About Entech

Faced with the technological challenges posed by the strong growth of new energies within the energy mix, Entech enables the massive integration of renewable energies and access to energy thanks to storage and electrical conversion solutions controlled by intelligent software systems.

Builder of the new energies, Entech develops, builds and operates production plants and storage systems – batteries or hydrogen – on-grid or off-grid. Founded in Quimper in 2016, Entech has already completed more than 300 projects worldwide and today employs 175 people.

Selected in 2021 by “La French Tech” in its Green20 program and recognized by numerous awards for its capacity to innovate in supporting the energy transition, Entech is committed to acting on a daily basis as a responsible company, not only from an environmental point of view but also from a social and societal one.
