

Chargeurs launches a share buyback program for €8 million

Confident in the Group's performance, Chargeurs has decided to launch a share buyback program. Chargeurs has commissioned an investment service provider to carry out the buyback. As part of this commission, the provider will be authorized to purchase Chargeurs shares, depending on market conditions, for up to €8 million, at a maximum price of €30 per share. The program will expire at the latest on October 6, 2023.

The program falls within the scope of the 15th resolution approved by the April 7, 2022 Annual General Meeting which authorizes the buy back of up to 10% of the Group's share capital for a period of 18 months from the date of the General Meeting.

The details of the 2022-2023 share buyback program are presented in a separate press release, issued on April 7, 2022 and available on the Group's website at www.chargeurs.com.
