

Press release
20 April 2026

Implementation of share buyback programme

Within the framework of implementation of its share buyback programme authorised by the Combined General Meeting of Shareholders on 24 April 2025 (5th resolution), ENGIE appointed an investment services provider (ISP), pursuant to a contract entered into on 20 April 2026, to assist it in acquiring a maximum of 4,500,000 ENGIE shares over a period of 20 days commencing on 5 May 2026 (subject to extension in accordance with the provisions of the contract). The performance of the contract is subject to authorisation by the Combined General Meeting of Shareholders on 29 April 2026 (5th resolution). The price per share payable by ENGIE will be determined on the basis of the arithmetic mean of the volume-weighted average share prices over the purchase period and will not exceed the maximum purchase price in force at the time the contract is performed.

The shares so repurchased are intended to cover ENGIE's obligations under an employee share plan and may be cancelled, in whole or in part.

About ENGIE

ENGIE is a major player in the energy transition, whose purpose is to accelerate the transition towards a carbon-neutral economy.
