PART A – CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Offering Circular dated May 8, 2009 and the supplemental Offering Circular dated 23 October 2009, relating to a recent development (the 'Offering Circular'), which together constitute a base prospectus for the purposes of the Prospectus Directive (Directive 2003/71/EC) (the 'Prospectus Directive'). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Offering Circular, as so supplemented. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Offering Circular. The Notes will be issued on the terms of these Final Terms read together with the Offering Circular. Each Issuer accepts responsibility for the information contained in these Final Terms which, when read together with the Offering Circular, contains all information that is material in the context of the issue of the Notes. The Offering Circular is available for viewing at, and copies may be obtained from, Rabobank Nederland at Croeselaan 18, 3521 CB Utrecht, the Netherlands and the principal office in England of the Arranger and of the Paying Agent in Luxembourg, Amsterdam and Paris and www.bourse.lu.

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the notes and the impact this investment will have on the potential investor's overall investment portfolio.

A Dutch language description of the principal terms of the Notes is contained in Annex I hereto and a Belgian tax paragraph is contained in Annex II hereto.

DUTCH LANGUAGE DESCRIPTION

NEDERLANDSTALIGE BESCHRIJVING VAN DE UITGIFTE VAN EUR 100,000,000 FLOATING RATE NOTES 2009 DUE 4 DECEMBER 2016 (RABO VARIABLE COUPON OBLIGATIE 4)

Onder het EUR 110.000.000.000 Global Medium-Term Note Programme geeft Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A. (Rabobank Nederland) (hierna Rabobank Nederland) nominaal EUR 100,000,000 Floating Rate Notes 2009 due 4 December 2016 (Rabo Variabele Coupon Obligatie 4) (de "Obligatie").

De volledige leningsvoorwaarden voor de Obligatie worden uiteengezet in het Engelstalige offering circular gedateerd 8 mei 2009 en het offering circular supplement gedateerd 23 oktober 2009 (hierna tezamen het Basis Prospectus). De Engelstalige Final Terms, gedateerd 2 november 2009 (hierna de Definitieve Voorwaarden) dienen tezamen met het Basis Prospectus (tezamen met de Definitieve Voorwaarden, hierna het "Prospectus") te worden gelezen. Potentiële investeerders worden hierbij gewezen op de 'Risk Factors' op pagina's 8 tot en met 15 van het Basis Prospectus. Hieronder volgt een beschrijving van de voornaamste kenmerken van de Obligatie.

De uitgiftedatum voor de Obligatie is gesteld op 4 december 2009. De inschrijvingsperiode begint op 9 november 2009 en eindigt op 27 november 2009 om 15.00 uur (Amsterdamse tijd) (hierna de "Inschrijvingsperiode"). Rabobank Nederland behoudt zich het recht voor om de Inschrijvingsperiode vervroegd te sluiten, te verlengen dan wel aan te passen en om het aanbod tot uiterlijk 10 december 2009, eind van de dag, terug te trekken. Een dergelijke gebeurtenis zal door Rabobank Nederland worden bekend gemaakt via www.raboglobalmarkets.nl.

Indien de inschrijvingen op de Obligatie gedurende de Inschrijvingsperiode het totale nominale bedrag van EUR 100.000.000 overschrijden of onderschrijden, kan Rabobank Nederland het totale nominale bedrag verhogen respectievelijk verlagen. De toewijzing van de Obligatie geschiedt systematisch. Rabobank Nederland behoudt zich het recht voor om een nieuwe serie of tranche van de Obligatie met dezelfde voorwaarden uit te geven die dooréénleverbaar zullen zijn met de thans uit te geven Obligaties.

De Obligatie wordt uitgegeven tegen een uitgifteprijs van 100,25%, zijnde EUR 1.002.50 per Note. Potentiële kopers kunnen per Note van EUR 1.000 nominaal (hierna de "Nominale Waarde") inschrijven. Afwikkeling van de Obligatie vindt plaats via de systemen van Euroclear en Clearstream.

De looptijd van de Obligatie is 7 jaar. De einddatum zal 4 december 2016 (hierna de "Einddatum") zijn. Alle berekeningen vanwege de Obligatie worden gemaakt door de daarvoor aangewezen agent ('Calculation Agent').

