## **Final Terms**

dated 03 November 2009

with respect to the

## **Base Prospectus**

dated 24 September 2009

relating to

## **Unlimited TURBO Warrants relating to Shares denominated in USD**

to be publicly offered in the Republic of France

and

to be admitted to trading on a regulated market in the Republic of France

# RISK FACTORS

Prospective purchasers of the TURBO Warrants are advised to read the complete Base Prospectus including the chapter on "Risk Factors" and to seek their own advice (including tax consultants and accountholding bank) before reaching an investment decision.

Potential investors intending to purchase the TURBO Warrants should only purchase the TURBO Warrants if they are able to evaluate the merits and risks of such a purchase and if they are able to sustain the loss of the purchase price and of the transaction costs in connection with the purchase of the TURBO Warrants.

## **RISKS ASSOCIATED WITH THE UNLIMITED TURBO WARRANTS**

- **General**

Unlimited TURBO Warrants on shares denominated in USD (the "**TURBO Warrants**") grant to the holder (the "**Warrantholder**") the right (the "**Option Right**") to receive an amount in cash expressed in or converted into Euro, as the case may be, and multiplied with the Ratio by which the reference price of the underlying asset (the share) (the "**Underlying**") exceeds the Strike Price as determined in the Terms and Conditions of the TURBO Warrants on the Valuation Date (in the case of TURBO BULL Warrants) or is exceeded by the Strike Price (in the case of TURBO BEAR Warrants) (the "**Cash Settlement Amount**"). The Underlying Assets will not be delivered.

**The Option Right will expire upon the occurrence of a Knock-out Event (see below "Knock-out Event").**

The TURBO Warrants do not entitle the Warrantholders to receive a coupon payment or dividend yield and therefore do not constitute a regular source of income. Possible losses in connection with an investment in the TURBO Warrants can therefore not be compensated by other income from the TURBO Warrants.

- **Loss Risks / Knock-out Event**

As soon as, at any time on or following the Issue Date of the TURBO Warrants, a price of the Underlying reaches or falls below (in the case of TURBO BULL Warrants) or reaches or exceeds (in the case of TURBO BEAR Warrants) the Knock-out Level stipulated in the Terms and Conditions (each, a "**Knock-out Event**"), the TURBO Warrants will expire without requiring any further action of the Warrantholder.

In that case, the Knock-out Amount shall be determined by the Issuer in its reasonable discretion (§ 315 BGB) and may be zero. **In that case, the Warrantholder will incur a loss that almost corresponds to the full purchase price paid for the TURBO Warrant**

The Knock-out Level shall be determined by the Issuer for each Adjustment Period by taking into account the relevant prevailing market conditions in its reasonable discretion (§ 315 BGB). As the Strike Price increases (in the case of TURBO BULL Warrants) or decreases (in the case of TURBO BEAR Warrants) on each calendar day during an Adjustment Period, while the Knock-out Level remains unchanged during an Adjustment Period, the difference between the Knock-out Level and the Strike Price will continue to decrease during an Adjustment Period. (For the relevant details, please refer to the Terms and Conditions set out below.)

- ***Continuous Changes in the Strike Price***

With regard to the Cash Settlement Amount due to the investor, solely the difference between the Reference Price of the Underlying and the Strike Price as applicable on the Valuation Date shall be authoritative. It must be taken into account in this context that the Strike Price of the TURBO Warrants will fluctuate daily, and that, in the case of TURBO BULL Warrants, it will mostly increase and, in the case of TURBO BEAR Warrants, it will mostly decrease. If the price of the Underlying does not equally increase or decrease by a corresponding amount, the value of the TURBO Warrants will decrease on each day of the maturity period.

- ***Adjustments and Extraordinary Termination***

The Issuer may be entitled to perform adjustments in accordance with the Terms and Conditions. Such adjustments may have an adverse effect on the value of the TURBO Warrants.

Among other things, in the case of a dividend distribution relating to a share, the applicable Strike Price and the applicable Knock-out Level will be adjusted in the Issuer's reasonable discretion (§ 315 BGB). Such an adjustment shall take effect on the day on which the relevant underlying is traded ex dividend on the exchange.

