2CRSi: appointment of Philippe Jeannot as Deputy Chief Executive Officer

Strasbourg (France), 3 July 2023 - 2CRSi, a designer and manufacturer of high-performance energy-efficient computer servers, announces the appointment of Philippe Jeannot as Deputy Chief Executive Officer.

This appointment is made as the 2CRSi group begins to refocus on its historical core business, the design and manufacture of servers. As an engineer by training, and having spent the majority of his career in the manufacturing and BtoB sectors, Philippe Jeannot's appointment is part of this strategic refocusing initiative.

As part of his new role, Philippe Jeannot will manage the entire Group and its subsidiaries and will be responsible for all operational, administrative and sales activities. His main tasks will be to improve the business model and processes, to align the business lines and make them more reliable, and to unite, develop and support the teams. He will also be a member of the executive committee and will report directly to Alain Wilmouth, Chairman and Chief Executive Officer of 2CRSi, who will be able to focus on implementing the strategy and on priority development projects, particularly innovative and international projects.

A graduate of Ecole Centrale Paris, Philippe Jeannot has more than 30 years' experience in management positions with mid-caps operating in a variety of sectors, but particularly in the manufacturing sector (TSA Industries, Cosma Experts, Alternium, Hypred, etc.)

"I am very pleased to be joining the 2CRSi group, and look forward to taking the opportunity to support its industrial refocusing. I hope that my experience will be of benefit to the teams. As can be seen from my career path, I am committed to improving processes, supporting company transformations and helping to improve their long-term performance," says Philippe Jeannot.

About 2CRSi

Founded in Strasbourg (France), 2CRSi group develops, produces and sells customised, high-performance and environmentally-friendly servers. In the 2022-2023 financial year, the Group generated revenue of €183.8 million. The Group today has around 390 employees and markets its offer of innovative solutions (processing, storage and network) in more than 50 countries. 2CRSi has been listed since June 2018 on the regulated market of Euronext in Paris (ISIN: FR0013341781) and its shares were transferred to the regulated market Euronext Growth on 25 November 2022.
