## PART B – OTHER INFORMATION

### 1. LISTING AND ADMISSION TO TRADING

- (i) Listing Official List of the Luxembourg Stock Exchange
- (ii) Admission to trading: Application has been made by the Issuer (or on its behalf) for the Notes to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange with effect on or about the Issue Date

### 2. RATINGS

Ratings: The Issuer's long-term/short-term senior debt is rated:

- (i) S&P: A/A-1 (Stable Outlook)
- (ii) Moody's: A3/P-1 (Stable Outlook)
- (iii) Fitch: A+/F1+ (Stable Outlook)

based on the guarantee by Citigroup Inc.

The ratings and outlooks are subject to change during the term of the Notes

***Standard & Poor's Ratings Services, a division of The McGraw–Hill Companies, Inc. (S&P)***

An obligation rated 'A' by S&P is somewhat susceptible to the adverse effect of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong. Ratings may be modified by the addition of a plus (+) or minus (-) sign to show the relative standing within the rating category

A short-term obligation rated 'A-1' by S&P is rated in the highest category by S&P. The obligor's capacity to meet its financial commitment on the obligation is strong

An S&P rating outlook assesses the potential direction of a long-term credit rating over the intermediate term (typically six months to two years). In determining a rating outlook, consideration is given to any changes in the economic and/or fundamental business conditions. An outlook is not necessarily a precursor of a rating change or future CreditWatch action. 'Stable' means that a rating is not likely to change

### ***Moody's Investors Service (Moody's)***

Obligations rated 'A' by Moody's are considered upper-medium grade and are subject to low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category

Issuers (or supporting institutions) rated Prime-1 (P-1) by Moody's have a superior ability to repay short-term debt obligations

A Moody's rating outlook is an opinion regarding the likely direction of a rating over the medium term. Where assigned, rating outlooks fall into the following four categories: Positive (POS), Negative (NEG), Stable (STA), and Developing (DEV - contingent upon an event)

### ***Fitch Ratings Ltd. (Fitch)***

Obligations rated 'A+' by Fitch denote expectations of low credit risk. This rating indicates that the capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to changes in circumstances or in economic conditions than is the case for higher ratings. The modifier '+' appended to the rating denotes relative status within this rating category

Obligations rated 'F1+' denote the highest credit quality and indicate the strongest capacity for timely payment of financial commitments; the '+' denotes an exceptionally strong credit feature

Rating outlook: An outlook indicates the direction a rating is likely to move over a one to two-year period. Outlooks may be positive, stable or negative. A positive or negative rating outlook does not imply a rating change is inevitable. Similarly, ratings for which outlooks are 'stable' could be upgraded or downgraded before an outlook moves to positive or negative if circumstances warrant such an action. Occasionally, Fitch may be unable to identify the fundamental trend. In these cases, the rating outlook may be described as evolving

A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time. Each rating should be evaluated independently of any other rating

The Issuer's credit ratings are an assessment of the Issuer's ability to meet its obligations under the Notes, including making payments under the Notes. Consequently, actual or anticipated changes in the Issuer's credit ratings may affect the trading value of the Notes. However, because the Notes' yield is dependent on certain factors in addition to the Issuer's ability to pay its obligations on the Notes, an improvement in the Issuer's credit ratings will not reduce the other investment risks related to the Notes

### **3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER**

Save as discussed in "Plan of Distribution for Notes" in the Base Prospectus, so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the Offer(s)

### **4. REASONS FOR THE OFFER, ESTIMATED NET PROCEEDS AND TOTAL EXPENSES**

## ANNEX

### FRENCH TAXATION

The following is a summary addressing only the French compulsory withholding tax treatment of income arising from the Notes. This summary is (i) based on the laws and regulations in full force and effect in France as at the date of these Final Terms, which may be subject to change in the future, potentially with retroactive effect, and (ii) prepared on the assumption that the Issuer and the Guarantor are not French residents for French tax purposes and are not acting from a French branch or permanent establishment in connection with the Notes. Investors should be aware that the comments below are of a general nature and do not constitute legal or tax advice and should not be understood as such. Prospective investors are therefore advised to consult their own qualified advisors so as to determine, in the light of their individual situation, the tax consequences of the purchase, holding, redemption or sale of the Notes.

All payments by the Issuer and the Guarantor in respect of the Notes will be made free of any compulsory withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by France or any political subdivision or taxing authority thereof or therein.

The EC Council Directive 2003/48/EC on the taxation of savings income has been implemented into French law under article 242 ter of the French tax code (*Code général des impôts*), which imposes on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners resident in another Member State, including, the identity and address of the beneficial owner and a detailed list of different categories of interest paid to the beneficial owner.
