

PRESS RELEASE

SINGTEL EXTENDS MVSAT NETWORK GLOBALLY VIA SES NEW SKIES SATELLITES

SingTel's Maritime VSAT services launch on global beams of NSS-7, NSS-703 and NSS-5

Singapore, June 18, 2008 – SES NEW SKIES, an SES company (Euronext Paris and Luxembourg Stock Exchange: SESG), announces that Singapore Telecommunications Limited (SingTel), Asia's leading telecommunications group, is extending its suite of maritime satellite solutions globally by contracting capacity on SES NEW SKIES' NSS-7, NSS-703 and NSS-5 satellites. Terms of the three-year deal for up to 5MHz of capacity over the three satellites remain confidential.

Mr. Titus Yong, SingTel's Vice President of Satellite, said: "SingTel, one of Asia's leading satellite service providers, has been providing VSAT services with regional coverage for over two years. We are pleased to work with a top-tier global satellite service provider such as SES NEW SKIES to extend our reach to provide seamless and secure worldwide coverage over all major shipping routes."

The SES NEW SKIES satellites will also support demand for SingTel's OfficeAtSea@SingTel suite of Maritime VSAT solutions, which enable vessels to communicate seamlessly and cost-effectively with their headquarters on land. Solutions include 'always-on' unlimited broadband internet access, email, low-cost Voice over IP (VoIP) calls, GSM onboard and ship surveillance. These overcome the limitations of traditional maritime communications by allowing the ship to become a seamless extension of the shore-based office.

States Elias Zaccack, Vice President of Sales Asia Pacific at SES NEW SKIES: "SingTel is packaging its extensive maritime satellite solutions with SES NEW SKIES' global and ubiquitous satellite reach to offer seamless and complete telecommunications solutions to vessels and offshore operations. We look forward to working with SingTel to provide coverage for 'OfficeATSea@SingTel' over all major shipping routes worldwide."

About NSS-7

NSS-7 is a state-of-the-art, hybrid Ku- and C-band satellite located at 338° East over the Atlantic Ocean, providing coverage of Europe, Africa, the Middle East, and the Americas. NSS-7 is located at one of the hottest orbital locations for trans-Atlantic connectivity as well as internet connectivity from North America into Europe, the Middle East and Africa.

About NSS-703

NSS-703 at 57° East provides vital cross-connectivity for Europe, Africa and Asia. NSS-703's coverage includes a global beam, and two C-band hemispheric beams, which cover Africa and the triangle from the Middle East to Japan and Australia, including all of India and China.

About NSS-5

NSS-5 is SES NEW SKIES' principal connectivity satellite for the Pacific Ocean Region. Located at the prime orbital location of 183° East (177° West), NSS-5 is one of the few satellites that can connect North America with all major destinations in the Pacific Rim.

About SES NEW SKIES

SES NEW SKIES is an SES company (Euronext Paris and Luxembourg Stock Exchange: SESG) offering satellite communication services to a range of customers including telecommunications providers, broadcasters, corporations and governments around the world. SES NEW SKIES has a global fleet of seven satellites in orbit, with three additional spacecraft under construction (NSS-9, NSS-12 and NSS-14) and ground facilities around the world.

Headquartered in The Hague, the company has offices in Johannesburg, Sao Paulo, Singapore, Sydney and Washington, D.C. In addition to SES NEW SKIES, SES wholly owns the market-leading satellite operators SES ASTRA in Europe and SES AMERICOM in North America, 90% of SES SIRIUS in Europe, and strategic participations in Ciel in Canada and Quetzsat in Mexico. SES provides outstanding satellite communications solutions via a global fleet of 38 satellites in 25 orbital locations. Further information on the company is available at www.ses-newskies.com and on SES at www.ses.com

About SingTel

SingTel is Asia's leading communications group with operations and investments around the world. Serving both the corporate and consumer markets, it is committed to bringing the best of global communications to customers in the Asia Pacific and beyond.

With significant operations in Singapore and Australia (through wholly-owned subsidiary SingTel Optus), the Group provides a comprehensive portfolio of services that include voice and data services over fixed, wireless and Internet platforms.

To serve the needs of multi-national corporations, SingTel has a network of 37 offices in 19 countries and territories throughout Asia Pacific, Europe and the United States. These offices enable SingTel to deliver reliable and quality network solutions to its customers, either on its own or jointly with local partners.

The Group also has major investments in Bangladesh, India, Indonesia, Pakistan, the Philippines and Thailand. Together with its regional partners, SingTel is Asia's largest multi-market mobile operator, serving more than 185 million customers in eight markets.

SingTel employs more than 20,000 people worldwide and had a turnover of S\$14.84 billion (US\$10.05 billion) and net profit after tax of S\$3.96 billion (US\$2.68 billion) for the year ended 31 March 2008. More information can be found @ www.singtel.com and www.optus.com.au.