Holders of TURBO BEAR Warrants should take into account that the adjustment of the Strike Price and the Knock-out Level may trigger a Knock-out Event regarding the relevant TURBO BEAR Warrants if the price of the Underlying Asset on the exchange does not, or does not fully, reflect the ex dividend markdown.

The Issuer may be entitled to give notice of extraordinary termination regarding the TURBO Warrants in accordance with the Terms and Conditions. In that case, the TURBO Warrants shall expire prematurely. The extraordinary termination amount per TURBO Warrant payable to the Warrantheolders shall be determined by the Issuer in its reasonable discretion (§ 315 BGB).

- **"Unlimited" TURBO Warrants; Necessity of Exercise; Sale of the TURBO Warrants**

The essential characteristic of the TURBO Warrants is that the TURBO Warrants are not automatically exercised during their life. It is a prerequisite for the payment of the Cash Settlement Amount that the Warrantheolder has exercised its TURBO Warrants or that the Issuer has terminated the TURBO Warrants. Without such exercise or termination of the TURBO Warrants there is no guarantee that the Warrantheolder will receive the Cash Settlement Amount. As it cannot be expected that the Issuer will terminate the TURBO Warrants the Warrantheolder is compelled to exercise its TURBO Warrants in accordance with the Terms and Conditions of the TURBO Warrants in order to receive the Cash Settlement Amount.

Warrantheolders should be aware that an exercise of the TURBO Warrants is only possible with respect to the Exercise Dates detailed in the Final Terms. During the period between two Exercise Dates a realisation of the economic value of the TURBO Warrants (or part of it) is only possible by selling the Warrants.

A sale of the TURBO Warrants, however, requires that there are market participants willing to purchase the TURBO Warrants at the respective price. If there are no market participants willing to do so the value of the Warrants may possibly not be realised. The Issuer has no obligation to provide for a trading in the TURBO Warrants or to repurchase the TURBO Warrants itself.

- **Risk of Loss due to Changes in the Volatility of the Underlying**

Changes in the frequency and intensity of fluctuations in the price of the Underlying anticipated by the market participants (implied volatility) may reduce the value of the TURBO Warrants even if the price of the Underlying does not change. A generally positive development in the price of the Underlying does not necessarily result in an increase in the price of the TURBO Warrants. The price of the TURBO Warrants may even fall if the performance of the Underlying is overcompensated by a decreasing volatility with a negative effect on the value of the TURBO Warrants.

- **Risk of Loss due to a Decrease in the Time Value**

Depending on the expectations of the market participants with respect to the future performance of the Underlying, they are prepared to pay a price for a TURBO Warrant which differs to a greater or lesser extent from the intrinsic value of the TURBO Warrant (the intrinsic value means the amount by which the market price of the Underlying exceeds the Strike Price (in the case of a TURBO BULL Warrant) or is exceeded by the Strike Price (in the case of a TURBO BEAR Warrant)).

- **Risk associated with Leverage**

A typical feature of TURBO Warrants is their leverage effect on the earnings prospects of the invested capital: The price of TURBO Warrants always reacts over proportionately to changes in the price of the Underlying and, thus, offer chances of higher profit during their lifetime - but bear at the same time high risks of incurring a loss. This is because the leverage has an effect in both directions - i.e. not only upwards in favourable periods, but also downwards in unfavourable periods. The greater the leverage, the riskier the purchase of TURBO Warrants.

- **Time Lag after Exercise – Market Disruption Event**

In the case of any exercise of the TURBO Warrants, there will be a time lag between the time a Warrantholder gives instructions to exercise and the time the applicable Cash Settlement Amount relating to such exercise is determined. Any such delay between the time of exercise and the determination of the Cash Settlement Amount will be specified in the applicable Final Terms. However, such delay could be significantly longer, particularly in the case of the occurrence of a market disruption event (if applicable) or following the imposition of any exchange controls. The applicable price of the Underlying may change significantly during any such period, and such movement or movements could decrease the Cash Settlement Amount of the TURBO Warrants being exercised and may result in such Cash Settlement Amount being zero.