Rentevergoeding

De rentevergoeding van de Obligatie wordt vastgesteld op basis van een vaste formule. Deze wordt ieder jaar voor het navolgende jaar gebaseerd op het 3-maands Euribor rentetarief zoals dat twee werkdagen voor de daaropvolgende jaarlijkse renteperiode wordt gepubliceerd op de Reuters pagina EURIBOR01. De rentebetaldag is 4 december van elk jaar, voor de eerste keer op 4 december 2010.

De minimale jaarlijkse rentevergoeding bedraagt daarbij 3% van de nominale waarde. Er is echter ook een maximum aan verbonden: de maximale jaarlijkse rentevergoeding bedraagt 6% van de nominale waarde. Indien het 3-maands Euribor rentetarief meer dan 6% is, ontvangt u dus een rentevergoeding van 6% van de nominale waarde.

De rentebetalingen zijn berekend op basis van het aantal dagen (30/360) maal de vastgestelde rente, met een maximum van 6% en een minimum van 3%.

Aflossing

De Obligatie wordt afgelost op de Einddatum tegen de Nominale Waarde, EUR 1.000.

Risico's

De volgende risico's zijn van toepassing op de Obligatie. Deze opsomming is overigens niet volledig. Lees voor een uitgebreide beschrijving van de risico's van het product het Basis Prospectus.

Renteontwikkeling

Tijdens de looptijd is de waarde van de Obligatie voornamelijk afhankelijk van de renteontwikkeling. De koers van de Obligatie kan door deze of andere renteontwikkelingen variëren. De terugbetaling van de Nominale Waarde van de Obligatie is alleen op de einddatum gegarandeerd. Bij tussentijdse verkoop is dat niet het geval. Een aantal renteontwikkelingen kan een negatief effect op de koers van de Obligatie hebben. Twee voorbeelden van deze renteontwikkelingen worden hierna beschreven. Deze voorbeelden beschrijven slechts twee mogelijke situaties en geven geen volledig beeld van alle mogelijkheden.

Verskil tussen nominale waarde en uitgifteprijs

De uitgifteprijs is 100,25% van de nominale waarde van de Obligatie. Op de einddatum ontvangt u 100% van de Nominale Waarde, zijnde EUR 1.000.

Debiteurenrisico

Als belegger loopt u debiteurenrisico op de uitgevende instelling van de Obligatie: Centrale Coöperatieve Raiffeisen-Boerenleenbank B.A. (Rabobank Nederland).

Notering

Een aanvraag tot notering aan Euronext Amsterdam by NYSE Euronext is ingediend.

Deze beschrijving van voornaamste kenmerken van de Obligatie is een beschrijving en vertaling van het Prospectus. Het Prospectus is evenwel beslissend. Deze tekst in de Nederlandse taal is opgesteld om zo nauwkeurig als redelijkerwijs mogelijk is aan te sluiten bij de bewoordingen van de Engelstalige documentatie. Bij onderlinge verschillen tussen het Prospectus en deze Nederlandstalige beschrijving zal het Prospectus evenwel doorslaggevend zijn.

Annex II

BELGIAN TAX PARAGRAPH

The following summary describes the principal Belgian tax considerations with respect to the holding of the Notes obtained by an investor following this offer in Belgium.

This information is of a general nature and does not purport to be a comprehensive description of all Belgian tax considerations that may be relevant to a decision to acquire, to hold and to dispose of the Notes. In some cases, different rules can be applicable. Furthermore, the tax rules can be amended in the future, possibly implemented with retroactive effect, and the interpretation of the tax rules may change.

This summary is based on the Belgian tax legislation, rules, and administrative interpretations and similar documentation, in force as of the date of the publication of this offer in Belgium, without prejudice to any amendments introduced at a later date, even if implemented with retroactive effect.

This summary does not describe the tax consequences for a holder of Notes that are redeemable in exchange for, or convertible into shares, of the exercise, settlement or redemption of such Notes and/or any tax consequences after the moment of exercise, settlement or redemption.

Each prospective holder of Notes should consult a professional adviser with respect to the tax consequences of an investment in the Notes, taking into account the influence of each regional, local or national law.

Income taxes

Individual private investors

Natural persons who are noteholders and who are Belgian residents for tax purposes, i.e. who are subject to Belgian personal income tax (*Personenbelasting/Impôt des personnes physiques*), are in Belgium subject to the following tax treatment with respect to the Notes. Other rules can however be applicable in special situations, in particular when natural persons resident in Belgium acquire the Notes for professional purposes or when their transactions with respect to the Notes fall outside the scope of the normal management of their own private estate.

