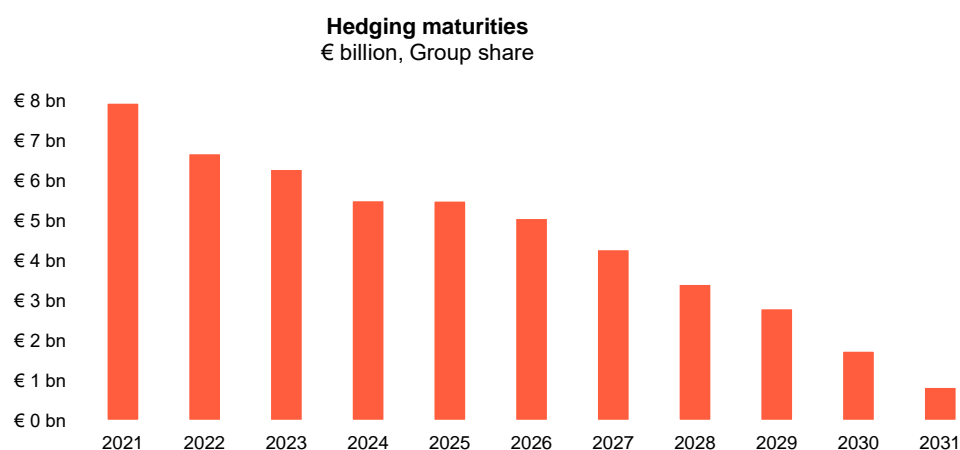

<sup>1</sup> Excluding commercial papers

### 4.4. Hedging profile

At end-December 2021, the hedging management policy remained unchanged, with debt hedged at 85% on average over the year, at least 75% of which through short-term hedges, and all of which with maturities equivalent to or exceeding the debt maturity.

Based on net debt at 31 December 2021, Covivio is hedged at 84% with an average term of the hedges of 6.8 years Group share.

#### 4.5. Average interest rate on debt and sensitivity

The average interest rate on Covivio's debt decreased again by 9 bps to 1.20% in Group share. For information purposes, an increase of 25 basis points in the three-month Euribor rate would have a negative impact of 1.2% on the adjusted EPRA Earnings.

#### Financial structure

Excluding debts raised without recourse to the Group's property companies, the debts of Covivio and its subsidiaries generally include bank covenants (ICR and LTV) applying to the borrower's consolidated financial statements. If these covenants are breached, early debt repayment may be triggered. These covenants are established on a Group share basis for Covivio and Covivio Hotels and the other subsidiaries of Covivio (if their debt includes them).

- ▶ The most restrictive consolidated LTV covenants amounted, at 31 December 2021, to 60% for Covivio and Covivio Hotels.
- ▶ The most restrictive ICR consolidated covenants applicable to the REITs, at 31 December 2021, are of 200% for Covivio and Covivio Hotels.

With respect to Covivio Immobilien (German Residential), for which almost all of the debt raised is "non-recourse" debt, portfolio financings do not contain any consolidated financial covenants.

Lastly, with respect to Covivio, some corporate credit facilities are subject to the following ratios:

Ratio	Covenant	31 Dec. 2020	31 Dec. 2021
LTV	60.0%	44.1% <sup>1</sup>	42.2% <sup>1</sup>
ICR	200%	605%	672%
Secured debt ratio	25.0%	4.7%	4.8%

<sup>1</sup> Excluding duties and sales agreements

All covenants were fully complied with at year end 2021. No loan has an accelerated payment clause contingent on Covivio's rating, which is currently BBB+, Stable outlook (S&P rating).

### 5.2. Investment assets – Information on leases

Annualized rental income corresponds to the gross amount of guaranteed rent for the full year based on existing assets at the period end, excluding any incentives.

$$\text{Vacancy rate at end of period} = \frac{\text{Market rental value on vacant assets}}{\text{Contractual annualized rents on occupied assets} + \text{Market rental value on vacant assets}}$$

The spread between the vacancy rate excluding the secured area (5.0%) and the EPRA vacancy rate (5.7%) is due to the secured vacant area which are included in the EPRA vacancy as vacant even if already let.

Regarding the German Residential the 175 M€ of ERV doesn't include the potential reversion in all our markets Berlin (20-25%), Hamburg (20-25%), Dresden and Leipzig (10-15%) and in North Rhine-Westphalia (15-20%).

Average metric rents are computed on total surfaces, including land banks and vacancy on development projects.

Valuations are carried out in accordance with the Code of conduct applicable to SIICs and the Charter of property valuation expertise, the recommendations of the COB/CNCC working group chaired by Mr Barthès de Ruyter and the international plan in accordance with the standards of the International Valuation Standards Council (IVSC) and those of the Red Book of the Royal Institution of Chartered Surveyors (RICS).