- **TURBO Warrants are Unsecured Obligations**

The TURBO Warrants are unsecured and unsubordinated obligations of the Issuer and will rank pari passu with all present and future unsecured and unsubordinated obligations of the Issuer, without any preference among themselves and without any preference one above the other by reason of priority of date of issue, currency or any payment or otherwise, except for obligations given priority by law. Any person who purchases any of the TURBO Warrants is relying upon the creditworthiness of the Issuer and has no rights under the TURBO Warrants against any other person. Together with the general investment risk an investment in the TURBO Warrants is also concerned with possible default risk of the Issuer. The Issuer may issue several issues of warrants relating to various reference underlying assets which may be specified in the applicable Final Terms. However, no assurance can be given that the Issuer will issue any warrants other than the warrants to which a particular set of Final Terms relates. At any given time, the number of warrants outstanding may be substantial. TURBO Warrants provide opportunities for investment and pose risks to investors as a result of fluctuations in the value of the underlying asset. In general, certain risks associated with the TURBO Warrants are similar to those generally applicable to other options or warrants of private corporate issuers.

- **Issuer Risk**

In addition to the risk connected with the investment in the Underlying of a TURBO Warrant, the investor bears the risk that the financial situation of the Issuer of the TURBO Warrant declines – or that insolvency or bankruptcy proceedings are instituted against the Issuer – and that as a result the Issuer cannot fulfil its payment obligations under the TURBO Warrants.

- **Possible Illiquidity of the Turbo Warrants in the Secondary Market**

It is not possible to predict the price at which TURBO Warrants will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer may, but is not obliged to, list TURBO Warrants on a stock exchange.

The Issuer may, but is not obliged to, at any time purchase TURBO Warrants at any price in the open market or by tender or private treaty. Any TURBO Warrants so purchased may be held or resold or surrendered for cancellation. The Issuer may, but is not obliged to, be a market-maker for an issue of TURBO Warrants. Even if the Issuer is a market-maker for an issue of TURBO Warrants, the secondary market for such TURBO Warrants may be limited. To the extent that an issue of TURBO Warrants becomes illiquid, an investor may have to exercise such TURBO Warrants to realise value.

Important factors in determining the price of TURBO Warrants are in particular:

- the actual price of the relevant Underlying and the expectations of market participants regarding its price, and
- the anticipated frequency and intensity of fluctuations in the price of the relevant Underlying (volatility).

- **Potential Conflicts of Interest**

The Issuer and its affiliates may also engage in trading activities (including hedging activities) related to the Underlying of the TURBO Warrants and other instruments or derivative products based on or related to the Underlying for their proprietary accounts or for other accounts under their management. The Issuer and its affiliates may also issue other derivative instruments in respect of the Underlying. Such activities could present certain conflicts of interest, could influence the prices of the Underlying or other securities and could adversely affect the value of such TURBO Warrants.

- **Risks in connection with Borrowing**

If the investor obtains a loan in connection with financing the purchase of the TURBO Warrants the investor does not only bear the risk of sustaining the loss in connection with the TURBO Warrants if the price of the Underlying develops unfavourably, but also has to pay back the loan and pay the interest connected with it. This means a substantial increase in risk. An investor can never rely on being able to pay back the loan and the interest connected with it through gains derived from the purchase of the TURBO Warrants. Prospective purchasers of TURBO Warrants should therefore carefully consider their particular financial circumstances and whether they will be able to pay back the loan and pay the interest connected with it even if the investor has to sustain losses instead of the expected gains.

- **Risks associated with Currency**

If the Underlying Asset of the TURBO Warrants is quoted in another currency than the TURBO Warrant any risk in connection with an investment in the TURBO Warrants does not only depend on the development of the price of the Underlying Asset but also on the development of the respective currencies. Unfavourable developments in these markets can increase the risk and could lead to a decrease in the value of the TURBO Warrants or in the Cash Settlement Amount.

- **Transactions Excluding or Limiting Risk**

The investor cannot expect that at all times during the lifetime of the TURBO Warrants transactions can be concluded which exclude or limit the risks incurred from a purchase of TURBO Warrants; this depends on the market conditions and the specific features of such TURBO Warrants as specified in the Final Terms of such TURBO Warrants. Such transactions can under certain circumstances be concluded only at an unfavourable market price and lead to a corresponding loss.