Any amount paid by the Issuer in excess of the issuance price of the Notes at the maturity date or at early redemption, is taxable as interest.

Payments of interest on the Notes made through a paying agent in Belgium will in principle be subject to a 15 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). The Belgian withholding tax constitutes the final income tax for natural persons. This means that they do not have to declare the interest obtained on the Notes in their personal income tax return, provided withholding tax was levied on these interest payments.

However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent, the interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return and will be taxed at a flat rate of 15 per cent. (plus communal surcharges).

If the Notes qualify as fixed income securities in the meaning of article 2, §4 Belgian Income Tax Code, the interest income of the notes is taxable in the hands of each of the successive noteholders based upon the duration that they have been holding the notes. This implies that the noteholders can not avoid taxation by selling the note before maturity or before redemption by the

issuer. According to the tax administration, the taxable event arises at the moment of sale if the noteholder transfers the note to someone other than the issuer. However, the viewpoint of the tax administration is criticised by the majority of the commentators and it has already been overruled in a decision of the Court of Antwerp (decision of 12 March 2002). According to the majority of the authors and the Court of Antwerp, the taxable event can only occur when the note is reimbursed to the final noteholder by the issuer. This also goes for the other noteholders.

An income equal to the pro rata of accrued interest corresponding to the detention period must be declared. Income tax at a flat rate of 15 per cent. to be increased with communal surcharges will be due if no Belgian withholding tax has been levied on the pro rata of accrued interest corresponding to the detention period.

Please be aware that where the noteholder does not have any guarantee that the principal will be recovered and is not entitled to a guaranteed return either (this may be the case with equity linked notes, index linked notes etc.), it is questionable that such notes qualify as fixed income securities.

Capital gains realised on the sale of the Notes, except for the pro rata of accrued interest in the case of fixed income securities, are in principle tax exempt, unless the capital gains are realised outside the scope of the management of one's private estate or unless the Notes are repurchased (whether or not on the maturity date) by the Issuer. In the latter case, the capital gain is taxable as interest.

Tax treatment of Belgian corporations

Corporate noteholders who are subject to Belgian Corporate Income Tax (*Vennootschapsbelasting/Impôt des sociétés*) are subject to the following tax treatment with respect to the Notes.

Interest derived by Belgian corporate investors on the Notes and capital gains realised on the Notes will be subject to Belgian corporate income tax of 33.99 per cent.. Realised capital losses are in principle deductible. Moreover, the tax deductibility of unrealised capital losses can be argued provided that the noteholder (i) does not have any guarantee that the principal will be recovered and (ii) does not have any guaranteed return either (this situation may occur with equity linked notes, index linked notes etc.).

Interest payments to a Belgian corporation made through a paying agent in Belgium may qualify for exemption from withholding tax if a certificate is delivered (articles 108 and 117, § 12 Royal Decree implementing the Belgian Income Tax Code. However, no exemption from Belgian withholding tax applies to zero coupon notes (article 266, par. 2 Belgian Income Tax Code. When Belgian withholding tax was levied, such withholding tax is creditable against the corporate income tax due provided the legal requirements for creditability are met.

Other legal entities

Legal entities noteholders who are Belgian residents for tax purposes and who are subject to Belgian tax on legal entities (*Rechtspersonenbelasting/impôt des personnes morales*) are subject to the following tax treatment with respect to the Notes.

Any amount paid by the Issuer in excess of the issuance price of the Notes at the maturity day or subsequent to early redemption is taxable as interest.

Payments of interest on the Notes made through a paying agent in Belgium will in principle be subject to a 15 per cent. withholding tax in Belgium and no further tax on legal entities will be due on the interest.

However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent and without the deduction of Belgian withholding tax, the legal entity itself is responsible for the payment of 15 per cent. withholding tax.

If the Notes qualify as fixed income securities in the meaning of article 2, §4 Belgian Income Tax Code in case of a realisation of the Notes between two interest payment dates or before maturity / reimbursement by the Issuer, Belgian legal entities are taxable on the pro rata of accrued interest corresponding to the detention period.

Capital gains realised on the sale of the Notes are in principle tax exempt, unless the Notes are repurchased by the Issuer (in which case the capital gain is taxable as interest) and except for the pro rata of accrued interest in the case of fixed income securities.

