Press Release

Eiffage, in consortium with Lorraine Énergie and DEF, carries out the work of the technical macro-lot for the restoration of *Notre-Dame de Paris* Cathedral

Eiffage, through its subsidiary Eiffage Énergie Systèmes (project lead), won in consortium with Lorraine Énergie, a company specialised in the area of heating-ventilation-air conditioning, and DEF, French manufacturer of fire safety systems, the technical macro-lot awarded by the public institution *Rebâtir Notre-Dame de Paris*, contracting authority in charge of the restoration of the cathedral.

The project, underway, includes IT installations, safety and technical building management, the suite of high-voltage electricity, heating-ventilation-air conditioning, plumbing as well as the fire safety system and a backup generator.

The consortium is fully committed and determined to contribute to the success of this exceptional project that will lead to the reopening of the cathedral in December 2024.

About Eiffage

Eiffage is one of Europe's leading construction and concessions companies. The Group's activities are organised around the following business lines: construction, real estate and urban development, civil engineering, metal, roads, energy and concessions. Thanks to the experience of more than 76,300 employees, Eiffage generated revenue of €20.3 billion in 2022, of which 30% was outside France.

About Eiffage Énergie Systèmes

Eiffage Énergie Systèmes designs, builds, operates and maintains electrical, industrial, HVAC and energy systems and facilities while respecting people and protecting the environment. Eiffage Énergie Systèmes provides a customised offer for the industrial, infrastructure and network markets, local authorities and the commercial sector. Eiffage Énergie Systèmes generated revenue of €5.3 billion in 2022.