- **Influence of ancillary Costs on Potential Profit**

Investors should consider that the return on the investment in the TURBO Warrants is reduced by the costs in connection with the purchase and sale of the TURBO Warrants.

Minimum or fixed commissions per transaction (purchase and sale) combined with a low order value (price of the TURBO Warrant times quantity) can lead to costs which, in extreme cases, may exceed the value of the TURBO Warrants purchased. Additional costs arise generally if the TURBO Warrants are exercised. Together with the costs directly linked to the purchase of the TURBO Warrants, these additional costs may be considerable compared with the total Cash Settlement Amount received by the Warrantholder exercising his TURBO Warrants.

- **The Influence of Hedging Transactions of the Issuer on the TURBO Warrants**

The Issuer and/or its affiliates may in the course of their normal business activity engage in trading in the Underlying Asset. In addition, the Issuer may conclude transactions in order to hedge itself partially or completely against the risks associated with the issue of the TURBO Warrants. These activities of the Issuer and/or its affiliates may have an influence on the market price of the TURBO Warrants. A possibly negative impact of the conclusion or dissolution of these hedging transactions on the value of the TURBO Warrants or the size of the Cash Settlement Amount to which the holder of a Warrant is entitled cannot be excluded.

- **Risk Factors relating to the underlying**

The value of the respective underlying depends on a number of interrelated factors, including economic, financial and political events beyond the Issuer's control. The historical experience of the respective underlying should not be taken as an indication of future performance of such underlying during the term of any Warrant. Additionally, there may be regulatory and other ramifications associated with the ownership by certain investors of the TURBO Warrants.

## ●● Special Risks of TURBO Warrants relating to Shares

Shares are associated with particular risks, such as the risk that the respective company will be rendered insolvent, the risk that the share price will fluctuate or risks relating to dividends, over which the Issuer has no control. The performance of the shares depends to a very significant extent on developments on the capital markets, which in turn depend on the general global economic situation and more specific economic and political conditions. Shares in companies with low to medium market capitalisation may be subject to even higher risks (e.g. relating to their volatility or insolvency) than is the case for shares in larger companies. Moreover, shares in companies with low capitalisation may be extremely illiquid as a result of low trading volumes.

Shares of companies with its statutory seat or with significant business operations in countries with limited certainty of law are subject to additional risks such as, for instance, government interventions or nationalisation which may lead to a total or partial loss of the invested capital or of access to the capital invested in such country. The realisation of such risks may also lead to a total or partial loss of the invested capital for holders of TURBO Warrants linked to such shares.

Holders of TURBO Warrants that are linked to share prices do, contrary to investors which directly invest in the shares, not receive dividends or other distributions payable to the holders of the underlying shares.

4. The term "**Warrantholder**" in these Terms and Conditions refers to the holder of a co-ownership participation in or right with respect to the Global Warrant.

## § 2

### (DEFINITIONS)

1. For the purposes of these Terms and Conditions, the following definitions shall apply (subject to an adjustment in accordance with § 5):

The "**Adjustment Amount**" shall change monthly on each Adjustment Day and shall then be applicable for the duration of the Adjustment Period beginning on such Adjustment Day. It shall correspond to the Strike Price on the Adjustment Day occurring within the relevant Adjustment Period, multiplied by the Adjustment Percentage valid during such Adjustment Period. With regard to the first Adjustment Period, the Strike Price on the Issue Date shall be used for the aforementioned calculations.

The "**Adjustment Day**" shall be the first calendar day in each month or, if such day is not a Business Day, the next following Business Day. The first Adjustment Day shall be 1 December 2009.

The "**Adjustment Percentage**" applicable during an Adjustment Period shall be the sum of (i) the interest rate published on USDLIBOR1M (or a successor page thereto) on the Adjustment Day falling within the relevant Adjustment Period (the "**Reference Interest Rate**") and (ii) the Interest Rate Adjustment Factor applicable during the relevant Adjustment Period, the result being divided by 365. The Reference Interest Period for the first Adjustment Period shall be 0.67%.

