Adecco to acquire professional staffing firm MPS Group

The acquisition significantly strengthens Adecco's professional staffing business, making Adecco the world leader in this attractive market segment

Zurich, Switzerland, October 20, 2009: Adecco Group, the world's leading provider of HR solutions, announced today the acquisition of MPS Group, Inc. ('MPS Group'), a leading provider of professional staffing services, for an enterprise value of EUR¹ 782 million, or USD 13.80 per share. This acquisition will significantly enhance Adecco's position in the professional staffing business, particularly in the USA & Canada and the UK. Adecco expects the transaction to be accretive on an adjusted EPS³ basis in the first year and EVA⁴ positive within three years.

Patrick De Maeseneire, Chief Executive Officer of the Adecco Group, comments: *"We are delighted to have MPS Group become part of the Adecco Group, in a move that will see Adecco taking the world-wide lead in professional staffing. The acquisition of MPS Group is an important step in Adecco's stated strategy to strengthen the higher margin professional staffing business, which offers attractive growth over the coming years. With this transaction and the successful closing of the Spring Group acquisition, Adecco's revenue mix is significantly improved with close to 25% of group revenues to be generated in the professional staffing business. This is up from 17% of group revenues based on 2008 results."*

MPS Group is a leading provider of specialty staffing, consulting, and business solutions across various professional business lines such as information technology (Modis, Idea Integration), finance and accounting (Accounting Principals and UK-based Badenoch & Clark), legal (Special Counsel), engineering (Entegeer) and healthcare (Soliant Health). MPS Group is one of the largest professional staffing firms in North America and also has a strong position in the UK. In 2008, MPS Group generated revenues of EUR² 1.5 billion. MPS Group achieved an average EBITDA margin of 6.3% between 2004 and 2008.

Joining forces with MPS Group will provide Adecco with a platform to significantly expand its professional staffing business in the USA & Canada and the UK. Together, Adecco and MPS Group provide compelling staffing solutions to small & medium-size and large account clients in the USA & Canada and UK.

Additionally, acquiring MPS Group enhances Adecco's Managed Service Program (MSP) and Recruitment Process Outsourcing (RPO) offering through MPS Group's leading technology platform (Beeline). Together, both companies will become the leading provider of MSP and RPO services and technology solutions. The flexibility to offer services, technology or combined programs is increasingly becoming a strategic advantage within the HR industry as clients seek to outsource HR processes and to streamline their supplier relationships.

Adecco expects the transaction to be accretive on an adjusted EPS³ basis in the first year after closing. The acquisition will be EVA⁴ positive within three years, in line with Adecco's value based strategy and financial discipline.
