

## Biophytis at the Forefront of Longevity Innovation at the World Aging & Rejuvenation Conference 2025

**Paris (France) and Cambridge (Massachusetts, USA), July 8, 2025 – 7:00 AM (CET)**

Biophytis SA, a pioneering force in the development of transformative therapies for obesity, sarcopenia, and longevity, today announces its participation in the 7th edition of the World Aging & Rejuvenation Conference (ARC 2025), to be held in Vienna, Austria, from July 9 to 10, 2025.

As part of this internationally renowned event dedicated to aging and longevity, Dr. Cendrine Tourette, Global project lead at Biophytis, will deliver an oral presentation entitled *"Biophytis BIO101 in age-related sarcopenia: results of the SARA program"* on July 9 at 4:40 PM.

Her presentation will highlight the central role of Biophytis' lead drug candidate BIO101 in fighting sarcopenia, with the goal of preserving mobility and improving quality of life in aging populations.

Building on these results, Biophytis aims to expand its footprint in the fast-growing longevity market, driven by rising global demand for innovative treatment solutions.

ARC 2025 represents a strategic platform for Biophytis to strengthen its scientific visibility, validate its clinical roadmap, and accelerate the formation of high-value scientific and commercial partnerships. The company intends to reaffirm its position among Europe's most dynamic biotech players in the field of longevity.

### About ARC

Organized by Innovinc International, the World Aging and Rejuvenation Conference (ARC) brings together high-level speakers from a range of disciplines to advance scientific understanding of longevity. The 2025 edition will feature a dedicated platform focused on healthy aging. It offers participants a unique opportunity to develop new research ideas, expand professional networks, and foster interdisciplinary and international collaborations.