The "**Adjustment Period**" shall be the period of time commencing on the Issue Date until the first Adjustment Day (exclusive) and each subsequent period of time commencing on an Adjustment Day (inclusive) until the next following Adjustment Day (exclusive).

"**Exercise Date**" means the last Payment Business Day in the month of December of each year. The first Exercise Date is 30 December 2009.

**"Exchange"**

The Exchange is the stock exchange referred to in paragraph 2.

**"Exchange Business Day"** shall be any day on which the Exchange and the Related Exchange are open for trading during their respective regular trading sessions, notwithstanding the Exchange or Related Exchange closing prior to its scheduled weekday closing time. Any trading or trading activities after or before the regular trading sessions on the Exchange or the Related Exchange will not be taken into account.

The **"Interest Rate Adjustment Factor"** shall be a percentage determined by the Issuer on an Adjustment Day for the Adjustment Period beginning on such Adjustment Day in its reasonable discretion (§ 315 German Civil Code (BGB)), in each case taking into account the prevailing market conditions. The Interest Rate Adjustment Factor for the first Adjustment Period shall be the percentage stated in paragraph 2.

The respective Interest Rate Adjustment Factor for subsequent Adjustment Periods shall in each case be published on the Issuer's website at [www.warrants.commerzbank.com](http://www.warrants.commerzbank.com).

**"Issue Date"** shall be 03 November 2009.

The **"Knock-out Level"** for the first Adjustment Period shall correspond to the value stated in paragraph 2. For each additional Adjustment Period, the Knock-out Level shall be determined by the Issuer in its reasonable discretion (§ 315 German Civil Code (BGB)) on the Adjustment Day falling within the relevant Adjustment Period by taking into account the relevant prevailing market conditions (in particular, the share's volatility).

The respective Knock-out Level shall in each case be published on the Issuer's website at [www.warrants.commerzbank.com](http://www.warrants.commerzbank.com).

**"Market Disruption Event"** means the occurrence or existence of any suspension of, or limitation imposed on, trading in (a) the Share on the Exchange, or (b) any option or futures contracts relating to the Share on the Related Exchange (if such option or futures contracts are traded on the Related Exchange), provided that any such suspension or limitation is material in the reasonable discretion of the Issuer (§ 315 German Civil Code (BGB)). The occurrence of a Market Disruption Event shall be published in accordance with § 11.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits shall only be deemed to be a Market Disruption Event if such limitation still prevails at the time of termination of the trading hours on such date.

**"Payment Business Day"** means a day on which the Trans-European Automated Real-Time Gross settlement Express Transfer system which utilises a single shared platform (TARGET2) is open.

The Strike Price on a calendar day ("**T**") shall correspond to the Strike Price on the preceding calendar day ("**T-1**"), plus (in the case of TURBO BULL Warrants) or less the Adjustment Amount applicable on T-1 (in the case of TURBO BEAR Warrants). The Strike Price resulting for each calendar day shall be rounded commercially to two decimal places; the calculation of the respective following Strike Price, however, shall be performed on the basis of the unrounded Strike Price for the preceding day.

The Strike Price on the Issue Date shall correspond to the value stated in paragraph 2.

The respective Strike Price shall in each case be published on the Issuer's website at [www.warrants.commerzbank.com](http://www.warrants.commerzbank.com).

**"Valuation Date"**

The Valuation Date shall be the Exercise Date.

If on the Valuation Date the Reference Price of the Share is not determined and published by the Exchange or on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Exchange Business Day on which the Reference Price of the Share is determined and published again by the Exchange and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for three consecutive Exchange Business Days, and if also on such day the Reference Price of the Share is not determined and published by the Exchange or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price of the Share in its reasonable discretion (§ 315 German Civil Code (BGB)), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 11.

The "**Underlying**" shall be the security referred to in paragraph 2 (the "**Share**").

2. For each series of Warrants the terms "Share"; "Strike Price on the Issue Date", "Knock-out Level during the first Adjustment Period", "Interest Rate Adjustment Factor during the first Adjustment Period", "Exchange" and "Ratio", shall have the following meaning:

### § 3

#### (OPTION RIGHT, KNOCK-OUT EVENT, EXERCISE, SETTLEMENT)

1. Subject to the occurrence of a Knock-out Event in accordance with paragraph 2. and subject to the occurrence of an Early Termination of the Warrants according to § 4, each Warrant grants to the Warrantholder the right (the "**Option Right**"), to receive upon exercise from the Issuer the payment of the Cash Settlement Amount in accordance with these Terms and Conditions of the Warrants.