The real estate portfolio held directly by the Group was valued on 31<sup>st</sup> December 2021 by independent real estate experts such as Cushman, REAG, CBRE, HVS, JLL, BNPP Real Estate, MKG and CFE. This did not include:

- ▶ assets on which the sale has been agreed, which are valued at their agreed sale price
- ▶ assets owned for less than 75 days, for which the acquisition value is deemed to be the market value.

Assets were estimated at values excluding and/or including duties, and rents at market value. Estimates were made using the comparative method, the rent capitalisation method and the discounted future cash flow method.

Car parks were valued by capitalising the gross operating surplus generated by the business.

Other assets and liabilities were valued using the principles of the IFRS standards on consolidated financial statements. The application of fair value essentially concerns the valuation of debt coverages.

For companies co-owned with other investors, only the Group share was considered.

**Fair value assessment of operating properties**

In accordance with IFRS, operating properties are valued at historical cost. To take into account the appraisal value, a €113.9 million value adjustment was recognised in EPRA NRV.

**Fair value adjustment for the car parks**

Car parks are valued at historical cost in the consolidated financial statements. NAV is restated to consider the appraisal value of these assets net of tax. The impact on EPRA NRV was €20.8 million on 31 December 2021.

**Fair value adjustment for own occupied buildings and operating hotel properties**

In accordance with IAS 40, owner-occupied buildings and operating hotel properties are not recognised at fair value in the consolidated financial statements. In line with EPRA principles, EPRA NRV was adjusted for the difference resulting from the fair value appraisal of the assets for €40.2 million. The market value of these assets is determined by independent experts.

#### Fair value adjustment for fixed- rate debts

The Group has taken out fixed-rate loans (secured bond and private placement). In accordance with EPRA principles, EPRA NDV was adjusted for the fair value of fixed-rate debt. The impact was -€39,8 million at 31 December 2021.

#### Recalculation of the base cost excluding duties of certain assets

When a company, rather than the asset that it holds, can be sold, transfer duties are re-calculated based on the company's net asset value (NAV). The difference between these re-calculated duties and the transfer duties already deducted from the value had an impact of €35.1 million at 31 December 2021.

#### Deferred tax liabilities

The EPRA NTA assumes that entities buy and sell assets, thereby crystallising certain levels of unavoidable deferred tax.

For this purpose, the Group uses the following method:

- **Offices:** takes into account 50% of deferred tax considering the regular asset rotation policy,
- **Hotels:** takes into account deferred tax on the non-core part of the portfolio, expected to be sold within the next few years
- **Residential:** includes the deferred tax linked to the building classified as Assets available held for sale, considering the low level of asset rotation in this activity.

## 7. GLOSSARY

▶ **Net asset value per share (NRV/share), NTA and NDV per share**

NRV per share (NTA and NDV per share) is calculated pursuant to the EPRA recommendations, based on the shares outstanding as at year-end (excluding treasury shares) and adjusted for the effect of dilution.

▶ **Operating assets**

Properties leased or available for rent and actively marketed.

▶ **Rental activity**

Rental activity includes mention of the total surface areas and the annualized rental income for renewed leases, vacated premises and new lettings during the period under review.

For renewed leases and new lettings, the figures provided take into account all contracts signed in the period so as to reflect the transactions completed, even if the start of the leases is subsequent to the period.

Lettings relating to assets under development (becoming effective at the delivery of the project) are identified under the heading "Pre-lets".

▶ **Cost of development projects**

This indicator is calculated including interest costs. It includes the costs of the property and costs of construction.

▶ **Definition of the acronyms and abbreviations used:**

MRC: Major regional cities, i.e. Lyon, Bordeaux, Lille, Aix-Marseille, Montpellier, Nantes and Toulouse

ED: Excluding Duties

ID: Including Duties

IDF: Paris region (Île-de-France)

ILAT: French office rental index

CCI: Construction Cost Index

CPI: Consumer Price Index

RRI: Rental Reference Index

PACA: Provence-Alpes-Côte-d'Azur

LFL: Like-for-Like

GS: Group share

CBD: Central Business District

Rtn: Yield

Chg: Change

MRV: Market Rental Value

▶ **Firm residual term of leases**

Average outstanding period remaining of a lease calculated from the date a tenant first takes up an exit option.

▶ **Green Assets**

“Green” buildings, according to IPD, are those where the building and/or its operating status are certified as HQE, BREEAM, LEED, etc. and/or which have a recognised level of energy performance such as the BBC-effinergieR, HPE, THPE or RT Global certifications.

▶ **Unpaid rent (%)**

Unpaid rent corresponds to the net difference between charges, reversals and irrecoverable loss of income divided by rent invoiced. These appear directly in the income statement under net cost of irrecoverable income.

▶ **Loan To Value (LTV)**

The LTV calculation is detailed in Part 4 “Financial Resources”

▶ **Rental income**

Recorded rent corresponds to gross rental income accounted for over the year by considering deferment of any relief granted to tenants, in accordance with IFRS standards.