Special tax regime

Under Belgian tax law, a number of entities such as qualifying pension funds and Undertakings for Collective Investments in Transferable Securities (UCITS) enjoy a special tax regime, whereby interest income is not taken into account for determining the taxable basis.

Non-resident investors

The interest income on the Notes paid through a (financial) intermediary established in Belgium will, in principle, be subject to a 15 per cent. withholding tax subject to such relief as may be available under applicable domestic and tax treaty provisions.

An exemption is available under Belgian domestic provisions in case of payment of interest on the Notes through a (financial) intermediary established in Belgium, provided that such (financial) intermediary qualifies as a recognised credit institution, stock exchange company or clearing or settlement institution and pays the interest to certain qualifying credit institutions, financial intermediaries, clearing and settlement institutions or portfolio management companies established outside of Belgium, referred to in Article 261, para. 4 Belgian Income Tax Code.

A second exemption available under Belgian domestic provisions is in case of payment of interest on the Notes through a (financial) intermediary established in Belgium, provided that such (financial) intermediary qualifies as a recognised credit institution, exchange company or clearing or settlement institution and pays the interest to non-qualifying intermediaries, on the condition that such non-qualifying intermediary certifies that the beneficial owners (i) are non-residents for Belgian income tax purposes, (ii) have not held the Notes as part of a taxable business activity in Belgium, and (iii) are the legal owners, or hold the usufruct of the Notes (art 264bis Belgian Income Tax Code).

A third exemption available under Belgian domestic provisions is in case of payment of interest on the Notes through a (financial) intermediary established in Belgium, provided that such (financial) intermediary qualifies as a recognised credit institution, exchange company or clearing or settlement institution and pays the interest to non-resident beneficial owners directly, on the condition that such non-resident beneficial owner certifies that he or she (i) is a non-resident for Belgian income tax purposes, (ii) has not held the Notes as part of a taxable business activity in Belgium, and (iii) is the legal owner, or holds the usufruct of the Notes (art 230, 2^o, b) Belgian Income Tax Code).

The non-resident companies or professionals who use the debt instruments to exercise a professional activity in Belgium through a permanent establishment are subject to the same tax rules as the Belgian resident companies or Belgian professionals. Non-resident Noteholders who do not allocate the Notes to a professional activity in Belgium are not subject to Belgian income tax, save, as the case may be, in the form of withholding tax.

Tax on stock exchange transactions

The sale and purchase of Notes executed in Belgium through a professional intermediary are subject to 0.07 per cent tax on stock exchange transactions in Belgium. This tax applies to both the acquisition and the sale of the Notes. The rate is computed on the sale or purchasing price (broker's commission is not taken into account nor deducted). The tax is nevertheless capped at €500 per transaction and per party.

However, with respect to notes whereby the Noteholder does not have any guarantee that the principal will be recovered (this may be the case with equity linked notes, index linked notes etc.), it is questionable that such notes can be regarded as "bonds" for the application of Belgian tax law. For such instruments, one should consider that the applicable rate is 0.17 per cent.

The acquisition of Notes pursuant to their issuance is not subject to the tax.

Transactions carried out by a number of investors for their own account are exempt:

- intermediaries as mentioned in article 2, 9° and 10° of the Law of 2 August, 2002 on the supervision of the financial sector and financial services;
- insurance companies as mentioned in article 2, §1 of the Law of 9 July 1975 on the supervision of insurance companies;
- pension funds (*instellingen voor bedrijfspensioenvoorziening / institutions de retraite professionnelle*) as mentioned in article 2, 1° of the Act of 27 October 2006 on the supervision of pension funds;
- UCITS (Undertakings for Collective Investments in Transferable Securities) and
- non-residents (subject to an affidavit of non-residency).

Tax on the physical delivery of bearer securities

Physical delivery of bearer securities in Belgium (other than such delivery as a consequence of the subscription to a new issue of such securities) is subject to a tax of 0.6 per cent. to be paid by the holder. The tax is computed on the sale price if the delivery follows a sale or other transaction for consideration. Exemptions apply among others in respect of deliveries made to certain institutional investors.

It is however not expected that this tax will apply in practice, since Belgian legislation provides a ban on the physical delivery of bearer securities since January 1st 2008 (article 4 of the Act of 14 December 2005).

Gift tax and inheritance taxes

Belgian tax legislation provides both gift tax and inheritance tax.

The rates vary depending on the Region in which the donator or the deceased has/had his residence (Region meaning either the Brussels Region, Flemish Region or Walloon Region).