The Cash Settlement Amount is the amount expressed in U.S. Dollar. ("**USD**") and converted into Euro ("**EUR**") (rounded, if necessary, to the next Eurocent (EUR 0.01) with EUR 0.005 rounded upwards) determined in accordance with the following formula:

$(\text{Underlying}_{\text{final}} - \text{Strike Price}) \times \text{Ratio}$  (in the case of TURBO BULL Warrants)

or

$(\text{Strike Price} - \text{Underlying}_{\text{final}}) \times \text{Ratio}$  (in the case of TURBO BEAR Warrants)

where

$\text{Underlying}_{\text{final}} =$  the Reference Price of the Underlying on the Valuation Date

$\text{Strike Price} =$  the Strike Price applicable on the Valuation Date

The conversion into EUR shall be made at the Relevant Conversion Rate.

2. If on any day during the period from and including the Issue Date to and including the Valuation Date at a time on which no Market Disruption Event occurs any price of the Share as determined and published by the Exchange (in the case of TURBO BULL Warrants) or equal to or above the Knock-out Level (in the case of TURBO BEAR Warrants), the Option Right pursuant to paragraph 1 shall expire and no Cash Settlement Amount shall be payable to the Warrantholder by the Issuer.

If a Knock-out Event occurs, the Knock-out Amount per Warrant (the "**Knock-out Amount**") shall be determined by the Issuer in its reasonable discretion (§ 315 German Civil Code (BGB)) as the fair value of the Warrants at the date as determined by the Issuer in the notification of the termination and may be zero.

The Knock-out Amount shall be published on the Issuer's website at [www.warrants.commerzbank.com](http://www.warrants.commerzbank.com).

3. Any exercise of Warrants by the Warrantholder shall be carried out in accordance with the provisions of the following paragraphs:

- (a) Exercise Notice

In order to validly exercise the Option Right with respect to an Exercise Date, the Warrantholder shall not later than on the tenth Payment Business Day prior to the requested Exercise Date

- (i) deliver a written, binding and irrevocable exercise notice (the "**Exercise Notice**") to the Warrant Agent (§ 9) by use of the form available at the Warrant Agent's or by providing all information and statements requested therein. The Warrant Agent shall be authorised to reject notices which do not comply with this form or that do not provide all information and statements requested therein, and any determination by the Warrant Agent as to whether an Exercise Notice is duly completed and in proper form shall be conclusive and binding on

the relevant Warrantholder. Notwithstanding this, in the event that any Exercise Notice is subsequently corrected to the satisfaction of the Warrant Agent, it shall be deemed to be a new Exercise Notice, submitted at the time such correction is delivered to the Warrant Agent; and

- (ii) deliver the Warrants to the Warrant Agent either by means of (1) an irrevocable instruction given to the Warrant Agent to withdraw the relevant Warrants from the collective safe custody account, if any, opened with the Warrant Agent, or (2) transferring the relevant Warrants to the account of the Warrant Agent with the Clearing System.

The delivery of an Exercise Notice shall constitute the irrevocable decision of the relevant Warrantholder to exercise the Warrants specified therein. After delivery of such Exercise Notice, such exercising Warrantholder may not otherwise transfer such Warrants. If, notwithstanding this, any Warrantholder transfers or attempts to transfer such Warrants, the Warrantholder will be liable to the Issuer for any loss, costs and expenses suffered or incurred by the Issuer, including, without limitation, those suffered or incurred as a consequence of it having terminated any related hedging operations in reliance on the relevant Exercise Notice and subsequently entering into replacement hedging operations in respect of such Warrants.