The like-for-like rental income posted allows comparisons to be made between rental income from one year to the next, before taking changes to the portfolio (e.g. acquisitions, disposals, building works and development deliveries) into account. This indicator is based on assets in operation, i.e. properties leased or available for rent and actively marketed.

Annualized “topped-up” rental income corresponds to the gross amount of guaranteed rent for the full year based on existing assets at the period end, excluding any relief.

▶ **Portfolio**

The portfolio presented includes investment properties, properties under development, as well as operating properties and properties in inventory for each of the entities, stated at their fair value. For the hotel operating properties it includes the valuation of the portfolio consolidated under the equity method. For offices in France, the portfolio includes asset valuations of Euromed and New Vélizy, which are consolidated under the equity method.

▶ **Projects**

- Committed projects: these are projects for which promotion or construction contracts have been signed and/or work has begun and has not yet been completed at the closing date. The delivery date for the relevant asset has already been scheduled. They might pertain to VEFA (pre-construction) projects or to the repositioning of existing assets.
- Managed projects: These are projects that might be undertaken and that have no scheduled delivery date. In other words, projects for which the decision to launch operations has not been finalised.

► **Yields/return**

The portfolio returns are calculated according to the following formula:

$$\frac{\text{Gross annualized rent (not corrected for vacancy)}}{\text{Value excl. duties for the relevant scope (operating or development)}}$$

The returns on asset disposals or acquisitions are calculated according to the following formula:

$$\frac{\text{Gross annualized rent (not corrected for vacancy)}}{\text{Acquisition value including duties or disposal value excluding duties}}$$

► **EPRA Earnings**

EPRA Earnings is defined as "the recurring result from operating activities". It is the indicator for measuring the company's performance, calculated according to EPRA's Best Practices Recommendations. The EPRA Earnings per share is calculated using the average number of shares (excluding treasury shares) over the period under review.

Calculation:

- (+) Net Rental Income
- (+) EBITDA of hotels operating activities and *Coworking*
- (+) Income from other activities
- (-) Net Operating Costs (including costs of structure, costs on development projects, revenues from administration and management)
- (-) Depreciation of operating assets
- (-) Net change in provisions and other
- (-) Cost of the net financial debt
- (-) Interest charges linked to finance lease liability
- (-) Net change in financial provisions
- (+) EPRA Earnings of companies consolidated under the equity method
- (-) Corporate taxes
- (=) EPRA Earnings**

► **Surface**

SHON: Gross surface

SUB: Gross used surface

▶ **Debt interest rate**

Average cost:

$$\frac{\text{Financial Cost of Bank Debt for the period} + \text{Financial Cost of Hedges for the period}}{\text{Average cost of debt outstanding in the year}}$$

Spot rate: Definition equivalent to average interest rate over a period of time restricted to the last day of the period.

▶ **Occupancy rate**

The occupancy rate corresponds to the spot financial occupancy rate at the end of the period and is calculated using the following formula:

1 - Loss of rental income through vacancies (calculated at MRV)

rental income of occupied assets + loss of rental income

This indicator is calculated solely for properties on which asset management work has been done and therefore does not include assets available under pre-leasing agreements. Occupancy rate are calculated using annualized data solely on the strategic activities portfolio. Future leases secured on vacant spaces are accounted for as occupied.

The “Occupancy rate” indicator includes all portfolio assets except assets under development.

▶ **Like-for-like change in rent**

This indicator compares rents recognised from one financial year to another without accounting for changes in scope: acquisitions, disposals, developments including the vacating and delivery of properties. The change is calculated using rental income under IFRS for strategic activities.

This change is restated for certain severance pay and income associated with the Italian real estate (IMU) tax.

Given specificities and common practices in German residential, the Like-for-Like change is computed based on the rent in €/m<sup>2</sup> spot N versus N-1 (without vacancy impact) on the basis of accounted rents.

For operating hotels (owned by FDMM), like-for-like change is calculated on an EBITDA basis

Restatement done:

- Deconsolidation of acquisitions and disposals realised on the N and N-1 periods
- Restatements of assets under works, ie:
  - Restatement of released assets for work (realised on N and N-1 years)
  - Restatement of deliveries of assets under works (realised on N and N-1 years).

▶ **Like-for-like change in value**

This indicator is used to compare asset values from one financial year to the next without accounting for changes in scope: acquisitions, disposals, developments including the vacating and delivery of properties.

The like-for-like change presented in portfolio tables is a variation taking into account CAPEX works done on the existing portfolio. The restated like-for-like change in value of this work is cited in the comments section. The current scope includes all portfolio assets.

Restatement done:

- Deconsolidation of acquisitions and disposals realised over the period
- Restatement of work realised on assets under development during period N
