2CRSi signs a contract over 2M\$ with its Godi 1.8 SR-NV8

Strasbourg (France), November 23, 2023 - 2CRSi, designer and manufacturer of high-performance, energy-efficient computer servers, announces the signing of a \$2M worth contract with one of the most promising AI company in the United States

A month after the launch of 2CRSi latest GPU platform dedicated to intensive AI training workloads, sales are piling up.

Driven by the success of NVIDIA SXM5 H100 success, sales of the Godi 1.8SR-NV8 are set to drive significant revenues for 2CRSi Group on the period.

One of the most promising American AI Startup, specialised in text to speech application converting text in high quality audio, has chosen 2CRSi to build and deploy Godi 1.8SR-NV8 machines for the first quarter 2024.

This deployment will help their developer team taking advantage of the latest NVIDIA's technology to train their proprietary algorithm model, improving their service for years to come.

Interest and necessity for the Godi 1.8SR-NV8 technology becoming so important, the client recently increased his purchase to reach more \$2 million for first delivery in end of Q1 2024.

"For me, this order has two remarkable aspects.

First, it confirms, once again, our decision to focus on high-performance AI computing solutions, in an HPC market segment where we are clearly one of the technological leaders.

Secondly, I'm also very proud that our high-end AI products are helping, at every moment, to erase reading difficulties for the thousands of users of this application", says Alain Wilmouth, founder and CEO of 2CRSi.