(b) Settlement

- (i) The Issuer shall pay or cause to be paid not later than on the fifth Payment Business Day following the Valuation Date the Cash Settlement Amount to the account indicated by the Warrantholder, subject to compliance by the Warrantholder with the exercise procedure as described above.
- (ii) Exercise of the Warrants and payments by the Issuer will be subject in all cases to any applicable fiscal or other laws, regulations and practices in force at the relevant time. However, the Issuer shall not incur any liability whatsoever in the future if it is unable to pay the Cash Settlement Amount, after using reasonable effort, as a result of such laws, regulations and practices. The Issuer shall not under any circumstances be liable for any acts or default of any clearing system in the performance of its duties in relation to the Warrants.
- (iii) All taxes duties or other charges in connection with the exercise of the Warrants are to be borne and paid by the Warrantholders. Any additional cost arising from the exercise of the Warrants shall not be borne by the Issuer.

**§ 4**

**(ORDINARY TERMINATION BY THE ISSUER)**

1. The Issuer shall be entitled to terminate the Warrants in whole but not in part with respect to each Banking Day in the months of December of each year. (each of such dates an "**Ordinary Termination Date**") (the "**Ordinary Termination**"). The first Ordinary Termination Date shall be 30 December 2009.
2. Any such Ordinary Termination must be announced at least 28 days prior to the Ordinary Termination Date in accordance with § 11. Such announcement shall be irrevocable and must state the Ordinary Termination Date.
3. In the case of an Ordinary Termination of the Warrants each Warrantholder shall receive a payment per Warrant as determined in accordance with the provisions of § 3 paragraph 1. The Valuation Date shall be the fifth Payment Business Day prior to the respective Ordinary Termination Date.

4. Any amounts that are payable pursuant to these terms and conditions in the case of Ordinary Termination shall be paid to the Paying Agent subject to the provision that the Paying Agent transfer such amounts to the Clearing System for the purposes of crediting the accounts of the relevant depository banks and forwarding on to the Warranholders.
5. Upon notification of the Ordinary Termination of the Warrants the right to the Warranholder to exercise the Warrants in accordance with § 4 shall expire.

**§ 5**  
**(ADJUSTMENTS, EXTRAORDINARY TERMINATION)**

1. If an Adjustment Event or an Extraordinary Event (both as defined below) has occurred, the Issuer is entitled to make adjustments to the Terms and Conditions of the Warrants taking into consideration the provisions set forth hereinafter. If an Extraordinary Event has occurred, the Issuer may (instead of an adjustment) terminate and redeem all, but not less than all Warrants prematurely on the early termination date (the "**Extraordinary Termination Date**") with a prior notice of seven Payment Business Days in accordance with § 11, provided that an adjustment is not possible or is unreasonable (*unzumutbar*) for the Issuer. In any case, the Issuer is neither obliged to make adjustments to the Terms and Conditions of the Warrants nor to early terminate the Warrants.
  - (a) When making adjustments to the Terms and Conditions, the Issuer shall act in its reasonable discretion (§ 315 German Civil Code (BGB)) and is entitled, but not obligated, to take into consideration the adjustments to option or futures contracts relating to the Share made by the Related Exchange or that would have been made by the Related Exchange if such option or futures contracts were traded on the Related Exchange.

Any of the before-mentioned adjustments may, among others, relate to the Strike Price, the Knock-out Level as well as the Ratio and may result in the Share being replaced by other securities, a basket of securities and/or cash, and another stock exchange being determined as the Exchange. However, the Issuer is also entitled to make other adjustments taking into consideration the before-mentioned principles.

Adjustments and determinations take effect as from the date determined by the Issuer in its reasonable discretion (§ 315 German Civil Code (BGB)), provided that (in case the Issuer takes into consideration the manner in which adjustments are or would be made by the Related Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Related Exchange if such option or futures contracts were traded at the Related Exchange.

Adjustments as well as the effective date shall be notified by the Issuer in accordance with § 11.

- (b) If the Warrants are called for redemption due to the occurrence of an Extraordinary Event, they shall be redeemed at the extraordinary termination amount per Warrant (the "**Extraordinary Termination Amount**") which shall be calculated by the Issuer in its reasonable discretion (§ 315 German Civil Code (BGB)). Such Extraordinary Termination Amount shall be notified in accordance with § 11. The rights arising from the Warrants will terminate upon the payment of the Extraordinary Termination Amount. The provisions of § 3 paragraph 3 shall apply *mutatis mutandis*.
